

## Customizable CNC Lathe Machine Parts with OEM/ODM CNC Milling Turning Machining Service

Our Product Introduction

For more products please visit us on [lathecnrmachining.com](http://lathecnrmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

### Product Specification

- Process: Cnc Machining + Surface Treatment
- Tolerance: +/-0.005mm
- Surface Treatment: Anodizing, Polishing, Plating, Painting
- MOQ: 1 Piece
- CNC Machining Or Not: Cnc Machining
- Micro Machining Or Not: Micro Machining
- OEM/ODM: OEM ODM CNC Milling Turning Machining Service
- Highlight: **OEM CNC Lathe Machine Parts,  
Customizable CNC Lathe Machine Parts,  
ODM CNC Lathe Machine Parts**

### Product Description

**Product Description:**

Our Product

CNC Lathe Machine Parts are precision machined components used in a wide range of industrial and commercial applications, from the automotive industry to the medical sector. Our CNC Lathe Machine Parts are made with high precision and accuracy, allowing for tight tolerances of  $\pm 0.005\text{mm}$  and a quality finish that meets the highest standards. We offer a comprehensive range of CNC Lathe Machine Parts in various sizes and materials, with custom options available for specific requirements. Our CNC Lathe Machine Parts are produced using the latest advanced computerized machining technology and techniques, enabling us to provide our clients with superior quality, cost-effective parts. We also provide OEM and ODM services for CNC Lathe Machine Parts, including milling, turning, broaching, drilling, etching/chemical machining, laser machining, rapid prototyping, and wire EDM services. We accept orders of any size, with a minimum order quantity of only 1 piece. Our team of experienced engineers can work with a variety of drawing formats, including 2D (PDF/CAD) and 3D (IGES/STEP). Our CNC Lathe Machine Parts are ideal for a wide range of custom machining solutions, from computerized machining parts to custom machining parts.

### Features:

Product Name: CNC Lathe Machine Parts  
CNC Machining or Not: Cnc Machining  
Brand Name: OEM/ODM Aluminum Anodizing Part  
Surface Roughness: Ra 0.1~3.2, As Requirement  
Place of Origin: Guangdong, China  
Equipment: 3/4/5 Axis Center Machining  
Keywords: CNC Lathe Parts, Computerized Lathe Parts, Computer Numerical Control Parts

### Technical Parameters:

Properties	Value
Certification	IATF 16949: 2016/ISO 9001:2015
MOQ	1 Piece
OEM/ODM	OEM ODM CNC Milling Turning Machining Service
Model Number	OEM Customized Metal Parts Machining
Process	Cnc Machining + Surface Treatment
Surface Roughness	Ra 0.1~3.2, As Requirement
Surface treatment	Anodizing, Polishing, Plating, Painting
Place of Origin	Guangdong, China
CNC Machining or Not	Cnc Machining
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

### Applications:

Industrial Man's CNC Lathe Machine Parts are high-precision components that are produced using advanced CNC Lathe technology. Our CNC Lathe Parts are manufactured with strict tolerance levels, up to  $\pm 0.005\text{mm}$ , and can be customized according to customer's drawings or other formats, such as 2D/3D (PDF/CAD) and IGES/STEP. We provide a wide range of CNC lathe parts manufacturing services, including broaching, drilling, etching/chemical machining, laser machining, milling, rapid prototyping, turning, and wire EDM. In addition, our CNC Machining Components are also available with surface treatments, such as sandblasting, anodizing, polishing, and painting, to suit customer's needs.

Industrial Man specializes in the production of CNC Lathe Parts and CNC Machining Components for a variety of industries, such as automotive, aerospace, medical, and consumer products. Our advanced CNC lathe technology and highly skilled personnel ensure high quality and precision parts that meet customer's requirements. Our CNC Lathe Parts are also designed to be durable and reliable, making them ideal for long-term use. With our experienced team, we are able to provide timely delivery and cost-effective solutions for our customers.

### Customization:

We offer custom CNC Lathe Machine Parts that are precision machined to meet the most exacting standards. Our Computer Numerical Control (CNC) Parts are designed to meet the exact specifications and requirements of our customers. With a full range of Computerized Machining Parts and Customized Machining Parts, we can meet any project requirements. Our CNC Lathe Machine Parts are manufactured with the highest quality materials and to the tightest tolerances, ensuring that our parts are of the highest quality.

Brand Name: OEM/ODM Aluminum Anodizing Part  
Model Number: OEM  
Place of Origin: Guangdong, China  
Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)  
Tolerance:  $\pm 0.005\text{mm}$   
Equipment: 3/4/5 Axis Center Machining  
Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

We are committed to providing our customers with the best quality and value in CNC Lathe Machine Parts and Computerized Machining Parts. Our team of experienced engineers is dedicated to ensuring that our parts are produced to the highest standards and meet the exact specifications of our customers. We use the latest technology and equipment to ensure that our parts are of the highest quality and performance.

Our CNC Lathe Machine Parts are manufactured with the utmost accuracy and precision in mind, ensuring that our parts are of the highest quality and capable of meeting the most exacting standards. Our Computerized Machining Parts are designed to meet the exact requirements of our customers, providing the highest levels of accuracy and performance. Our Customized Machining Parts are designed with the highest levels of customization in mind, allowing our customers to get the exact parts they need for their project.

### Support and Services:

CNC Lathe Machine Parts offers technical support and services for our customers. Our highly trained technicians are available to provide support for any questions or concerns you may have. We provide technical support for a variety of issues, including installation, maintenance, troubleshooting, and more. We also offer training programs to help you maximize the performance of your CNC Lathe Machine Parts. Our experienced staff is dedicated to ensuring your satisfaction with our products and services.

### Packing and Shipping:

CNC Lathe Machine Parts Packaging and Shipping

Packaging: CNC Lathe Machine Parts should be packaged in containers that are strong, secure and moisture-resistant. The packed items should be clearly labeled and protected from damage during transportation.

Shipping: CNC Lathe Machine Parts should be shipped via a reliable carrier with tracking information and delivery confirmation. The shipping method should be carefully selected to ensure that the items arrive in their original condition.

### FAQ:

Q: What is the brand name for CNC Lathe Machine Parts?

A: The brand name for CNC Lathe Machine Parts is Industrial Man.

Q: What is the model number for CNC Lathe Machine Parts?

A: The model number for CNC Lathe Machine Parts is OEM.

Q: Where are CNC Lathe Machine Parts made?

A: CNC Lathe Machine Parts are made in Guangdong, China.

Q: What materials are used for CNC Lathe Machine Parts?

A: CNC Lathe Machine Parts are typically made from a variety of metals, including aluminum, brass, and steel.

Q: What type of services does Industrial Man provide for CNC Lathe Machine Parts?

A: Industrial Man provides custom manufacturing services for CNC Lathe Machine Parts, including prototyping, machining, CNC turning, and assembly.
