

IATF 16949 2016/ISO 9001 2015 Certified CNC Lathe Machine Parts with High Precision

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM Customized Metal Parts Machining
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- OEM/ODM: OEM ODM CNC Milling Turning Machining Service
- Tolerance: +/-0.005mm
- CNC Machining Or Not: Cnc Machining
- Surface Roughness: Ra 0.1~3.2, As Requirement
- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- MOQ: 1 Piece
- Highlight: **High Precision CNC Lathe Machine Parts, IATF 16949 CNC Lathe Machine Parts, ISO 9001 CNC Lathe Machine Parts**

Product Description

Product Description:

Our Product

CNC Lathe Machine Parts are precision-engineered components that are manufactured using advanced Computer Numerical Control (CNC) machining techniques. They are widely used in a variety of industries for their superior performance and excellent precision. Our CNC Lathe Machine Parts are made from high-grade materials with surface roughness ranging from Ra 0.1~3.2, depending on customer requirements. They are designed to meet the highest standards of quality, accuracy and reliability. Our CNC Lathe Machine Parts are manufactured in accordance with IATF 16949: 2016/ISO 9001:2015 certification and can be made available in 2D/(PDF/CAD)3D(IGES/STEP) drawing formats. These CNC machining components are widely recognized for their superior quality, durability, and stability. Our CNC Lathe Machine Parts are available in a variety of shapes and sizes to meet all your requirements.

Features:

Product Name: CNC Lathe Machine Parts
Brand Name: OEM/ODM Aluminum Anodizing Part
Micro Machining or Not: Micro Machining
OEM/ODM: OEM ODM CNC Milling Turning Machining Service
Process: CNC Machining + Surface Treatment
Surface Roughness: Ra 0.1~3.2, As Requirement
Computerized Lathe Parts
CNC Machining Components
Aluminum Anodizing Part
Micro Machining
OEM ODM CNC Milling Turning Machining Service

Technical Parameters:

Attributes	Description
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
Model Number	OEM Customized Metal Parts Machining
MOQ	1 Piece
Micro Machining or Not	Micro Machining
Tolerance	+/-0.005mm
Surface Roughness	Ra 0.1~3.2, As Requirement
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Process	Cnc Machining + Surface Treatment
CNC Machining or Not	Cnc Machining
Place of Origin	Guangdong, China
Special Parts	Computer Numerical Control Parts, Computer Numerical Control Parts, CNC Machining Components, Customized CNC Parts

Applications:

Industrial Man's CNC Lathe Machine Parts are the perfect solution for a variety of engineering and manufacturing applications. The high precision parts are produced using the latest computerized numerical control (CNC) technology, ensuring accuracy and repeatability. Our CNC lathe parts are designed with a tight tolerance of +/-0.005mm that can meet the most demanding requirements. We also specialize in providing surface treatment options such as anodizing, polishing, plating, and painting.

Our CNC lathe parts are ideal for use in a wide range of industries, from aerospace and automotive to medical and consumer products. We can handle any size of orders, from small batches to large-scale production runs. Our ISO 9001:2015 and IATF 16949:2016 certified quality management system ensures that all of our CNC lathe parts meet the highest standards of quality and safety.

Whether you need custom-made CNC lathe parts for computerized machining, drilling, etching/chemical machining, laser machining, milling, rapid prototyping, turning, or wire EDM, Industrial Man has the experience and expertise to deliver the highest quality parts. Our CNC lathe parts are produced with a focus on precision, performance, and reliability, making them the perfect choice for any project.

Customization:

We provide customized service for **CNC Lathe Machine Parts** with the following attributes:

Brand Name: **OEM/ODM Aluminum Anodizing Part**

Model Number: **OEM Customized Metal Parts Machining**

Place of Origin: **Guangdong, China**

Surface Roughness: **Ra 0.1~3.2, As Requirement**

Process: **Cnc Machining + Surface Treatment**

Type: **Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM**

Our CNC Lathe Machine Parts are ideal for **Computerized Machining Parts, Computerized Lathe Parts, Computer Numerical Control Parts**.

Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

We provide technical support and service for CNC Lathe Machine Parts to ensure their reliable performance and longevity. Our expert technicians are available to answer any questions and provide support and service for the following:

Troubleshooting of CNC Lathe Machine Parts

Repair of CNC Lathe Machine Parts

Maintenance of CNC Lathe Machine Parts

Replacement of CNC Lathe Machine Parts

Installation of CNC Lathe Machine Parts

If you have any questions or need assistance with your CNC Lathe Machine Parts, please contact us at support@example.com or call us at 1-800-555-5555.

Packing and Shipping:

Packaging and Shipping for CNC Lathe Machine Parts:

Each part is placed in a suitable container or packaging.

The containers are marked with part number, order number, serial number and other relevant information.

The parts are placed in the packaging with sufficient cushioning material to prevent damage during transit.

The packages are sealed and labeled with the shipping address.

The packages are shipped with a reliable and traceable mode of transport.

FAQ:

Q1: What is the Brand Name for CNC Lathe Machine Parts?

A1: The Brand Name is Industrial Man.

Q2: What is the Model Number for CNC Lathe Machine Parts?

A2: The Model Number is OEM.

Q3: Where is CNC Lathe Machine Parts from?

A3: CNC Lathe Machine Parts is from Guangdong, China.

Q4: What are the materials of CNC Lathe Machine Parts?

A4: The materials of CNC Lathe Machine Parts are aluminum and stainless steel.

Q5: What is the size of CNC Lathe Machine Parts?

A5: The size of CNC Lathe Machine Parts is customized according to customer's requirements.
