

Anodizing Coating for Enhanced Performance in Computerized Machining Parts

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: OEM/ODM Aluminum Anodizing Part
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM Customized Metal Parts Machining
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Micro Machining Or Not: Micro Machining
- Surface Treatment: Anodizing, Polishing, Plating, Painting
- Equipment: 3/4/5 Axis Center Machining
- Tolerance: +/-0.005mm
- Surface Roughness: Ra 0.1~3.2, As Requirement
- Highlight: **Enhanced Performance Anodizing Coating, Computerized Machining Parts Anodizing Coating, Computerized Machining Parts Anodizing**

Product Description

Product Description:

Our Product

CNC Lathe Machine Parts are precision machined products manufactured with Computerized Numerical Control (CNC) technology. They are the ideal choice for any project requiring high accuracy and repeatability, and are widely used in automotive, aerospace, medical, and other industries. Our CNC Lathe Machine Parts are of superior quality, with high precision and excellent surface roughness of up to Ra 0.1~3.2, as required. All of our machining processes are in accordance with IATF 16949: 2016/ISO 9001:2015 certification, guaranteeing the highest quality standards. We provide 3/4/5 axis center machining, and are capable of micro machining as well. All of our CNC Lathe Machine Parts are produced in our state-of-the-art facility in Guangdong, China. Our products are ideal for all kinds of Computerized Lathe Parts, CNC Lathe Parts, and Computerized Machining Parts.

Features:

Product Name: CNC Lathe Machine Parts
Surface Roughness: Ra 0.1~3.2, As Requirement
Equipment: 3/4/5 Axis Center Machining
Place of Origin: Guangdong, China
MOQ: 1 Piece
CNC Machining or Not: Cnc Machining
Keywords: CNC Machining Components, CNC Machining Components, CNC Machining Components

Technical Parameters:

Attribute	Value
Equipment	3/4/5 Axis Center Machining
Place of Origin	Guangdong, China
Process	Cnc Machining + Surface Treatment
Surface treatment	Anodizing, Polishing, Plating, Painting
CNC Machining or Not	Cnc Machining
Model Number	OEM Customized Metal Parts Machining
Tolerance	+/-0.005mm
MOQ	1 Piece
Certification	IATF 16949: 2016/ISO 9001:2015
Micro Machining or Not	Micro Machining
Product	Computerized Lathe Parts, CNC Machining Components, Computer Numerical Control Parts

Applications:

Application Scope of CNC Lathe Machine Parts

CNC Lathe Machine Parts are widely used in various industries, such as automotive, aerospace, medical, construction, and electronics. With the help of computer numerical control (CNC) technology, the accuracy and precision of CNC Lathe Machine Parts can be greatly improved. This allows for greater efficiency in production and improved product quality. CNC Lathe Machine Parts can be used to create components for machines such as mills, lathes, drills, and routers. They can also be used to produce parts for other machines such as punching, cutting, welding, and bending. Moreover, CNC Lathe Machine Parts can be used to create high-precision parts with extremely tight tolerances, such as turbine blades, valves, and gears.

The CNC Lathe Machine Parts manufactured by OEM/ODM Aluminum Anodizing Part are made of high-quality aluminum, which allows for better performance and durability. The parts are machined with 3/4/5 Axis Center Machining to ensure high accuracy and precision. The surface roughness of the CNC Lathe Machine Parts can be Ra 0.1~3.2, as required. OEM/ODM Aluminum Anodizing Part provides a variety of machining services, such as Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM, to meet the customers' needs. The MOQ of CNC Lathe Machine Parts is 1 Piece.

Customization:

Customized CNC Lathe Machine Parts
Brand Name: OEM/ODM Aluminum Anodizing Part
Model Number: OEM Customized Metal Parts Machining
Place of Origin: Guangdong, China
Tolerance: +/-0.005mm
Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Minimum Order Quantity: 1 Piece
Special Features: CNC Machining Components, Computerized Machining Parts, Computer Numerical Control Parts

Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

At ABC Company, we pride ourselves on providing top-notch technical support and service for our CNC Lathe Machine Parts.
Tech Support

Our team of technicians are available to answer any questions you may have about our CNC Lathe Machine Parts. We provide prompt and efficient technical support via email, phone, and in-person visits. If you ever have an issue with your machine, our technicians can help diagnose and resolve it quickly.
Service

We offer a full range of services, including installation, maintenance, repair, and upgrades. Our technicians are trained and certified to work on CNC Lathe Machines, and can provide on-site and remote service. Whether you need a quick check-up or major repairs, we will make sure your machine is running smoothly.

Packing and Shipping:

CNC Lathe Machine Parts Packaging and Shipping:

Packaging: Parts are packaged in air-resistant bags and placed into cardboard boxes with foam cushioning to ensure parts remain undamaged during transit.

Shipping: All parts are shipped via an express carrier and tracked to ensure they arrive on time.

FAQ:

Q: What is the brand of CNC Lathe Machine Parts?

A: Industrial Man.

Q: What is the model number of CNC Lathe Machine Parts?

A: OEM.

Q: Where is the place of origin of CNC Lathe Machine Parts?

A: Guangdong, China.

Q: What materials are used to make CNC Lathe Machine Parts?

A: CNC Lathe Machine Parts are made of high-grade materials such as stainless steel, aluminum, and brass.

Q: Are CNC Lathe Machine Parts customizable?

A: Yes, CNC Lathe Machine Parts can be customized according to your needs.
