

Quote Drilling Aluminum CNC Lathe Machine Parts Craftsmanship

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: OEM/ODM Aluminum Anodizing Part
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM Customized Metal Parts Machining
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Tolerance: +/-0.005mm
- Surface Treatment: Anodizing, Polishing, Plating, Painting
- Micro Machining Or Not: Micro Machining
- CNC Machining Or Not: Cnc Machining
- Equipment: 3/4/5 Axis Center Machining
- Highlight: **Drilling CNC Lathe Machine Parts,
Drilling Aluminum CNC Lathe Machine Parts,
CNC machined aluminum parts**

Product Description

Product Description:

Our Product

CNC lathe machine parts are manufactured with computerized numerical control technology, allowing for precise and accurate production. Made with high-grade materials, these parts are highly durable and reliable. Our CNC lathe parts processing services provide superior surface roughness with a range of Ra 0.1~3.2, as required. We offer OEM and ODM services for CNC lathe parts machining, with a minimum order quantity of one piece. Our CNC lathe parts are made with high precision and efficiency, and are sourced from Guangdong, China. We also provide micro machining services for CNC lathe parts. Our CNC lathe machine parts are reliable and cost-effective, and are ideal for a wide range of applications. Whether you require a single part or a large volume production, we can meet your needs with our efficient and cost-effective CNC lathe parts machining services.

Features:

Product Name: CNC Lathe Machine Parts

Type: Broaching, Drilling, Etching/Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Surface Roughness: Ra 0.1~3.2, As Requirement

OEM/ODM: OEM ODM CNC Milling Turning Machining Service

Equipment: 3/4/5 Axis Center Machining

Place of Origin: Guangdong, China

Special Features: CNC Lathe Parts, Computer Numerical Control Parts, Computerized Lathe Parts

Technical Parameters:

Property	Details
Type	Broaching, Drilling, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Certification	IATF 16949: 2016/ISO 9001:2015
Equipment	3/4/5 Axis Center Machining
Surface treatment	Anodizing, Polishing, Plating, Painting
Tolerance	+/- 0.005mm
Micro Machining or Not	Micro Machining
Surface Roughness	Ra 0.1~3.2, As Requirement
Process	CNC Machining + Surface Treatment
Model Number	OEM Customized Metal Parts Machining
CNC Machining or Not	CNC Machining
Specializing in	CNC Lathe Parts, Computerized Machining Parts, CNC Lathe Parts Machining

Applications:

Industrial Man is a leading provider of CNC lathe parts for computerized lathe parts manufacturing. Our CNC lathe parts are made to exacting standards and provide the highest quality for our customers. Our CNC lathe parts are manufactured using state-of-the-art CNC lathe machines, and our engineering team is dedicated to providing the best possible CNC lathe parts. Our CNC lathe parts are designed to meet your specific requirements and are available in various models, including OEM parts. We also provide custom CNC machining services for customers who require precision and accuracy in their CNC lathe parts. Our CNC lathe parts are certified to IATF 16949: 2016 and ISO 9001:2015 standards, ensuring the highest quality and reliability. We specialize in 3/4/5 axis center machining and can provide 2D/3D drawings in PDF/CAD and IGES/STEP formats.

Our CNC lathe parts are designed to meet your exact needs and are capable of producing complex components with tight tolerances. Our CNC lathe parts are suitable for a wide variety of applications ranging from aerospace to medical. We can also provide micro-machining services, allowing us to produce the finest and most intricate components in the industry. Our CNC lathe parts are built to last and are backed by our industry-leading customer service and technical support.

At Industrial Man, we are committed to providing our customers with the highest quality CNC lathe parts and the best customer service. We have a team of experienced engineers and technicians who are dedicated to helping you find the perfect CNC lathe parts for your application. Our CNC lathe parts are designed to meet your exact requirements and are backed by our commitment to quality and customer service. We are confident that our CNC lathe parts are the best solution for your CNC lathe parts manufacturing needs.

Customization:

Customized Service	CNC Lathe Machine Parts
Brand Name	OEM/ODM Aluminum Anodizing Part
Model Number	OEM Customized Metal Parts Machining
Place of Origin	Guangdong, China
Surface Roughness	Ra 0.1~3.2, As Requirement
Equipment	3/4/5 Axis Center Machining
Micro Machining or Not	Micro Machining

We provide customized services for CNC Lathe Machine Parts, such as CNC Machining Components, CNC Lathe Parts, CNC Machining Components, Aluminum Anodizing Parts, Customized Metal Parts, OEM/ODM Customized Metal Parts, Micro Machining. Our products have high quality, advanced technology, competitive price and superior after-sales service.

Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

At XYZ Company, we provide comprehensive technical support and service for CNC Lathe Machine Parts. Our team of experienced professionals are available to answer your questions, provide troubleshooting assistance, and help you get the most out of your CNC Lathe Machine Parts.

We offer a wide range of technical support services, including:

Diagnosis and troubleshooting of CNC Lathe Machine Parts

Installation and maintenance of CNC Lathe Machine Parts

Training on the operation and use of CNC Lathe Machine Parts

Upgrades and modifications to CNC Lathe Machine Parts

Our team of experienced professionals are available to provide technical support and service for your CNC Lathe Machine Parts. Contact us today to learn more about our services, and to get started on your project. We look forward to working with you!

Packing and Shipping:

Packaging and Shipping for CNC Lathe Machine Parts:

The CNC Lathe Machine Parts are securely packaged in custom-made boxes.

The boxes are then placed on a pallet and securely fastened for shipping.

The pallet is then loaded onto a truck and shipped to the destination.

FAQ:

Q1: What is the brand name of CNC Lathe Machine Parts?

A1: The brand name of CNC Lathe Machine Parts is Industrial Man.

Q2: What is the model number of the product?

A2: The model number of CNC Lathe Machine Parts is OEM.

Q3: Where is the CNC Lathe Machine Parts produced?

A3: The CNC Lathe Machine Parts is produced in Guangdong, China.

Q4: What materials are the CNC Lathe Machine Parts made of?

A4: The CNC Lathe Machine Parts are made of high-quality stainless steel.

Q5: What is the processing time for CNC Lathe Machine Parts?

A5: The processing time for the CNC Lathe Machine Parts depends on the complexity of the part. Generally, it takes about 3-5 days to produce one piece.
