

ODM Precision Stainless Steel CNC Machining Service For Automotive

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM Customized Metal Parts Machining
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Micro Machining Or Not: Micro Machining
- Surface Treatment: Anodizing, Polishing, Plating, Painting
- MOQ: 1 Piece
- CNC Machining Or Not: Cnc Machining
- Surface Roughness: Ra 0.1~3.2, As Requirement
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
- Tolerance: +/-0.005mm
- Highlight: **ODM stainless steel cnc machining, Automotive stainless steel cnc machining, ODM precision machining service**

Product Description

Product Description:

Our Product

CNC lathe machine parts are widely used in a variety of industries, ranging from automotive to aerospace. Our CNC lathe parts are made with the highest quality materials and precision to ensure the best performance and durability. Our computerized lathe parts are manufactured with 3/4/5 axis center machining and are available in a variety of sizes and shapes. We offer customized metal parts machining services to meet your specific requirements. Our CNC machining services and surface treatments are designed to provide the highest performance and reliability. All of our CNC lathe parts are made in Guangdong, China and are backed by our OEM/ODM aluminum anodizing part services. Our computerized machining parts are guaranteed to exceed your expectations in terms of quality, accuracy, and reliability.

Features:

Product Name: CNC Lathe Machine Parts
Surface Roughness: Ra 0.1~3.2, As Requirement
Surface treatment: Anodizing, Polishing, Plating, Painting
Certification: IATF 16949:2016/ISO 9001:2015
Tolerance: +/-0.005mm
MOQ: 1 Piece
Computerized Lathe Parts
CNC Lathe Parts
CNC Machining Components

Technical Parameters:

Parameter	Details
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
Tolerance	+/-0.005mm
Micro Machining or Not	Micro Machining
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
CNC Machining or Not	Cnc Machining
Equipment	3/4/5 Axis Center Machining
Model Number	OEM Customized Metal Parts Machining
Surface Treatment	Anodizing, Polishing, Plating, Painting
OEM/ODM	OEM ODM CNC Milling Turning Machining Service
Process	Cnc Machining + Surface Treatment
Focus	Computerized Lathe Parts, Computerized Lathe Parts, Computer Numerical Control Parts, CNC Lathe Parts

Applications:

CNC Lathe Machine Parts produced by Industrial Man are widely used in many automation machining fields. With precise Computer Numerical Control(CNC) technology, these parts are made to high standards with tight tolerance up to +/-0.005mm and surface roughness ranging from Ra 0.1 to 3.2. The drawing formats are available in 2D or 3D formats such as PDF, CAD, IGES, and STEP. Industrial Man provides one-stop services from design to production and also provides custom-made CNC Lathe Parts to fulfill customer's special requirements. All products are certificated with IATF 16949:2016 and ISO 9001:2015. The minimum order quantity for CNC Lathe Machine Parts is one piece.

Customization:

Customized CNC Lathe Machine Parts

Industrial Man is a reliable supplier of CNC Lathe Machine Parts. Our CNC Lathe Machine Parts are custom-made with precision, high quality and efficiency. Our CNC Lathe Machine Parts is made with Computer Numerical Control (CNC) machining, and it can be used for micro machining.

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

MOQ: 1 Piece

Micro Machining or Not: Micro Machining

CNC Machining or Not: Cnc Machining

Surface Roughness: Ra 0.1~3.2, As Requirement

Surface treatment: Anodizing, Polishing, Plating, Painting

Our CNC Lathe Machine Parts is widely used in the machining of intricate shapes and holes with a high degree of accuracy. It is also widely used in the production of parts with more complex shapes, such as concave surfaces, convex surfaces, and cams. Our CNC Lathe Machine Parts is available in a variety of materials, including aluminum, brass, steel, and stainless steel.

Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

Providing technical support and service for CNC Lathe Machine Parts is a priority for us. We want to ensure that your experience with our products is as seamless and productive as possible. Our team of experienced professionals can provide the following services:

Troubleshooting and diagnostics of any issues with CNC Lathe Machine Parts

Installation and setup of CNC Lathe Machine Parts

Maintenance and repair of CNC Lathe Machine Parts

Replacement parts for CNC Lathe Machine Parts

Technical advice and assistance on CNC Lathe Machine Parts

If you have any questions or concerns about CNC Lathe Machine Parts, please don't hesitate to contact us by phone or email. We're here to help ensure that you get the best possible experience with our products.

Packing and Shipping:

Packaging and Shipping for CNC Lathe Machine Parts:

The parts will be packed in individual cardboard boxes that are labeled with product information.

The parts will then be placed into a larger corrugated box with packing materials for additional protection.

The box will be sealed with tape and labels that identify the contents.

Once the package is ready, it will be shipped using a trusted courier service.

FAQ:

CNC Lathe Machine Parts

Q1: What is the brand name for CNC Lathe Machine Parts?

A1: The brand name for CNC Lathe Machine Parts is Industrial Man.

Q2: What is the model number for CNC Lathe Machine Parts?

A2: The model number for CNC Lathe Machine Parts is OEM.

Q3: Where is the CNC Lathe Machine Parts made?

A3: CNC Lathe Machine Parts is made in Guangdong, China.

Q4: What materials are used for CNC Lathe Machine Parts?

A4: CNC Lathe Machine Parts are made from high-quality metals and alloys.

Q5: Are CNC Lathe Machine Parts customizable?

A5: Yes, CNC Lathe Machine Parts are customizable according to customer requirements.
