

Anodizing Metal 3D CNC Lathe Machine Parts For Automotive

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Surface Treatment: Anodizing, Polishing, Plating, Painting
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
- Process: Cnc Machining + Surface Treatment
- CNC Machining Or Not: Cnc Machining
- Surface Roughness: Ra 0.1~3.2, As Requirement
- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- MOQ: 1 Piece
- Highlight: **Anodizing Metal CNC Lathe Machine Parts, 3D CNC Lathe Machine Parts, Anodizing machined metal parts**

Product Description

Our

Product Description:

CNC Lathe Machine Parts are precision machined parts produced by CNC lathe machines. It is a type of computerized numerical control (CNC) machining process that uses a computer to control the motion of tools and components. CNC Lathe Machine Parts can be used in a variety of applications, including automotive, aerospace, industrial, medical and consumer products. Our CNC Lathe Parts are manufactured with high precision and accuracy to meet the most demanding requirements. Our CNC Lathe Parts feature micro machining capabilities, superior surface finishes, and a wide range of materials and finishes. We offer OEM/ODM CNC Milling Turning Machining Service for CNC Lathe Parts and can provide custom solutions for your specific parts needs. With our advanced production capabilities, we are able to provide CNC Lathe Parts with MOQ of 1 piece and a variety of machining services, such as Broaching, Drilling, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning and Wire EDM. We offer excellent quality and customer service to our clients, so they can confidently purchase our CNC Lathe Parts with peace of mind. Our CNC Lathe Parts are reliable and durable, and we stand behind them with our OEM/ODM Aluminum Anodizing Part Service. We are your reliable source for Computerized Lathe Parts, CNC Lathe Parts, CNC Lathe Parts Manufacturing, and CNC Lathe Parts Supplier.

Features:

Product Name: CNC Lathe Machine Parts
 Place of Origin: Guangdong, China
 Micro Machining or Not: Micro Machining
 Surface treatment: Anodizing, Polishing, Plating, Painting
 Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
 OEM/ODM: OEM ODM CNC Milling Turning Machining Service
 Computerized Lathe Parts: High precision, High efficiency, Durability

Technical Parameters:

Attributes	Descriptions
Model Number	OEM Customized Metal Parts Machining
Equipment	3/4/5 Axis Center Machining
MOQ	1 Piece
Surface Roughness	Ra 0.1~3.2, As Requirement
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
CNC Machining or Not	Cnc Machining
Process	Cnc Machining + Surface Treatment
OEM/ODM	OEM ODM CNC Milling Turning Machining Service
Certification	IATF 16949: 2016/ISO 9001:2015
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Keywords	Computer Numerical Control Parts, CNC Lathe Parts, CNC Machining Components

Applications:

Industrial Man provides CNC Lathe Machine Parts with top-notch quality and precision, meeting all your requirements in the manufacturing industry. Our CNC Lathe Machine Parts are made with the highest quality materials and are built to last. Our Computer Numerical Control Parts are precisely machined to exacting specifications using advanced computerized machining processes to ensure accuracy and consistency. We offer a wide range of Computer Numerical Control Parts, from simple to complex, to meet your needs. The Computerized Machining Parts are manufactured to meet the exact specifications of your application, as they are customizable with different design options. Our Lathe Machine Parts are made with the highest quality materials, and are designed to provide superior performance and reliability. We offer customized surface treatments such as anodizing, polishing, plating, and painting. The surface roughness of our CNC Lathe Machine Parts can be adjusted from Ra 0.1 to 3.2, depending on your requirements. Industrial Man is committed to providing the highest quality and most reliable CNC Lathe Machine Parts. We offer OEM/ODM services, and are ISO 9001:2015 and IATF 16949: 2016 certified. We use the latest technology to ensure that all our Computer Numerical Control Parts and Computerized Machining Parts are produced with the utmost precision and accuracy. Our experts are available to assist you with any technical or design questions you may have.

Customization:

Customized CNC Lathe Machine Parts from Industrial Man
 Brand Name: Industrial Man
 Model Number: OEM Customized Metal Parts Machining
 Place of Origin: Guangdong, China
 Micro Machining or Not: Micro Machining
 MOQ: 1 Piece
 Tolerance: +/-0.005mm
 CNC Machining or Not: CNC Machining
 Computerized Lathe Parts, CNC Lathe Parts, Computerized Machining Parts

Support and Services:

Technical Support & Service for CNC Lathe Machine Parts
 At our company, we provide comprehensive technical support and service for CNC Lathe Machine Parts. Our experienced staff can assist you with any technical inquiries and help you troubleshoot any issues you may have. We also offer regular maintenance and repair

services for all of your CNC Lathe Machine Parts.

Our technicians are highly skilled and certified to work on all major CNC Lathe Machine Parts. We also provide expert advice and assistance with installation, setup, and operation of your CNC Lathe Machine Parts. All of our services are guaranteed, and we offer a satisfaction guarantee.

If you have any questions or concerns, please don't hesitate to contact us. We are always happy to help you with any of your technical needs, and we look forward to serving you soon.

Packing and Shipping:

The packaging and shipping of CNC Lathe Machine Parts includes the following:

Securely wrap each part in bubble wrap and place them in an appropriate-sized cardboard box.

Label the box with the product name and destination.

Place the box in a larger shipping box and fill the empty space with packing peanuts.

Tape the box shut and label with the destination address.

Send the package to the destination address via an appropriate shipping method.

FAQ:

Q1: What is the brand name and model number of the CNC Lathe Machine Parts?

A1: The brand name is Industrial Man and the model number is OEM.

Q2: Where is the CNC Lathe Machine Parts manufactured?

A2: The CNC Lathe Machine Parts is manufactured in Guangdong, China.

Q3: What types of materials are used for the CNC Lathe Machine Parts?

A3: The CNC Lathe Machine Parts is made from high-quality metal and plastic materials.

Q4: What is the size of the CNC Lathe Machine Parts?

A4: The CNC Lathe Machine Parts is available in various sizes to meet your specific needs.

Q5: Are the CNC Lathe Machine Parts durable?

A5: Yes, the CNC Lathe Machine Parts are designed to be highly durable and long-lasting.
