

Customised CNC Lathe Machine Parts Plastic Aluminum bearings

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
- Process: Cnc Machining + Surface Treatment
- CNC Machining Or Not: Cnc Machining
- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- MOQ: 1 Piece
- Surface Roughness: Ra 0.1~3.2, As Requirement
- Tolerance: +/-0.005mm
- Highlight: Customised CNC Lathe Machine Parts, Plastic Aluminum CNC Lathe Machine Parts, Customised cnc machined aluminum parts

Product Description

Our

Product Description:

CNC Lathe Machine Parts are computerized lathe parts that are machined by computer numerical control (CNC) machines. These CNC machined components are made with precision and accuracy, and can be customized according to customer requirements. The CNC machining process combines the precision of computer-controlled operations with the sophisticated cutting capabilities of lathe machines to create high-precision components. Our CNC Lathe Machine Parts are manufactured with a tolerance of $\pm 0.005\text{mm}$ to ensure accuracy. The components can be manufactured with 2D or 3D drawings in PDF/CAD/IGES/STEP formats. Additionally, we offer surface treatments such as polishing, electroplating, anodizing and more. Our CNC Lathe Machine Parts are made with the highest quality materials and are designed to provide reliable performance. We guarantee the quality and performance of our CNC Lathe Machine Parts and they are available at competitive prices. Our CNC Lathe Machine Parts are produced in Guangdong, China.

Features:

Product Name: CNC Lathe Machine Parts
 Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
 Model Number: OEM Customized Metal Parts Machining
 Process: Cnc Machining + Surface Treatment
 Micro Machining or Not: Micro Machining
 Equipment: 3/4/5 Axis Center Machining
 Computerized Machining Parts
 CNC Lathe Parts
 CNC Lathe Parts Machining

Technical Parameters:

Technical Parameter	Details
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
Brand Name	OEM/ODM Aluminum Anodizing Part
Place of Origin	Guangdong, China
CNC Machining or Not	CNC Machining
Surface treatment	Anodizing, Polishing, Plating, Painting
Model Number	OEM Customized Metal Parts Machining
Surface Roughness	Ra 0.1~3.2, As Requirement
Certification	IATF 16949: 2016/ISO 9001:2015
MOQ	1 Piece
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Keywords	Computerized Lathe Parts, Computerized Machining Parts, Computer Numerical Control Parts

Applications:

Industrial Man specializes in the production of Computer Numerical Control (CNC) Parts and Computerized Lathe Parts. Our CNC Lathe Parts are manufactured with a 3/4/5 Axis Center Machining process and surface treatment. We are able to produce CNC Machining parts with a Surface Roughness of Ra 0.1-3.2, depending on the customer's specific requirements. This surface treatment can include Anodizing, Polishing, Plating and Painting. Our CNC Lathe Parts are of the highest quality, and we guarantee that they will meet your exact specifications.

From automotive parts to medical components, our CNC Lathe Parts have many uses. In the automotive industry, they are used to create well-designed auto parts, such as door handles and side mirrors. In the medical industry, our CNC Lathe Parts are used in the creation of medical implants and orthopedic devices. They are also used in industrial manufacturing to build precision components for various types of machinery, such as the production of valves, pumps, and compressors.

Industrial Man's CNC Lathe Parts are trusted by major manufacturers around the world because of their superior quality. Our parts are made from high-grade materials and are designed to be durable and long-lasting. Our CNC Lathe Parts are designed with precision and care, ensuring that they meet your exact specifications. We take pride in our CNC Lathe Parts and guarantee that they will meet the highest of standards.

We provide OEM services for CNC Lathe Parts, allowing you to customize your parts according to your exact requirements. Our CNC Lathe Parts are manufactured in Guangdong, China and are of the highest quality. We take pride in our quality assurance process and guarantee 100% satisfaction.

Customization:

Customized CNC Lathe Machine Parts
 Brand Name: OEM/ODM Aluminum Anodizing Part
 Model Number: OEM
 Place of Origin: Guangdong, China
 Surface Roughness: Ra 0.1~3.2, As Requirement
 Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
 Micro Machining or Not: Micro Machining

We specialize in manufacturing customized computerized lathe parts and CNC machining components. Our computerized lathe parts manufacturing services can provide you with the best precision parts and components. With decades of experience in CNC machining and perfect craftsmanship, we provide the highest quality computerized lathe parts at competitive prices.

Support and Services:

CNC Lathe Machine Parts Technical Support and Services

We provide comprehensive technical support and services for CNC Lathe Machine Parts. Our experienced and knowledgeable staff can assist you with any of your CNC Lathe Machine Parts needs.

We offer troubleshooting services for any problems that you may have with your CNC Lathe Machine Parts. We also provide installation and repair services, as well as maintenance services to ensure that your CNC Lathe Machine Parts remain in top condition.

If you have any questions about our CNC Lathe Machine Parts, please do not hesitate to contact us. Our customer service team is available to answer any of your questions and provide guidance on how to best use your CNC Lathe Machine Parts.

Packing and Shipping:

CNC Lathe Machine Parts Packaging and Shipping:

The CNC Lathe Machine Parts are carefully packaged with bubble wrap and cardboard boxes to ensure that they are not damaged during shipping. The packages are then labeled with the customer's name, address, and any other relevant information, and placed on a pallet. The pallet is then shrink-wrapped and secured with straps for stability during transport. Finally, the pallet is loaded onto a truck and shipped to the customer's address.

FAQ:

Q: What is the brand name of the CNC Lathe Machine Parts?

A: The brand name of the CNC Lathe Machine Parts is Industrial Man.

Q: What is the model number of the CNC Lathe Machine Parts?

A: The model number of the CNC Lathe Machine Parts is OEM.

Q: Where are the CNC Lathe Machine Parts manufactured?

A: The CNC Lathe Machine Parts are manufactured in Guangdong, China.

Q: What materials are used for the CNC Lathe Machine Parts?

A: The CNC Lathe Machine Parts can be made from a variety of materials including stainless steel, aluminum, brass, and plastic.

Q: What is the quality assurance for the CNC Lathe Machine Parts?

A: The CNC Lathe Machine Parts are manufactured to the highest quality standards and are tested to ensure they meet or exceed customer expectations.
