

4 Axis Broaching CNC Oem Machined Products Surface Treatment

Our Product Introduction

For more products please visit us on lathecnm machining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: OEM/ODM Aluminum Anodizing Part
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM Customized Metal Parts Machining
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- CNC Machining Or Not: Cnc Machining
- Micro Machining Or Not: Micro Machining
- Equipment: 3/4/5 Axis Center Machining
- Process: Cnc Machining + Surface Treatment
- Highlight: **4 Axis cnc oem, Broaching cnc oem, Broaching cnc machined products**

Product Description

Product Description:

CNC Lathe Machine Parts: OEM/ODM Customized Precision Machining

We provide customized CNC Lathe Machine Parts with precision machining services. Our CNC machining services include Computer Numerical Control (CNC) parts, Computerized Lathe Parts, and Precision Machining. Our CNC parts are manufactured to the highest quality standards and are designed to meet your exact requirements. We offer a variety of CNC machining services to meet your needs, including: CNC Turning, CNC Milling, CNC Drilling, CNC Grinding, CNC Boring, and CNC Polishing. All parts are made to the highest accuracy and tolerance of $\pm 0.005\text{mm}$, and we offer OEM/ODM services for aluminum anodizing parts with your brand name. At our CNC Lathe Machine Parts shop, we are committed to providing you with high quality and cost effective CNC machining services. Our experienced staff is always ready to provide you with the best customer service and the highest quality products. We strive to provide top-notch customer service, and we guarantee that all of our products are made with the utmost precision and accuracy. Our goal is to ensure that you are satisfied with the results of our services. We pride ourselves on providing our customers with the best machining services and products. Our CNC Lathe Machine Parts are made to last and can be used for a variety of applications. Our team of professionals is dedicated to providing you with the highest quality services and products. Contact us today to learn more about our CNC Lathe Machine Parts services.

Features:

Product Name: CNC Lathe Machine Parts
 Process: Cnc Machining + Surface Treatment
 Place of Origin: Guangdong, China
 Certification: IATF 16949: 2016/ISO 9001:2015
 Type:
 Broaching
 DRILLING
 Etching / Chemical Machining
 Laser Machining
 Milling
 Other Machining Services
 Rapid Prototyping
 Turning
 Wire EDM
 Brand Name: OEM/ODM Aluminum Anodizing Part

Technical Parameters:

Parameter	Value
Surface Roughness	Ra 0.1~3.2, As Requirement
Equipment	3/4/5 Axis Center Machining
Certification	IATF 16949: 2016/ISO 9001:2015
MOQ	1 Piece
Brand Name	OEM/ODM Aluminum Anodizing Part
CNC Machining or Not	Cnc Machining
OEM/ODM	OEM ODM CNC Milling Turning Machining Service
Micro Machining or Not	Micro Machining
Process	Cnc Machining + Surface Treatment
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Application	Computerized Machining Parts, CNC Machining Components, CNC Machining Components, CNC Lathe Machine Parts

Applications:

Industrial Man CNC Lathe Machine Parts for Multiple Applications

Industrial Man provides custom-made computerized machining parts, computer numerical control (CNC) parts and CNC lathe parts of superior quality. Our CNC lathe machine parts are designed for multiple applications, such as automotive, aerospace, medical, and other industries. With a minimum order quantity (MOQ) of one piece, we offer a range of services including anodizing, polishing, plating, painting, and more. Our product is compliant with the IATF 16949:2016/ISO 9001:2015 certification. We accept a variety of drawing formats, including 2D (PDF/CAD) and 3D (IGES/STEP). Our production capabilities are compatible with high-end CNC lathe machines. Our CNC lathe machine parts are designed to provide precision and accuracy, while also ensuring the highest quality standards. Our parts are strong and durable, and we guarantee quick turnaround times and competitive prices.

Customization:

We offer **OEM/ODM Aluminum Anodizing Part**, with **customized metal parts machining** services. We are located in Guangdong, China and we have certification of **IATF 16949: 2016/ISO 9001:2015**. Our services include **computerized machining parts**, **CNC machining components** and **CNC machining components manufacturing**.

Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

Technical Support

We provide technical support for CNC Lathe Machine Parts to ensure they are properly installed, operated and maintained. Our team of experts are always on hand to answer any questions or queries and provide comprehensive guidance and advice on product installation, use and maintenance.

After-Sales Service

Our after-sales service team is dedicated to providing customers with the best possible service. We provide a wide range of services, from regular maintenance to repairs and replacements. Our team works closely with the customer to ensure that all issues are resolved quickly and efficiently.

Packing and Shipping:

Packaging and Shipping of CNC Lathe Machine Parts:

CNC Lathe Machine Parts will be packaged in corrugated cardboard boxes to ensure that the parts will not be damaged during shipping. The parts will be secured in the boxes with bubble wrap, foam, or other cushioning material to protect them from shock and vibration during shipping.

The boxes will be marked with the corresponding CNC part number, as well as the quantity of parts contained in the box. The shipping labels will include the customer's name and address, as well as a tracking number for the shipment.

The parts will be shipped via a reputable courier such as FedEx, UPS, or DHL. The shipment will be insured for the full value of the parts to ensure that the customer will be reimbursed in the event of any damage or loss.

FAQ:

Q: What is the Brand Name of CNC Lathe Machine Parts?

A: The Brand Name of CNC Lathe Machine Parts is Industrial Man.

Q: What is the Model Number of CNC Lathe Machine Parts?

A: The Model Number of CNC Lathe Machine Parts is OEM.

Q: Where is CNC Lathe Machine Parts made?

A: CNC Lathe Machine Parts is made in Guangdong, China.

Q: What size CNC Lathe Machine Parts are available?

A: CNC Lathe Machine Parts are available in various sizes.

Q: What materials are used for CNC Lathe Machine Parts?

A: CNC Lathe Machine Parts are made from high-quality materials such as aluminum and steel.
