

## Micro Aerospace CNC Lathe Machine Parts Components For 3D IGES/STEP Format

Our Product Introduction

For more products please visit us on [lathecncmachining.com](http://lathecncmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Model Number: OEM Customized Metal Parts Machining
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- Surface Treatment: Anodizing, Polishing, Plating, Painting
- Process: Cnc Machining + Surface Treatment
- MOQ: 1 Piece
- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- Tolerance: +/-0.005mm
- Equipment: 3/4/5 Axis Center Machining
- Highlight: **Micro Aerospace CNC Lathe Machine Parts, STEP Format CNC Lathe Machine Parts, IGES cnc machining aerospace parts**

### Product Description

**Product Description:**

Our F

CNC Lathe Machine Parts is a kind of computerized machining parts which includes 3/4/5 Axis Center Machining. It is manufactured with high-quality materials to ensure excellent surface roughness, ranging from Ra 0.1 to 3.2, as per customer requirements. There are various brands and models available for customers to choose from, such as OEM/ODM Aluminum Anodizing Part. We provide a minimum order quantity of 1 piece and accept micro machining orders. Computerized Lathe Parts is our specialty and we are devoted to providing customer satisfactory service.

## Features:

Product Name: CNC Lathe Machine Parts

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Certification: IATF 16949: 2016/ISO 9001:2015

MOQ: 1 Piece

Tolerance: +/-0.005mm

Place of Origin: Guangdong, China

Specialized in: CNC Lathe Parts, Computerized Machining Parts, Computerized Lathe Parts

## Technical Parameters:

Property	Details
MOQ	1 Piece
Tolerance	+/-0.005mm
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
OEM/ODM	OEM ODM CNC Milling Turning Machining Service
Surface Treatment	Anodizing, Polishing, Plating, Painting
Type	Broaching, DRILLING, Etching/ Chemical Machining, Laser Machining, Milling,Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Brand Name	OEM/ODM Aluminum Anodizing Part
Model Number	OEM Customized Metal Parts Machining
Equipment	3/4/5 Axis Center Machining
Place of Origin	Guangdong, China
Product	Computerized Machining Parts, CNC Lathe Parts, Customized Machining Parts, OEM/ODM Machining Parts, Metal Parts, Metal Parts Machining Service, Metal Parts Machining Service

## Applications:

**CNC Lathe Machine Parts** are widely used in various industries, such as automotive, aerospace, medical devices, electronics, and industrial manufacturing. These parts are precision machined for accuracy and reliability, making them the ideal choice for any application. Due to their high-quality construction, CNC Lathe Machine Parts can be used in a wide range of applications, from manufacturing complex components to repairing delicate parts. The variety of CNC machining components, computerized lathe parts, and computer numerical control parts available allow for a wide range of applications, including the production of intricate parts, repair or assembly of complex components, and precision machining for industrial or consumer products. With CNC Lathe Machine Parts, customers can be assured of a high-quality product that is guaranteed to last for many years.

The OEM/ODM Aluminum Anodizing Part offered by CNC Lathe Machine Parts is an excellent choice for any application requiring precision machining. This part is designed for accuracy and reliability, making it the perfect choice for any application requiring high-quality construction and precision machining. The MOQ of 1 Piece ensures that the part is always available and can be delivered quickly and efficiently. Additionally, the OEM ODM CNC Milling Turning Machining Service offered by CNC Lathe Machine Parts ensures that the parts are machined to exact specifications, with a surface roughness of Ra 0.1~3.2, as required.

CNC Lathe Machine Parts is the perfect choice for any precision machining application. With their high-quality construction and reliable performance, CNC Lathe Machine Parts are the ideal choice for any application requiring accuracy and precision. Whether it is for manufacturing complex components, repairing delicate parts, or precision machining for industrial or consumer products, CNC Lathe Machine Parts is the perfect solution for any application.

## Customization:

Customized CNC Lathe Machine Parts

Industrial Man specializes in custom CNC Lathe Machine Parts and components, with a wide range of options for material, finish, and quality. Our CNC lathe machine parts are precision machined to meet your exact specifications, with a tolerance of +/-0.005mm. We provide a wide range of surface treatments including anodizing, polishing, plating, and painting.

### Product Specifications:

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

MOQ: 1 Piece

Tolerance: +/-0.005mm

Certification: IATF 16949: 2016/ISO 9001:2015

Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)

Surface treatment: Anodizing, Polishing, Plating, Painting

## Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

We offer comprehensive technical support and services for CNC Lathe Machine Parts. Our experienced and knowledgeable team of technicians is available to provide you with the assistance you need.

We can provide technical advice and assistance on the installation, operation, maintenance and repair of CNC Lathe Machine Parts.

Our experts can help you troubleshoot and diagnose any issues you may be having with your CNC Lathe Machine Parts.

We offer on-site service and repair for CNC Lathe Machine Parts.

We provide preventive maintenance and regular maintenance services for CNC Lathe Machine Parts.

We can help you upgrade your CNC Lathe Machine Parts with the latest software and hardware.

## Packing and Shipping:

CNC Lathe Machine Parts Packaging and Shipping:

The CNC lathe machine parts will be packaged in heavy-duty cardboard boxes, or bubble wrap to ensure the safety of the parts during shipping. The parts will be checked before they are sent out to ensure they are in good condition. The parts will be shipped via express delivery or air freight, depending on the size and quantity of the order.

## FAQ:

Q: What is the brand name of CNC Lathe Machine Parts?

A: The brand name is Industrial Man.

Q: What is the model number of CNC Lathe Machine Parts?

A: The model number is OEM.

Q: Where is CNC Lathe Machine Parts made?

A: The CNC Lathe Machine Parts is made in Guangdong, China.

Q: What materials are CNC Lathe Machine Parts made of?

A: The CNC Lathe Machine Parts are made of high-quality alloy steel.

Q: How long does it take to make a CNC Lathe Machine Part?

A: It usually takes about 3 days to make a CNC Lathe Machine Part.
