

## 3 Axis Precision CNC Aluminum Parts Machining Services ODM

Our Product Introduction

For more products please visit us on [lathecncmachining.com](http://lathecncmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM Customized Metal Parts Machining
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- Micro Machining Or Not: Micro Machining
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
- Surface Treatment: Anodizing, Polishing, Plating, Painting
- Equipment: 3/4/5 Axis Center Machining
- Surface Roughness: Ra 0.1~3.2, As Requirement
- CNC Machining Or Not: Cnc Machining
- Highlight: **3 Axis CNC aluminum parts machining,  
ODM aluminum parts machining,  
ODM cnc precision machining services**

### Product Description

**Product Description:**

Our Product

CNC Lathe Machine Parts are precision, computerized machining components and parts manufactured using Computer Numerical Control (CNC) technology, with CNC machines that can be configured for 3-axis, 4-axis, and 5-axis machining. These CNC parts are of high quality and can be customized to meet the customers' needs. The parts can be produced in different drawing formats, including 2D/PDF/CAD and 3D (IGES/STEP). The parts can also be processed by CNC machining and surface treatment. We have a team of professional engineers and technicians with years of experience in CNC machining, all of whom are committed to providing quality CNC Lathe Machine Parts with excellent surface finish and precision.

Our CNC Lathe Machine Parts are proudly made in Guangdong, China, and are widely used in a number of industries, including aerospace, automotive, medical, and many others. We have cutting-edge CNC machines and equipment to ensure that the parts are produced with high accuracy and precision. We are confident that our CNC Lathe Machine Parts will be able to meet your requirements and expectations.

## Features:

Product Name: CNC Lathe Machine Parts

Type: Broaching, Drilling, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

OEM/ODM: OEM ODM CNC Milling Turning Machining Service

Process: CNC Machining + Surface Treatment

MOQ: 1 Piece

CNC Machining or Not: CNC Machining

Keywords: CNC Machining Components, Computerized Lathe Parts, Computerized Machining Parts

## Technical Parameters:

Parameters	Description
Process	CNC Machining + Surface Treatment
Type	Broaching, Drilling, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
CNC Machining or Not	CNC Machining
Place of Origin	Guangdong, China
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Brand Name	OEM/ODM Aluminum Anodizing Part
Model Number	OEM Customized Metal Parts Machining
Certification	IATF 16949: 2016/ISO 9001:2015
Tolerance	+/-0.005mm
Micro Machining or Not	Micro Machining
Product	CNC Lathe Parts, Computer Numerical Control Parts, CNC Machining Components, CNC Lathe Machining

## Applications:

CNC Lathe Machine Parts are ideal components for a variety of applications and scenes, such as automotive, aerospace, medical, industrial, electronic and other industries. It is made of high quality aluminum alloy material with high precision, high strength, wear resistance and corrosion resistance. It has the characteristics of brand name: OEM/ODM aluminum anodizing part, model number: OEM, and type: broaching, drilling, etching/chemical machining, laser machining, milling, other machining services, rapid prototyping, turning, and wire EDM. It has the advantages of advanced CNC machining technology and surface treatment process which can meet the requirements of high precision and accuracy. It is widely used in precision components processing and other related industries.

CNC Lathe Machine Parts are widely used in the production of various mechanical components, such as automotive, aerospace, medical, industrial, electronic and other industries. It is suitable for CNC machining and surface treatment process, which can meet the requirements of high precision and accuracy. This product has the advantages of high precision, high strength, wear resistance and corrosion resistance. It can be customized according to customer requirements, and can be produced in batches to meet the needs of different customers. Its surface can be processed in many ways, such as sandblasting, anodizing, plating and so on.

CNC Lathe Machine Parts are the best choice for a variety of industries. It is made of high quality aluminum alloy material, which has the advantages of high precision, high strength, wear resistance and corrosion resistance. It is widely used in precision components processing and other related industries. It can be customized according to customer requirements, and can be produced in batches to meet the needs of different customers. Its surface can be processed in many ways, such as sandblasting, anodizing, plating and so on, which can meet the requirements of different customers.

## Customization:

Welcome to Industrial Man's customized CNC Lathe Machine Parts service. Our CNC Lathe Machine Parts are made with the highest quality materials, such as aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, steel alloys, and more. We provide a wide variety of surface treatments, including anodizing, polishing, plating, and painting. Our CNC Lathe Machine Parts are made with precision and accuracy, with a focus on the quality of the parts. We specialize in CNC Lathe Parts, Computerized Lathe Parts, Custom Lathe Parts, and Precision Lathe Parts. All of our products are backed by our IATF 16949: 2016/ISO 9001:2015 certification, so you can be sure that you are getting the best quality products available. We also offer OEM/ODM CNC Milling Turning Machining Service. Contact us today to learn more about our customized CNC Lathe Machine Parts.

## Support and Services:

### CNC Lathe Machine Parts Technical Support and Service

We provide comprehensive technical support and service for our CNC Lathe Machine Parts, so you can get the best performance out of your machine. Our experienced technicians can help you troubleshoot any issues you may encounter while operating the machine and provide solutions to ensure optimal performance.

Our technical support team is available to answer any questions you may have about our CNC Lathe Machine Parts and provide advice

on how to get the most out of your machine. We also offer a variety of resources, including tutorials, instructional videos, and user manuals, to help you understand how to use the machine and its features.

We also provide periodic maintenance and repair services for our CNC Lathe Machine Parts, so you can keep your machine running smoothly and efficiently. Our experienced technicians can inspect and diagnose any problems you may be experiencing and provide solutions to help keep your machine running smoothly.

For additional technical support and service, please feel free to contact us. We are always happy to help and answer any questions you may have.

## Packing and Shipping:

Packaging and Shipping for CNC Lathe Machine Parts:

All CNC lathe machine parts are carefully packaged in secure boxes for safe transport. The boxes are labeled with the product name, part number and destination address. To ensure that the parts arrive undamaged, the boxes are filled with packing materials such as foam, bubble wrap or packing peanuts. The parts are then sealed in the box with tape.

Once the parts are packaged and labeled, they are shipped with a reliable carrier. We use a variety of carriers, including FedEx, UPS, and USPS, depending on the type and size of the shipment. We also offer expedited shipping options for customers who need their parts in a hurry.

## FAQ:

Q: What is CNC Lathe Machine Parts?

A: CNC Lathe Machine Parts are parts that are designed to assist in the production of precision components for CNC lathe machines.

Q: What brand name is CNC Lathe Machine Parts?

A: CNC Lathe Machine Parts are branded as Industrial Man.

Q: What is the model number of CNC Lathe Machine Parts?

A: The model number of CNC Lathe Machine Parts is OEM.

Q: Where is CNC Lathe Machine Parts produced?

A: CNC Lathe Machine Parts are produced in Guangdong, China.

Q: What are the materials used in CNC Lathe Machine Parts?

A: CNC Lathe Machine Parts are typically made from high-grade metals and alloys that are designed to resist corrosion and wear.
