

Anodizing stainless steel CNC Lathe Machine Parts On Demand

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
- OEM/ODM: OEM ODM CNC Milling Turning Machining Service
- Equipment: 3/4/5 Axis Center Machining
- Product Name: CNC Lathe Machine Parts
- Surface Treatment: Anodizing, Polishing, Plating, Painting
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Surface Roughness: Ra 0.1~3.2, As Requirement
- Highlight: **Anodizing CNC Lathe Machine Parts, Stainless Steel CNC Lathe Machine Parts.**

Product Description

Product Description:

Our Product

CNC Lathe Machine Parts are computer controlled machining parts, components, and numerical control parts produced with high precision, using advanced computerized equipment including CNC lathes. Our CNC Lathe Machine Parts are made from a wide range of materials including aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys, and produced to a tolerance of $\pm 0.005\text{mm}$. All of our products are certified to IATF 16949: 2016/ISO 9001:2015 standards. We accept drawings in both 2D/PDF/CAD and 3D/IGES/STEP formats. Our CNC Lathe Machine Parts are manufactured in Guangdong, China.

Features:

Product Name: CNC Lathe Machine Parts

Certification: IATF 16949: 2016/ISO 9001:2015

Surface treatment: Anodizing, Polishing, Plating, Painting

Micro Machining or Not: Micro Machining

Surface Roughness: Ra 0.1~3.2, As Requirement

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Specialized in: Computer Numerical Control Parts, Computer Numerical Control Parts, CNC Lathe Parts, CNC Lathe

Technical Parameters:

Attribute	Description
Micro Machining or Not	Micro Machining
Brand Name	OEM/ODM Aluminum Anodizing Part
Surface Roughness	Ra 0.1~3.2, As Requirement
CNC Machining or Not	Cnc Machining
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
Product Name	CNC Lathe Machine Parts
Certification	IATF 16949: 2016/ISO 9001:2015
Place of Origin	Guangdong, China
MOQ	1 Piece
Keywords	Computer Numerical Control Parts, Computerized Machining Parts, Computer Numerical Control Parts, CNC Machining Parts

Applications:

Industrial Man is a leading manufacturer of high-quality Computerized Lathe Parts and Computer Numerical Control Parts (CNC Lathe Parts). Our parts are made of durable materials and have a wide range of applications. With a Model Number of OEM, Industrial Man's Computerized Lathe Parts and Computer Numerical Control Parts are produced with a minimum order quantity of 1 Piece and can be made with a variety of machining services such as Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, and Wire EDM. Customers can also provide their own drawings in a variety of formats, including 2D/(PDF/CAD)3D(IGES/STEP).

Industrial Man's CNC Lathe Parts are manufactured to the highest standards and are certified to IATF 16949: 2016/ISO 9001:2015.

Additionally, our CNC Lathe Parts are made with a Surface Roughness of Ra 0.1~3.2, or as required by the customer. We are proud to offer CNC Lathe Parts that are reliable and of the highest quality.

Customization:

Industrial Man offers complete customization services for CNC Lathe Machine Parts. Our Computerized Lathe Parts are renowned for their precision and accuracy with a tolerance of $\pm 0.005\text{mm}$. We use Computer Numerical Control Parts and CNC Machining Components for the highest quality of parts production. Our CNC Machining or Not is CNC Machining and our MOQ is 1 Piece. We also have a variety of surface treatments such as Anodizing, Polishing, Plating, and Painting. Our advanced equipment includes 3/4/5 Axis Center Machining.

Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

We provide technical support and service for CNC Lathe Machine Parts. Our experienced and knowledgeable technicians are trained to provide assistance with the following:

Maintenance and troubleshooting of CNC Lathe Machine Parts

Replacement or repair of defective CNC Lathe Machine Parts

Installation and setup of CNC Lathe Machine Parts

Compatibility testing of CNC Lathe Machine Parts

Training for efficient use of CNC Lathe Machine Parts

We strive to provide the best service for our customers and make sure that their CNC Lathe Machine Parts stay in optimal working condition. Contact us for more information.

Packing and Shipping:

Packaging and Shipping of CNC Lathe Machine Parts:

For packaging, we take extra care to ensure that the CNC Lathe Machine Parts are properly packed and secured in the boxes. We use bubble wrap, foam, corrugated cardboard, and other materials to secure the parts against shock, vibration, and any other external factors.

We also label all the boxes to ensure that they are delivered properly.
For shipping, we use reliable and trusted international couriers and carriers to make sure that our products reach their destination safely and on time. We also provide tracking numbers and other necessary information to ensure that customers can easily monitor their shipment.

FAQ:

Q1: What is the brand name of the CNC Lathe Machine Parts?

A1: The brand name of the CNC Lathe Machine Parts is Industrial Man.

Q2: What is the model number of the CNC Lathe Machine Parts?

A2: The model number of the CNC Lathe Machine Parts is OEM.

Q3: Where are the CNC Lathe Machine Parts manufactured?

A3: The CNC Lathe Machine Parts are manufactured in Guangdong, China.

Q4: What materials are used to make the CNC Lathe Machine Parts?

A4: The CNC Lathe Machine Parts are made of high-grade stainless steel.

Q5: How long does it take to make the CNC Lathe Machine Parts?

A5: It usually takes about 5-7 days to make the CNC Lathe Machine Parts.
