

## Precious Metal Bronze Cncprecision Parts CNC Fabrication Service

Our Product Introduction

For more products please visit us on [lathecnmmachining.com](http://lathecnmmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: OEM/ODM Aluminum Anodizing Part
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM Customized Metal Parts Machining
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- CNC Machining Or Not: Cnc Machining
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Micro Machining Or Not: Micro Machining
- Process: Cnc Machining + Surface Treatment
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
- Highlight: **Precious Metal cncprecision parts,**  
**Bronze cncprecision parts,**  
**Bronze cnc fabrication service**

### Product Description

Small - sized CNC lathe parts  
27. Large - scale CNC lathe parts

Our

## Product Description:

CNC Lathe Machine Parts are specially designed for computer-controlled machine tools, which are used to produce precise and intricate parts. Our CNC Machining components are made of various materials such as Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel and Steel Alloys. With our OEM ODM CNC Milling Turning Machining Service, we can offer customized and personalized Computerized Lathe Parts Machining according to the exact specifications of our customers. We are specialized in delivering Micro Machining services with CNC Machining. Our CNC Lathe Machine Parts are available in different sizes and shapes and we are committed to providing the best quality products with minimum order quantity of 1 Piece.

## Features:

Product Name: CNC Lathe Machine Parts

Brand Name: OEM/ODM Aluminum Anodizing Part

Process: CNC Machining + Surface Treatment

Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Highlight Keywords: CNC Machining Components, CNC Lathe Parts, Computerized Lathe Parts, Aluminum Anodizing Parts

## Technical Parameters:

Product Name	CNC Lathe Machine Parts
Certification	IATF 16949: 2016/ISO 9001:2015
Micro Machining or Not	Micro Machining
MOQ	1 Piece
Surface Roughness	Ra 0.1~3.2, As Requirement
Process	CNC Machining + Surface Treatment
Place of Origin	Guangdong, China
Tolerance	+/-0.005mm
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Keywords	CNC Machining Components, Computer Numerical Control Parts, CNC Lathe Parts

## Applications:

Industrial Man is a leading manufacturer of computerized machining parts, computer numerical control parts, and CNC lathe parts. The OEM customized metal parts machining delivered by Industrial Man meets a high standard of quality, with a tolerance of +/-0.005mm. Our CNC lathe machine parts are designed to meet customer specifications and drawing formats, including 2D/PDF/CAD and 3D/IGES/STEP. The surface roughness of the finished product is Ra 0.1~3.2, adjustable according to the customer's requirement. With high standards of quality control and a commitment to customer satisfaction, Industrial Man is the best choice for CNC lathe machine parts.

## Customization:

Customized Service for CNC Lathe Machine Parts

**Brand Name:** OEM/ODM Aluminum Anodizing Part

**Model Number:** OEM Customized Metal Parts Machining

**Place of Origin:** Guangdong, China

**MOQ:** 1 Piece

**CNC Machining or Not:** Cnc Machining

**Drawing Format:** 2D/(PDF/CAD)3D(IGES/STEP)

We specialize in providing custom services for **Computerized Lathe Parts, Computer Numerical Control Parts, Computerized Lathe Parts Machining** with the highest quality possible.

## Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

We are committed to providing high-quality customer service and technical support for our CNC Lathe Machine Parts. Our technical support team is available 24 hours a day to answer any questions you may have about our products and services. We also provide regular maintenance and repair services to ensure that your CNC Lathe Machine Parts remain in optimal working condition.

We offer a wide range of services for our CNC Lathe Machine Parts, including installation, customization, troubleshooting, and upgrades. Our team of experienced technicians can help you configure the system to best fit your needs, and provide advice and guidance to ensure that your machine is functioning properly. We also offer a variety of training courses to help you become familiar with the machine and its features.

If you ever encounter any issues or have any questions about your CNC Lathe Machine Parts, our team of experienced technicians is here to help. We can provide troubleshooting advice, help you find the right parts and accessories, and assist with repairs and maintenance. We are committed to providing the best quality customer service and technical support for our CNC Lathe Machine Parts.

## Packing and Shipping:

Packaging and Shipping for CNC Lathe Machine Parts

CNC Lathe Machine Parts are packaged in boxes or crates, depending on the size and complexity of the parts. The parts are carefully

wrapped in bubble wrap and placed in the boxes or crates.

The boxes or crates are then sealed and labeled with product information, such as the part number, description, quantity, and weight. For larger orders, the parts may be shipped on pallets, with the pallet wrapped in plastic and strapped securely.

The boxes or crates are then loaded onto a truck for transport to the customer's location. The customer will be notified when the shipment is expected to arrive.

## FAQ:

Q1: What is CNC Lathe Machine Parts?

A1: CNC Lathe Machine Parts are parts produced by Industrial Man, with the model number of OEM, which is made in Guangdong, China.

Q2: What materials are used for CNC Lathe Machine Parts?

A2: The materials used for CNC Lathe Machine Parts depend on the specific needs of the product. Usually, materials like steel, aluminum and other metal alloys are used.

Q3: What is the maximum size of CNC Lathe Machine Parts?

A3: The maximum size of CNC Lathe Machine Parts depends on the specific product. Generally, the maximum size can reach up to 2 meters.

Q4: Are CNC Lathe Machine Parts customizable?

A4: Yes, CNC Lathe Machine Parts are customizable according to customer requirements.

Q5: What is the delivery time of CNC Lathe Machine Parts?

A5: The delivery time of CNC Lathe Machine Parts depend on the product and quantity. Generally, it takes 15 to 20 days for production.
