

Micro Anodizing Machining Aerospace Parts Precision CNC Machining Inc

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM Customized Metal Parts Machining
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Surface Roughness: Ra 0.1~3.2, As Requirement
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Process: Cnc Machining + Surface Treatment
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
- MOQ: 1 Piece
- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- Highlight: **CNC machining aerospace parts,
Anodizing machining aerospace parts,
Aerospace precision cnc machining inc**

Product Description

Product Description:

Our Product Introduction

CNC Lathe Machine Parts are designed and manufactured for precision and accuracy, using Computer Numerical Control (CNC) machinery and a variety of materials. Our CNC Lathe Parts Manufacturing produces high-quality parts with tight tolerances, repeatable accuracy, and smooth surface finish. Our team of engineers and technicians are experienced in working with a variety of drawing formats, including 2D/PDF/CAD and 3D/IGES/STEP. We provide micro-machining services and are equipped with 3/4/5 axis center machining. Our production process combines CNC machining with surface treatment to create OEM customized metal parts machining that meets the highest standards of quality and precision. Our CNC Lathe Parts are ideal for a range of applications which require high-precision and accuracy.

Features:

Product Name: CNC Lathe Machine Parts

CNC Machining or Not: CNC Machining

Equipment: 3/4/5 Axis Center Machining

OEM/ODM: OEM ODM CNC Milling Turning Machining Service

Surface Roughness: Ra 0.1~3.2, As Requirement

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Keywords: CNC Lathe Parts, CNC Lathe Parts, CNC Machining Components, CNC Machining Parts

Technical Parameters:

Parameter	Description
Brand Name	OEM/ODM Aluminum Anodizing Part
Model Number	OEM Customized Metal Parts Machining
MOQ	1 Piece
Equipment	3/4/5 Axis Center Machining
OEM/ODM	OEM ODM CNC Milling Turning Machining Service
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
Surface Roughness	Ra 0.1~3.2, As Requirement
Process	CNC Machining + Surface Treatment
Surface Treatment	Anodizing, Polishing, Plating, Painting
CNC Machining Components	Computer Numerical Control Parts, CNC Machining Components, Lathe Machine Parts

Applications:

Industrial Man CNC Lathe Machine Parts

Industrial Man's CNC Lathe Machine Parts are precision machined for a range of industries, including aerospace, medical, automotive, defense, and other industries. Our CNC Lathe Machine Parts are manufactured with computer numerical control (CNC) technology for high accuracy and repeatability. We offer a variety of CNC machining services to meet a variety of needs. Our CNC Lathe Machine Parts are suitable for applications such as turning, milling, drilling, broaching, etching, chemical machining, laser machining, rapid prototyping, and wire EDM.

Our CNC Lathe Machine Parts are made with superior quality materials and are designed to meet the highest standards of quality and reliability. We provide a comprehensive range of models, including OEM and ODM CNC Milling Turning Machining Service, with a minimum order quantity of one piece. Our CNC Lathe Machine Parts feature a surface roughness of Ra 0.1~3.2, with custom specifications available as required.

Industrial Man's CNC Lathe Machine Parts are the perfect choice for computer numerical control parts, computerized machining parts, and computer numerical control parts manufacturing. Our CNC Lathe Machine Parts are precision-engineered to provide reliable performance for a variety of applications and industries.

Customization:

We provide **customized services** for CNC Lathe Machine Parts with brand name **OEM/ODM Aluminum Anodizing Part** and model number **OEM**. Our CNC Lathe Machine Parts are made of high quality materials with **3/4/5 Axis Center Machining**, and **CNC Machining + Surface Treatment** process. All our CNC Machining Components, Computerized Lathe Parts, CNC Machining Components have undergone strict quality control and are available with competitive prices.

Our CNC Lathe Machine Parts are sourced from **Guangdong, China** and they are made with precise methods like **Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM**.

Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

We offer comprehensive technical support and service for CNC Lathe Machine Parts. Our team of highly trained and experienced professionals is available to provide assistance and guidance in the selection, installation, operation, and maintenance of your CNC Lathe Machine Parts.

Our technical support staff can provide a complete range of services to meet your needs, including:

On-site installation and setup of CNC Lathe Machine Parts.

Instructions on the proper use and maintenance of CNC Lathe Machine Parts.

Assistance with troubleshooting and diagnostics.

Up-to-date technical information.

Repair and replacement services.

We are committed to providing our customers with the highest level of support and service. If you have any questions or need assistance, please do not hesitate to contact us.

Packing and Shipping:

For packaging and shipping CNC Lathe Machine Parts, the following measures are taken:
The parts are carefully placed in protective foam and secured in a box.
The box is then placed in a larger box with cushioning material to keep it secure during shipping.
The box is then labeled with the customer's address and shipped via UPS or FedEx.

FAQ:

Q&A about CNC Lathe Machine Parts

Q1: What is the Brand Name of the CNC Lathe Machine Parts?

A1: The Brand Name of the CNC Lathe Machine Parts is Industrial Man.

Q2: What is the Model Number of the CNC Lathe Machine Parts?

A2: The Model Number of the CNC Lathe Machine Parts is OEM.

Q3: Where is the CNC Lathe Machine Parts manufactured?

A3: The CNC Lathe Machine Parts is manufactured in Guangdong, China.

Q4: What kinds of materials are used in the CNC Lathe Machine Parts?

A4: The materials used in the CNC Lathe Machine Parts vary depending on the specific product requirements. We can customize the materials to meet your needs.

Q5: How long is the delivery time for the CNC Lathe Machine Parts?

A5: The delivery time for the CNC Lathe Machine Parts depends on the quantity and complexity of the order. Generally, it will take 1-3 weeks to deliver the goods after the order is confirmed.
