

Ra 0.1-3.2 Aluminum CNC Lathe Machine Parts Service 5 Axis

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- CNC Machining Or Not: Cnc Machining
- Product Name: CNC Lathe Machine Parts
- Surface Roughness: Ra 0.1~3.2, As Requirement
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Micro Machining Or Not: Micro Machining
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
- Equipment: 3/4/5 Axis Center Machining
- Highlight: **Aluminum CNC Lathe Machine Parts,**
5 Axis CNC Lathe Machine Parts,
5 Axis aluminum cnc service

Product Description

Product Description:

Our Pr

CNC Lathe Machine Parts are designed to provide customers with high-precision, cost-effective and efficient solutions for their custom complex machining needs. Our products are made using Computer Numerical Control (CNC) machines and processes, such as CNC milling and turning, to ensure superior accuracy and repeatability. Our CNC lathe parts are made from an array of materials, including aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys.

We offer OEM and ODM CNC machining services, providing customers with a wide range of custom parts for their specific needs. Our products are designed to meet customer drawings and specifications, with our drawing format offering both 2D and 3D options (PDF/CAD, IGES/STEP). Our products are highly regarded for their quality and performance, with comprehensive surface treatment measures to ensure the durability and longevity of the parts.

At our factory, we specialize in the production of CNC lathe parts and Computerized Lathe Parts, offering a wide range of products to meet the needs of customers. Our experienced team of engineers and machinists are capable of producing high-quality CNC Lathe Parts to meet the most stringent requirements, allowing customers to achieve their desired outcome.

Features:

Product Name: CNC Lathe Machine Parts

OEM/ODM: OEM ODM CNC Milling Turning Machining Service

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

MOQ: 1 Piece

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

CNC Machining or Not: Cnc Machining

Computerized Machining Parts, Computerized Lathe Parts, CNC Machining Components

Technical Parameters:

| Name | Value |
|-----------------------|---|
| Material Capabilities | Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys |
| Type | Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM |
| OEM/ODM | OEM ODM CNC Milling Turning Machining Service |
| Product Name | CNC Lathe Machine Parts |
| CNC Machining or Not | Cnc Machining |
| Surface treatment | Anodizing, Polishing, Plating, Painting |
| MOQ | 1 Piece |
| Model Number | OEM Customized Metal Parts Machining |
| Process | Cnc Machining + Surface Treatment |
| Surface Roughness | Ra 0.1~3.2, As Requirement |

Applications:

Industrial Man's CNC Lathe Machine Parts are the perfect choice for a wide range of computerized machining applications. They provide superior accuracy and precision for OEM customized metal parts machining. Our CNC Lathe Machine Parts are made of aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys with rigid quality control standards. Different drawing formats, including 2D/PDF/CAD and 3D/IGES/STEP, are accepted for CNC Lathe Machine Parts. As a professional CNC Lathe Parts manufacturer, Industrial Man is committed to providing the highest quality CNC Lathe Parts with competitive prices. We have the latest CNC machining technology to ensure the precision and accuracy of CNC Lathe Parts. We are confident that our CNC Lathe Machine Parts can meet your needs and enhance your production efficiency.

Customization:

Customize CNC Lathe Machine Parts from Industrial Man

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Surface Roughness: Ra 0.1~3.2, As Requirement

Process: Cnc Machining + Surface Treatment

OEM/ODM: OEM ODM CNC Milling Turning Machining Service

Computerized Machining Parts: Computerized Machining Parts, CNC Machining Components

Support and Services:

CNC Lathe Machine Parts Technical Support and Service

We provide technical support and service for CNC Lathe Machine Parts. Our team of experienced technicians offers a wide range of services which include:

Diagnostic and troubleshooting of CNC lathe machines

Repair and replacement of faulty parts

Installation of CNC lathe machine parts

Regular maintenance and optimization of CNC lathe machines

Training on the use of CNC lathe machines

We are committed to providing the best technical support and services for your CNC lathe machine. Please contact us if you have any questions or concerns.

Packing and Shipping:

Packaging and Shipping of CNC Lathe Machine Parts

CNC lathe machine parts are typically packaged in a corrugated box or plastic wrap. Depending on the size and type of the parts, a wooden pallet or other form of support may be used to ensure the parts remain secure and safe during transport.

The shipping method of CNC lathe machine parts depends on the size and weight of the parts. For lighter parts, small packages can be shipped with regular mail, while larger parts require a freight carrier such as UPS, Fedex, or DHL.

All CNC lathe machine parts should be properly insured for the duration of the shipment to protect against damage or loss. Additionally, some parts may require special handling or labeling for customs clearance.

FAQ:

Q1: What is the brand name of CNC Lathe Machine Parts?

A1: The brand name of CNC Lathe Machine Parts is Industrial Man.

Q2: What is the model number of CNC Lathe Machine Parts?

A2: The model number of CNC Lathe Machine Parts is OEM.

Q3: Where is the CNC Lathe Machine Parts produced?

A3: The CNC Lathe Machine Parts is produced in Guangdong, China.

Q4: What kind of raw materials used for CNC Lathe Machine Parts?

A4: The CNC Lathe Machine Parts are made of high-quality stainless steel.

Q5: What is the application of CNC Lathe Machine Parts?

A5: The CNC Lathe Machine Parts can be used for metal processing, automobile manufacturing, and aerospace industry.
