

Computerized Precision CNC Machining Services Custom Machined Parts IGES STEP

Our Product Introduction

For more products please visit us on lathecnm machining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- OEM/ODM: OEM ODM CNC Milling Turning Machining Service
- Surface Treatment: Anodizing, Polishing, Plating, Painting
- Micro Machining Or Not: Micro Machining
- MOQ: 1 Piece
- Product Name: CNC Lathe Machine Parts
- Tolerance: $\pm 0.005\text{mm}$
- Highlight: **IGES precision cnc machining services,**
STEP precision cnc machining services,
Computerized custom machined parts

Product Description

Product Description:

Our Product

We provide a wide range of CNC Lathe Machine Parts for various purposes. Our CNC Lathe Machine Parts are made with Computer Numerical Control (CNC) technology, and manufactured with precision and accuracy in accordance to customer's requirements. Our CNC Lathe Machine Parts are available with a variety of processes, including Broaching, DRILLING, Etching, Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, and Wire EDM. We offer surface treatments such as Anodizing, Polishing, Plating, and Painting, and the surface roughness can range from Ra 0.1 to 3.2, or as per customer's requirement. Our CNC Lathe Machine Parts have a Minimum Order Quantity of 1 Piece.

Features:

Product Name: CNC Lathe Machine Parts

MOQ: 1 Piece

Process: Cnc Machining + Surface Treatment

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Tolerance: +/-0.005mm

CNC Machining or Not: Cnc Machining

Specialized in: Computerized Machining Parts, CNC Lathe Parts, Computerized Machining Parts

Technical Parameters:

Technical Parameter	Description
Brand Name	OEM/ODM Aluminum Anodizing Part
Model Number	OEM Customized Metal Parts Machining
Micro Machining or Not	Micro Machining
Process	CNC Machining + Surface Treatment
Certification	IATF 16949: 2016/ISO 9001:2015
MOQ	1 Piece
CNC Machining or Not	CNC Machining
Surface Roughness	Ra 0.1~3.2, As Requirement
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Computer Numerical Control Parts	CNC Lathe Machine Parts
Computer Numerical Control Parts Machining	CNC Lathe Parts Machining

Applications:

Industrial Man's CNC Lathe Machine Parts have been designed to provide superior precision, accuracy and repeatability. These parts are designed for a wide range of applications, from general machining to complex multi-axis applications. Our CNC Lathe Machine Parts are designed with a variety of features to meet the needs of your application, such as 3/4/5 Axis Center Machining, a Surface Roughness of Ra 0.1~3.2, and the ability to accept Drawing Formats of 2D/(PDF/CAD)3D(IGES/STEP). We also offer a minimum order quantity of just 1 Piece to meet your production needs. Our CNC Lathe Machine Parts are perfect for CNC machining components, computer numerical control parts, and CNC lathe parts. With Industrial Man, you can be sure to get the highest quality parts with superior precision and performance.

Customization:

Customized CNC Lathe Machine Parts

Brand Name: OEM/ODM Aluminum Anodizing Part

Model Number: OEM Customized Metal Parts Machining

Place of Origin: Guangdong, China

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Micro Machining or Not: Micro Machining

Our custom CNC lathe machine parts offer a wide range of options for computerized lathe parts, CNC machining components, and custom CNC machining. We use high-quality materials such as aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys to fabricate parts that meet your exact specifications. Our capabilities include broaching, drilling, etching, chemical machining, laser machining, milling, rapid prototyping, turning, and wire EDM. We specialize in micro machining and offer a wide range of services to meet your needs.

Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

We provide technical support and service for customers who use CNC Lathe Machine Parts. Our team of professional technicians are trained and experienced in the installation and maintenance of all CNC Lathe Machine Parts. We guarantee the efficiency and reliability of our products.

For technical service, our technicians can provide on-site troubleshooting and installation services. We also offer online support and telephone assistance. We are available 24/7 to answer any questions you may have about our products and services.

We have a wide range of spare parts and accessories for CNC Lathe Machine Parts. We offer competitive prices on all our products and provide free shipping on orders over a certain amount.

If you need any assistance or have any questions, please contact us and we will be happy to help.

Packing and Shipping:

Packaging and Shipping of CNC Lathe Machine Parts:

The parts are packaged in bubble wrap or plastic film to protect against moisture, dust, and physical damage.

The parts are then placed in a cardboard box for extra protection.

The box is then sealed with tape for extra security.

The parts are then shipped via UPS, FedEx, or DHL.

The customer will be notified of the shipment and tracking number.

FAQ:

Q1: What is CNC Lathe Machine Parts?

A1: CNC Lathe Machine Parts is a precision component manufactured by Industrial Man with OEM model number. It is made in Guangdong, China.

Q2: What are the advantages of CNC Lathe Machine Parts?

A2: CNC Lathe Machine Parts have higher precision, better consistency in dimensional accuracy, better surface finish, and it can be used to produce complex parts with a high degree of automation.

Q3: What materials are used to make CNC Lathe Machine Parts?

A3: CNC Lathe Machine Parts are usually made of metals such as aluminum, brass, stainless steel, and copper.

Q4: How long does CNC Lathe Machine Parts manufacturing take?

A4: The manufacturing time for CNC Lathe Machine Parts depends on the complexity of the design and the quantity. Generally, it takes a few days to several weeks.

Q5: What are the applications of CNC Lathe Machine Parts?

A5: CNC Lathe Machine Parts are widely used in various industries such as automotive, aerospace, medical, and agriculture.
