

Custom Precision CNC Lathe Machine Parts Aluminum Brass Material

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- CNC Machining Or Not: Cnc Machining
- Micro Machining Or Not: Micro Machining
- OEM/ODM: OEM ODM CNC Milling Turning Machining Service
- Surface Treatment: Anodizing, Polishing, Plating, Painting
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- Surface Roughness: Ra 0.1~3.2, As Requirement
- Highlight: Custom CNC Lathe Machine Parts, Brass CNC Lathe Machine Parts, Precision custom cnc parts

Product Description

Product Description:

Our Product Introduction

CNC Lathe Machine Parts

CNC Lathe Machine Parts are precision machined components produced by CNC machining, mainly including computerized machining parts, CNC machining components and precision CNC machining. It has a wide range of applications in many industries. These parts are produced for OEM and ODM services. The process of production involves CNC machining, surface treatment and 3/4/5 axis center machining.

The CNC Lathe Machine Parts are commonly produced with milling, turning, drilling, broaching, etching/chemical machining, laser machining, rapid prototyping, wire EDM and other machining services. The parts are produced with tight tolerance and superior surface finish. It can be used in many different sectors, such as medical, aerospace, military and engineering.

Our CNC Lathe Machine Parts are of high quality and are highly precise. The accuracy and repeatability of the parts are excellent. Our CNC Lathe Machine Parts can be custom designed to suit your specific requirements. Our experienced team is ready to help you with your CNC machining needs.

Features:

Product Name: CNC Lathe Machine Parts

OEM/ODM: OEM ODM CNC Milling Turning Machining Service

Micro Machining or Not: Micro Machining

Model Number: OEM Customized Metal Parts Machining

Place of Origin: Guangdong, China

Surface treatment: Anodizing, Polishing, Plating, Painting

Specialty: Computerized Lathe Parts, Computer Numerical Control Parts, CNC Lathe Parts, Machining Parts

Technical Parameters:

Product Name	Technical Parameter
CNC Lathe Machine Parts	Model Number: OEM Customized Metal Parts Machining Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM CNC Machining or Not: Cnc Machining Certification: IATF 16949: 2016/ISO 9001:2015 Equipment: 3/4/5 Axis Center Machining Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP) Surface treatment: Anodizing, Polishing, Plating, Painting Tolerance: +/-0.005mm

Applications:

Industrial Man's CNC Lathe Machine Parts are high-quality, precision-engineered components designed for a variety of industrial applications. The parts are manufactured using computer-controlled machines, allowing for superior accuracy and a very high level of detail. The parts are designed to meet exacting specifications and can be produced in a variety of sizes and shapes. They are made from a variety of materials, such as aluminum, brass, steel, and plastic, making them a perfect choice for any industrial application. The parts are available in a variety of surface treatments, such as anodizing, polishing, plating, and painting, to ensure a long-lasting performance. Industrial Man's CNC Lathe Machine Parts are designed for use in a wide range of industrial settings, including automotive, aerospace, and military applications. The parts are designed to withstand extreme temperatures and pressures and are certified to meet the highest quality standards. With superior accuracy and precise tolerances, Industrial Man's CNC Lathe Machine Parts are sure to meet the most demanding requirements.

Customization:

Customized CNC Lathe Parts

Brand Name: Industrial Man

Model Number: OEM Customized Metal Parts Machining

Place of Origin: Guangdong, China

OEM/ODM: OEM ODM CNC Milling Turning Machining Service

Surface Roughness: Ra 0.1~3.2, As Requirement

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

CNC Machining or Not: CNC Machining

We are specialized in CNC lathe parts, computerized lathe parts, CNC lathe parts machining and custom CNC lathe parts. Our CNC lathe parts are of high quality and precision, with excellent surface roughness. We provide OEM ODM services, with CNC Milling and Turning Machining Service. We also offer various types of machining services, such as broaching, drilling, etching / chemical machining, laser machining, milling, other machining services, rapid prototyping, turning and wire EDM.

Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

At ABC Company, we provide comprehensive technical support and service for CNC lathe machine parts. Our experienced team of engineers are available to answer questions and provide solutions to any challenges that may arise during the life of your CNC lathe machine parts.

We provide ongoing technical support and service by phone and email, as well as on-site service when needed. Our technicians are highly trained and knowledgeable in CNC lathe machine parts, so you can be sure that your product is in good hands.

We strive to provide the highest quality of service to our customers, and we are committed to helping you get the most out of your CNC lathe machine parts. If you ever have any questions or concerns, our technical support team is here to help.

Packing and Shipping:

Packaging and Shipping for CNC Lathe Machine Parts:

The parts will be packaged securely in boxes, sealed with packing tape.

Each box will include a packing slip with the order information.
The parts will be shipped via the most appropriate method for the order.
All orders are shipped within 24 hours of order placement.
All orders are tracked and insured for safe delivery.

FAQ:

Q: What is the brand of your CNC Lathe Machine Parts?
A: Our CNC Lathe Machine Parts are from Industrial Man.
Q: What is the model number of your CNC Lathe Machine Parts?
A: The model number of our CNC Lathe Machine Parts is OEM.
Q: Where is the origin of your CNC Lathe Machine Parts?
A: The origin of our CNC Lathe Machine Parts is Guangdong, China.
Q: What types of CNC Lathe Machine Parts do you offer?
A: We offer various types of CNC Lathe Machine Parts including turning, milling, drilling, grinding, and EDM.
Q: What is the maximum size of your CNC Lathe Machine Parts?
A: The maximum size of our CNC Lathe Machine Parts is up to 500mm.
