

## High Precision CNC Machined 5 Axis Parts Copper Etching ODM

Our Product Introduction

For more products please visit us on [lathecnrmachining.com](http://lathecnrmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- OEM/ODM: OEM ODM CNC Milling Turning Machining Service
- MOQ: 1 Piece
- Product Name: CNC Lathe Machine Parts
- Tolerance:  $\pm 0.005\text{mm}$
- Equipment: 3/4/5 Axis Center Machining
- Surface Roughness: Ra 0.1~3.2, As Requirement
- Process: Cnc Machining + Surface Treatment
- CNC Machining Or Not: Cnc Machining
- Highlight: **ODM 5 axis parts, Copper Etching 5 axis parts, 5Axis high precision machined parts**

### Product Description

**Product Description:**

Our Product Introduction

CNC Lathe Machine Parts are components created using computer numerical control (CNC) technology, specifically for lathe machine systems. They are designed for a wide range of industries, including automotive, aerospace, medical and military. These parts are produced by highly trained technicians using cutting-edge technology, ensuring accuracy, durability, and reliability. Our CNC Lathe Machine Parts are customized to meet customer specifications and can be made from a variety of materials, including aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. We offer OEM and ODM CNC milling turning machining services, with drawing formats ranging from 2D/PDF/CAD to 3D (IGES/STEP). The surface roughness of our parts is between Ra 0.1 and 3.2, or as required.

### Features:

Product Name: CNC Lathe Machine Parts  
Tolerance: +/-0.005mm  
Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)  
OEM/ODM: OEM ODM CNC Milling Turning Machining Service  
CNC Machining or Not: Cnc Machining  
Computer Numerical Control Parts: Yes

### Technical Parameters:

Product Attribute	Value
Brand Name	OEM/ODM Aluminum Anodizing Part
Surface treatment	Anodizing, Polishing, Plating, Painting
Type	Broaching, DRILLING, Etching/Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
OEM/ODM	OEM ODM CNC Milling Turning Machining Service
Tolerance	+/-0.005mm
Model Number	OEM Customized Metal Parts Machining
Surface Roughness	Ra 0.1~3.2, As Requirement
Process	Cnc Machining + Surface Treatment
Equipment	3/4/5 Axis Center Machining
Place of Origin	Guangdong, China
Focus	Computerized Machining Parts, CNC Machining Components, Computerized Lathe Parts

### Applications:

CNC Lathe Machine Parts are essential components for various industrial operations. They are used in a wide range of industries such as automotive, aerospace, medical, and consumer goods. These components are designed for accuracy, precision, and reliability. CNC Lathe Machine Parts are made with advanced CNC machining processes and high-quality materials that ensure their long-term durability and high performance. They are available in various sizes and shapes and can be customized according to customer requirements. CNC Lathe Machine Parts are perfect for producing high-precision parts that are critical to the success of any industrial operation. They are also used to produce complex components that require tight tolerances and intricate detailing.

CNC Lathe Machine Parts are ideal for applications that require precise and consistent results. They are commonly used in the automotive, aerospace, medical, and consumer goods industries to produce parts such as cams, gears, shafts, screws, and other components. The parts are made with advanced CNC machining processes and high-quality materials that ensure their long-term durability and high performance. They are available in various sizes and shapes and can be customized according to customer requirements. OEM/ODM Aluminum Anodizing Part and OEM Customized Metal Parts Machining are two popular CNC Lathe Machine Parts that are used for producing complex components with tight tolerances.

CNC Lathe Machine Parts are the perfect choice for producing high-precision parts that are critical to the success of any industrial operation. They are also used to produce complex components that require tight tolerances and intricate detailing. CNC Lathe Machine Parts are made with advanced CNC machining processes and high-quality materials that ensure their long-term durability and high performance. They are available in various sizes and shapes and can be customized according to customer requirements. OEM/ODM Aluminum Anodizing Part and OEM Customized Metal Parts Machining are two popular CNC Lathe Machine Parts that are used for producing complex components with tight tolerances.

### Customization:

Customized Service for CNC Lathe Machine Parts

Industrial Man offers CNC Lathe Machine Parts customization services with the following attributes:

**Brand Name:** Industrial Man

**Model Number:** OEM

**Place of Origin:** Guangdong, China

**Surface Roughness:** Ra 0.1~3.2, As Requirement

**Drawing Format:** 2D/(PDF/CAD)3D(IGES/STEP)

**Micro Machining or Not:** Micro Machining

**Surface Treatment:** Anodizing, Polishing, Plating, Painting

**Tolerance:** +/-0.005mm

Industrial Man specializes in CNC Lathe Parts, Computer Numerical Control Parts, and other customized services.

### Support and Services:

CNC Lathe Machine Parts Technical Support and Service

At our company, we provide technical support and service for CNC Lathe Machine Parts. Our team of experienced professionals is

available to help you with any maintenance, repair, or installation needs.

We provide comprehensive product support for a wide range of CNC Lathe Machine Parts. Our technical team is available to offer remote diagnostics, troubleshooting, and repairs. We are also available for on-site visits, providing hands-on assistance to ensure your machines are running smoothly.

We also offer maintenance and installation services for CNC Lathe Machine Parts. Our team of certified technicians will walk you through the process of installing and maintaining your machine parts. We will also provide detailed instructions and diagrams to ensure you understand how to use and care for your parts.

We are dedicated to providing the highest quality support and service for CNC Lathe Machine Parts. Our team is available to answer any questions or concerns you may have. Contact us today to get started.

### **Packing and Shipping:**

Packaging and Shipping for CNC Lathe Machine Parts:

All products will be packed in strong corrugated cartons with custom foam inserts.

Products will be shipped using a reliable courier service and tracking information will be provided.

All products will be tested to ensure quality before shipping.

Products will be shipped in a timely manner and arrive in perfect condition.

### **FAQ:**

**Q:** What is the brand name of CNC Lathe Machine Parts?

**A:** The brand name of CNC Lathe Machine Parts is Industrial Man.

**Q:** What is the model number of CNC Lathe Machine Parts?

**A:** The model number of CNC Lathe Machine Parts is OEM.

**Q:** Where are CNC Lathe Machine Parts manufactured?

**A:** CNC Lathe Machine Parts are manufactured in Guangdong, China.

**Q:** What materials are used to make CNC Lathe Machine Parts?

**A:** CNC Lathe Machine Parts are made of high-quality materials for durability and long-lasting performance.

**Q:** What is the price of CNC Lathe Machine Parts?

**A:** The price of CNC Lathe Machine Parts depends on the quantity and specifications of the order.
