

Anodized Copper Precision CNC Turning Machining Parts For Hardened Metals

or more products please visit us on lathecncmachining.com

Basic Information

Place of Origin:	Guangdong,Shenzhen
Brand Name:	INDUSTRIAL-MAN
Certification:	IATF 16949: 2016/ISO 9001:2015
Model Number:	OEM
Minimum Order Quantity:	1PC
Price:	Negotiable
 Packaging Details: 	As the requirement of customer
Delivery Time:	3-5 Days
Payment Terms:	L/C,D/A,D/P,T/T,Western Union,MoneyGram
Supply Ability:	100000Pcs/ Month

Product Specification

Sample:	Avaiable
• Туре:	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
CNC Machining Or Not:	CNC Machining
Micro Machining Or Not: Micro Machining	
Material Capabilities:	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Highlight:	Copper CNC Turning Machining Parts, Anodized Copper CNC Turning Machining Parts , Anodized precision cnc machining parts

Product Description

Product Description:

CNC Lathe Turning Parts are a kind of CNC Machining Parts that are manufactured using CNC Machining technology. They are made from high-quality materials with a 5-axis CNC machining process, allowing them to be produced with a high degree of accuracy. With a strict quality control system, our CNC Turning Machining Parts are highly reliable and durable. The surface treatments are based on customer's request, offering a variety of options to meet different needs.

We provide fast and efficient delivery within 3-5 days. Furthermore, samples are available if you need. Our CNC Turning Machining Parts are manufactured in our factories located in Guangdong and Shenzhen, with the highest standards of production and quality control.

Features:

Product Name: CNC Turning Machining Parts Sample: Available Delivery Time: 3-5 Days Equipment: 3/4/5 Axis Center Machining OEM/ODM: Accepted CNC Lathe Turning Parts Custom CNC Machining Parts High Precision CNC Machined Parts

Technical Parameters:

Parameter	Value
Туре	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
Drawing Format	STP. STEP . IGS . PRT . X_T
Delivery Time	3-5 Days
Equipment	3/4/5 Axis Center Machining
Product Name	CNC Turning Machining Parts
CNC Machining or Not	CNC Machining
Certification	IATF 16949: 2016/ISO 9001:2015
Place of Origin	Guangdong,Shenzhen
Brand Name	INDUSTRIAL-MAN
Surface treatment	Customer's Request

Applications:

CNC Turning Machining Parts from Industrial Man are custom-made and designed to meet your exact specifications and needs. Offering a wide range of precision machining services, these parts are perfect for a variety of applications. From 5 axis CNC machining parts to OEM parts, the company offers a variety of machining services, including Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, and Rapid Prototyping. Certified to IATF 16949: 2016/ISO 9001:2015 standards, Industrial Man is dedicated to providing quality parts with the highest accuracy and precision.

CNC Turning Machining Parts from Industrial Man are designed to meet the highest standards of quality and precision. With a tolerance of 0.01- +/-0.005mm, these parts are designed to meet your exact needs and specifications. Drawing formats accepted include STP. STEP . IGS . PRT . X_T. Industrial Man is dedicated to producing parts that are perfectly tailored to meet customer needs, and with Micro Machining capabilities, they are sure to do just that.

Customization:

Custom CNC Turning Machining Parts from Industrial Man

Industrial Man offers customized CNC Turning Machining Parts services to meet your specific requirements. Our CNC Turning Machining Parts can be done with 5 Axis CNC Machining and have a variety of applications.

Brand Name: Industrial Man Model Number: OEM

Place of Origin: Guangdong, China

Sample: Available

Delivery Time: 3-5 Days

Type: Broaching, Drilling, Etching/Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping

Drawing Format: STP. STEP. IGS. PRT. X_T

CNC Machining or Not: CNC Machining

Industrial Man has the capability to provide the highest quality CNC Turning Machining Parts that meet your exact specifications. Our advanced machinery and experienced engineers are able to provide you with a superior product in a timely and cost-effective manner.

Support and Services:

Technical Support and Service for CNC Turning Machining Parts

Our experienced technical team provides complete support and service to ensure you get the most out of your CNC Turning Machining Parts.

Consultation on the selection of optimal machining materials and processes.

Accurate dimensional inspection of machined parts.

Technical assistance with machining setup and operation.

On-site technical support and training.

Preventative maintenance services

24/7 emergency technical support.

Packing and Shipping:

CNC Turning Machining Parts Packaging and Shipping:

The CNC Turning Machining Parts are packaged in corrugated cardboard boxes, bubble wrap, and foam pads for extra protection. The boxes are labeled with the product name, part number, serial number, and weight. The boxes are then stacked on pallets, shrink-wrapped, and sealed with a heavy-duty plastic wrap. The pallets are then loaded onto trucks or other transportation vehicles, and shipped to the customer's requested destination.

FAQ:

Q: What is CNC Turning Machining Parts? A: CNC Turning Machining Parts are precision products produced by Industrial Man, with model number OEM and made in Guangdong, China.

Q: What materials are CNC Turning Machining Parts made of? A: CNC Turning Machining Parts are made from a variety of metals, including aluminum, steel, stainless steel, bronze, brass, etc.

Q: What is the production process of CNC Turning Machining Parts? A: The production process of CNC Turning Machining Parts includes CNC machining, grinding, polishing, drilling, etc.

Q: What is the tolerance of CNC Turning Machining Parts? **A**: The tolerance of CNC Turning Machining Parts typically ranges from 0.001-0.002mm.

Q: What is the lead time for CNC Turning Machining Parts? **A**: The lead time for CNC Turning Machining Parts depends on the complexity of the machining process, but typically ranges from 5-15 days.
