

## ODM Turning machined Aluminum Brass CNC Parts For automotive

Our Product Introduction

For more products please visit us on [lathecnmachining.com](http://lathecnmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 3-5 Days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- Drawing Format: STP . STEP . IGS . PRT . X\_T
- Surface Treatment: Customer's Request
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- MOQ: 1 Piece
- OEM/ODM: Accepted
- Highlight: **ODM brass cnc parts,**  
**Automotive brass cnc parts,**  
**ODM cnc machined aluminum parts**

### Product Description

## Product Description:

CNC Turning Machining Parts is a custom-made CNC machining auto parts manufactured with CNC lathe turning technology. It is widely used in various industries, such as automotive, medical, aerospace, construction, food and beverage, etc. The equipment used for the production is 3/4/5 axis center machining, which can provide highly precise products. OEM/ODM is accepted, and sample is also available. The place of origin is Guangdong, Shenzhen, China. The drawing format used is STP, STEP, IGS, PRT, X\_T. The custom CNC machining parts are high quality and cost-effective, and they have high accuracy and repeatability.

## Features:

Product Name: CNC Turning Machining Parts  
 Surface treatment: Customer's Request  
 Equipment: 3/4/5 Axis Center Machining  
 Sample: Available  
 Drawing Format: STP, STEP, IGS, PRT, X\_T  
 Keywords: Custom CNC Machining Parts, CNC Machining Metal Parts, CNC Machining Turning Parts

## Technical Parameters:

Product Name	CNC Turning Machining Parts
Tolerance	0.01- +/-0.005mm
Drawing Format	STP, STEP, IGS, PRT, X_T
OEM/ODM	Accepted
MOQ	1 Piece
Sample	Available
Brand Name	INDUSTRIAL-MAN
Delivery Time	3-5 Days
CNC Machining or Not	CNC Machining
Certification	IATF 16949: 2016/ISO 9001:2015
Keywords	CNC Machining Metal Parts, CNC Machining Metal Parts, 5 Axis CNC Machining Parts

## Applications:

Industrial Man specializes in CNC Turning Machining Parts for a wide range of applications. Our CNC machined parts are made from top-grade metals and plastics. Our cutting-edge CNC machining equipment and experienced staff enable us to provide superior quality with precise tolerance and features for your CNC machined parts. We offer a variety of CNC machining services such as 3/4/5 Axis Center Machining, CNC Machining Metal Parts, Custom CNC Machining Parts, CNC Machining Auto Parts, CNC Machining Plastic Parts, and more. With our extensive CNC machining capabilities, we can produce CNC machined parts with complex geometries, tight tolerances, and intricate details that are perfect for your application. Our CNC machined parts are backed by the highest quality control standards including IATF 16949: 2016/ISO 9001:2015 certification. We provide custom CNC machining services with drawings in STP, STEP, IGS, PRT, X\_T formats. Our minimum order quantity is 1 piece, so you can order just what you need. Start your project today with Industrial Man and experience the Industrial Man difference.

## Customization:

Industrial Man provides CNC Turning Machining Parts customization services. Our CNC machining auto parts, 5 axis CNC machining parts and CNC machining metal parts have excellent performance and precision. With industrial-grade quality, the tolerance of our CNC turning machining parts can reach 0.01- +/-0.005mm. We accept sample orders and the MOQ is 1 piece. We have 3/4/5 axis center machining equipment to ensure the accuracy of our products.

## Support and Services:

Technical Support & Services of CNC Turning Machining Parts

We provide technical support and services for CNC Turning Machining Parts. Our team of experienced engineers is available to provide technical support and training to our customers. We also provide comprehensive product and application advice.

We provide on-site services such as installation, commissioning, maintenance, repair and troubleshooting for all our CNC Machining Parts. Our team is also able to provide remote services to customers if required. We offer a variety of services, such as:

Consulting and advice on the best product and application for your needs.

Advice on the most efficient and cost-effective machining methods.

Programming and optimization of machining processes.

Repair and troubleshooting of machining processes.

Training and education on CNC machining operations.

We also provide a wide range of after-sales services, such as:

On-site and remote technical support.

Guaranteed quality and timely delivery.

Competitive pricing.

Flexible payment terms.

We are committed to providing the best customer service and technical support for all our CNC Turning Machining Parts. If you have any questions or need any assistance, please contact us and we will be happy to help.

## Packing and Shipping:

Packaging and Shipping

CNC Turning Machining Parts will be packaged in a sturdy cardboard box or other suitable packaging material to ensure a safe delivery. The parts will be shipped via air cargo, sea freight, or other expedited shipping methods, depending on the customer's requirements.

## FAQ:

Q&A on CNC Turning Machining Parts

**Q1: What is the brand name of the CNC Turning Machining Parts?**

A1: The brand name of the CNC Turning Machining Parts is Industrial Man.

**Q2: What is the model number of the CNC Turning Machining Parts?**

A2: The model number of the CNC Turning Machining Parts is OEM.

**Q3: Where are the CNC Turning Machining Parts manufactured?**

A3: The CNC Turning Machining Parts are manufactured in Guangdong, China.

**Q4: What kind of materials are used for the CNC Turning Machining Parts?**

A4: The materials used for the CNC Turning Machining Parts depend on the customer's requirements.

**Q5: What is the lead time of the CNC Turning Machining Parts?**

A5: The lead time of the CNC Turning Machining Parts depends on the quantity and complexity of the parts. Please contact us for more details.
