

## Customizable Precision CNC Turning Machining Parts

Our Product Introduction

For more products please visit us on [lathecnmachining.com](http://lathecnmachining.com)

### Basic Information

- Place of Origin: Guangdong, Shenzhen
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- Micro Machining Or Not: Micro Machining
- Equipment: 3/4/5 Axis Center Machining
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
- Drawing Format: STP . STEP . IGS . PRT . X\_T
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- CNC Machining Or Not: CNC Machining
- Highlight: Customizable CNC Turning Machining Parts, Etching CNC Turning Machining Parts, Etching cnc precision machining parts

### Product Description

## Product Description:

CNC Machining Turning Parts are a type of machining parts produced by CNC Turning Machining. These parts have precise dimensions and excellent surface treatment, which can meet the requirements of customers. Our CNC Turning Machining Parts are certified by IATF 16949: 2016/ISO 9001:2015, and the delivery time is 3-5 days. We provide samples to customers and the place of origin is Guangdong, Shenzhen. All kinds of surface treatments can be customized according to customer requirements. Our CNC Turning Machining Parts are of high quality and are suitable for various industries.

## Features:

**Product Name:** CNC Turning Machining Parts

**CNC Machining or Not:** CNC Machining

**Micro Machining or Not:** Micro Machining

**Type:**

Broaching

Drilling

Etching / Chemical Machining

Laser Machining

Milling

Other Machining Services

Turning

Wire EDM

Rapid Prototyping

**MOQ:** 1 Piece

**Brand Name:** INDUSTRIAL-MAN

**Focus:**

CNC Lathe Turning Parts

CNC Turning Machining Parts

CNC Machining Auto Parts

CNC Lathe Parts

CNC Turning Parts

## Technical Parameters:

<b>Equipment</b>	3/4/5 Axis Center Machining
<b>CNC Machining or Not</b>	CNC Machining
<b>Micro Machining or Not</b>	Micro Machining
<b>MOQ</b>	1 Piece
<b>Delivery Time</b>	3-5 Days
<b>Drawing Format</b>	STP . STEP . IGS . PRT . X_T
<b>Surface treatment</b>	Customer's Request
<b>OEM/ODM</b>	Accepted
<b>Sample</b>	Available
<b>Type</b>	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
<b>Keywords</b>	CNC Lathe Turning Parts, CNC Lathe Turning Parts, Custom CNC Machining Parts

## Applications:

Industrial Man's CNC Machining Turning Parts are precision machined with superior quality, accuracy and repeatability. Our CNC machining services provide a cost-effective and efficient way to produce high-quality parts that meet the tightest tolerances. Our CNC machining capabilities are ideal for producing parts with intricate geometries, complex details, and tight tolerances. We specialize in machining aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. Our CNC machining services are available in a range of sizes and materials and can be customized to meet your exact needs. Our CNC machining services are used to produce components such as nuts, bolts, screws, washers, bushings, pins, and other fasteners for a variety of industries, including automotive, aerospace, medical, and electronics. Our CNC machining services are available with a quick turnaround time of 3-5 days and with a tolerance of 0.01- +/-0.005mm.

Industrial Man's CNC Machining Turning Parts are perfect for producing complex and precise parts. Our CNC machining services are ideal for producing components such as nuts, bolts, screws, washers, bushings, pins, and other fasteners. Our CNC machining services are used in a variety of industries, including automotive, aerospace, medical, and electronics. Our CNC machining services are available in a range of sizes and materials, and with a quick turnaround time of 3-5 days and a tolerance of 0.01- +/-0.005mm.

Industrial Man offers a wide range of CNC machining services, including CNC machining auto parts, CNC machining turning parts, and CNC machining turning parts manufacturing. Our CNC machining services provide superior quality, accuracy, and repeatability, and are perfect for producing complex and precise parts. We specialize in machining aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. Our CNC machining services are available with a quick turnaround time of 3-5 days and with a tolerance of 0.01- +/-0.005mm.

## Customization:

**Industrial Man CNC Turning Machining Parts**

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

Micro Machining or Not: Micro Machining

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM,

Rapid Prototyping  
CNC Machining or Not: CNC Machining  
Surface treatment: Customer's Request  
Product Name: CNC Turning Machining Parts  
**Highlight Keywords:** CNC Machining Metal Parts, CNC Machining Metal Parts, 5 Axis CNC Machining Parts

### Support and Services:

Technical Support and Services for CNC Turning Machining Parts  
We provide technical support and services for CNC turning machining parts, including:  
Consultation and technical advice to help clients choose the optimal machining solution  
Machining process troubleshooting  
Product design and engineering  
CNC programming  
G-code optimization  
Tool selection  
Program debugging and optimization  
On-site training and technical support  
Post-processing and inspection

### Packing and Shipping:

Packaging and Shipping of CNC Turning Machining Parts:  
We pack the CNC Turning Machining Parts in appropriate packaging materials such as corrugated paper, bubble wrap and other suitable materials to ensure safe delivery of the parts. The parts are then shipped using reliable carriers such as DHL, FedEx, UPS and others.  
We also provide tracking information of the shipment.

### FAQ:

Q1: What is CNC Turning Machining Parts?  
A1: CNC Turning Machining Parts is a product manufactured by Industrial Man with a brand model number of OEM. It is produced in Guangdong, China.  
Q2: What materials are used for CNC Turning Machining Parts?  
A2: CNC Turning Machining Parts are usually made of metal, plastic, and other materials.  
Q3: What are the advantages of CNC Turning Machining Parts?  
A3: The advantages of CNC Turning Machining Parts are that they are precise, fast, and cost-effective.  
Q4: What is the lead time for CNC Turning Machining Parts?  
A4: The lead time for CNC Turning Machining Parts depends on the quantity and complexity of the product and can vary from a few days to several weeks.  
Q5: Can CNC Turning Machining Parts be customized?  
A5: Yes, CNC Turning Machining Parts can be customized according to customers' specifications and requirements.
