

## Medical CNC Lathe Machine Parts 4/5 Axis Acrylic Machining

Our Product Introduction

For more products please visit us on [lathecncmachining.com](http://lathecncmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: OEM/ODM Aluminum Anodizing Part
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- CNC Machining Or Not: Cnc Machining
- Micro Machining Or Not: Micro Machining
- MOQ: 1 Piece
- Surface Treatment: Anodizing, Polishing, Plating, Painting
- OEM/ODM: OEM ODM CNC Milling Turning Machining Service
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Equipment: 3/4/5 Axis Center Machining
- Highlight: medical CNC Lathe Machine Parts, acrylic CNC Lathe Machine Parts, 5 Axis cnc machining acrylic

### Product Description

**Product Description:**

Our Product

CNC Lathe Machine Parts are precision components manufactured through computerized numerical control (CNC) machining and surface treatment. The products are characterized by precise dimensions, accurate surface finishing and excellent performance. Our CNC lathe parts are available in different shapes and sizes, and are ideal for a variety of applications, such as aerospace, automotive, medical, industrial, and consumer products. We guarantee the highest quality and superior performance of our CNC Lathe Parts with our innovative engineering and advanced CNC machining techniques. We are committed to providing our customers with the highest quality CNC Lathe Parts at competitive prices and the best service.

Our CNC Lathe Parts are made from a variety of materials, including aluminum, steel, stainless steel, brass, copper, and plastics. We use state-of-the-art CNC lathe machines and the latest techniques to ensure the highest accuracy and quality. With our advanced CNC machining technology, we are able to produce components with very tight tolerances and intricate shapes. We also provide surface treatment to improve the surface finish and longevity of our CNC Lathe Parts.

Our CNC Lathe Parts are designed to meet the highest quality standards. Our experienced engineers are committed to providing our customers with the highest quality products and services. We guarantee the highest quality and superior performance of our CNC Lathe Parts with our innovative engineering and advanced CNC machining techniques. We are committed to providing our customers with the highest quality CNC Lathe Parts at competitive prices and the best service.

## Features:

Product Name: CNC Lathe Machine Parts

OEM/ODM: OEM ODM CNC Milling Turning Machining Service

Tolerance: +/-0.005mm

Place of Origin: Guangdong, China

Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)

Micro Machining or Not: Micro Machining

Specialties: CNC Machining Components, CNC Lathe Parts, CNC Machining Components, CNC Turning Parts, CNC Milling Parts

## Technical Parameters:

Parameter	Description
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
Equipment	3/4/5 Axis Center Machining
Tolerance	+/-0.005mm
Model Number	OEM Customized Metal Parts Machining
Process	Cnc Machining + Surface Treatment
OEM/ODM	OEM ODM CNC Milling Turning Machining Service
CNC Machining or Not	Cnc Machining
Place of Origin	Guangdong, China
MOQ	1 Piece
Brand Name	OEM/ODM Aluminum Anodizing Part
CNC Lathe Parts	CNC Lathe Parts, CNC Lathe Parts, CNC Machining Components

## Applications:

CNC Lathe Machine Parts are used in a variety of industries, ranging from automotive and aerospace to medical and consumer products. These computerized lathe parts are used to produce parts that are highly precise and accurate, as they are manufactured by sophisticated computerized milling and turning machines. They are usually made from aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. CNC lathe machine parts are used in a variety of applications, including machining, drilling, broaching, etching and chemical machining, laser machining, milling, rapid prototyping, turning, and wire EDM. Because of their ability to produce accurate and consistent parts, CNC lathe machine parts are ideal for producing components for a variety of industries, including automotive, aerospace, medical, and consumer products. The brand name of CNC Lathe Machine Parts is OEM/ODM Aluminum Anodizing Part and the model number is OEM.

## Customization:

Industrial Man offers customized CNC Lathe Machine Parts with brand name Industrial Man and model number OEM Customized Metal Parts Machining. Our CNC Lathe Machine Parts are fabricated using high quality materials to ensure accuracy and durability. Industrial Man provides various surface treatments to CNC Lathe Machine Parts including anodizing, polishing, plating and painting. All our CNC Lathe Machine Parts are certified with IATF 16949: 2016/ISO 9001:2015. We specialize in Computerized Machining Parts, CNC Lathe Parts, CNC Lathe Parts Machining and Customized Metal Parts Machining.

## Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

We offer technical support and service for CNC lathe machine parts. Our team of experienced professionals will provide you with all the support and guidance you need to ensure that your CNC lathe machine parts perform as expected. We can help you troubleshoot any issues that may arise, provide programming assistance, and provide advice on maintaining and servicing your CNC lathe machine parts. We also offer on-site training and instruction for CNC lathe machine parts. Our team of experts can provide you with step-by-step instructions and guidance on how to use and maintain your CNC lathe machine parts. Our training and instruction services are designed to ensure that you have the knowledge and skills needed to safely and effectively operate your CNC lathe machine parts.

If you have any questions or require additional assistance with your CNC lathe machine parts, please do not hesitate to contact us. Our team of experienced professionals is here to help you in any way we can.

## Packing and Shipping:

Packaging and Shipping for CNC Lathe Machine Parts

We package our CNC Lathe Machine Parts in sturdy cardboard boxes, with protective packaging material inside. All boxes are labeled with "FRAGILE" and "HANDLE WITH CARE" so they are handled with extra care during transit.

We ship our CNC Lathe Machine Parts with a reliable local courier. All orders will be shipped within 2 business days, and tracking information is provided at the time of shipment.

### FAQ:

Q: What is the Brand Name of the CNC Lathe Machine Parts?

A: The Brand Name of the CNC Lathe Machine Parts is Industrial Man.

Q: What is the Model Number of the CNC Lathe Machine Parts?

A: The Model Number of the CNC Lathe Machine Parts is OEM.

Q: What is the Place of Origin of the CNC Lathe Machine Parts?

A: The Place of Origin of the CNC Lathe Machine Parts is Guangdong, China.

Q: Are the CNC Lathe Machine Parts durable?

A: Yes, the CNC Lathe Machine Parts are made of high-quality materials that are made to last.

Q: Are CNC Lathe Machine Parts easy to maintain?

A: Yes, the CNC Lathe Machine Parts are designed with easy maintenance in mind.
