

OEM 3 4 Axis Machine Turned Parts CNC On Demand

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, Shenzhen
- Brand Name: Industrial Man
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- MOQ: 1 Piece
- Equipment: 3/4/5 Axis Center Machining
- Tolerance: 0.01- +/-0.005mm
- Surface Treatment: Customer's Request
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
- Sample: Available
- OEM/ODM: Accepted
- Highlight: **3Axis machine turned parts,**
4Axis machine turned parts,
OEM cnc on demand

Product Description

Product Description:

Our Product

CNC Turning Machining Parts are produced through 5-axis CNC machining technology, with accuracy and reliability. With CNC lathe turning technology, our CNC Turning Machining Parts can be customized to meet customer's individual requirements. The surface treatment can be customized according to customers' specific requirements. We ensure that the delivery time is only 3-5 days, and samples are available for testing. Our CNC Turning Machining Parts are made in Guangdong, Shenzhen, with high quality guaranteed. Our CNC Turning Machining Parts feature precise and reliable 5-axis CNC machining, CNC lathe turning technology, and an array of surface treatments. Our professional team of engineers and technicians are experienced in the manufacture of CNC Turning Machining Parts, providing customers with the best production solutions with the most efficient production time. We are committed to providing customers with the highest quality CNC Turning Machining Parts. Our dedication to customer service, production efficiency, and quality assurance make us a reliable choice for CNC Turning Machining Parts. With our years of experience in the CNC machining industry, we are confident that we can provide customers with the best CNC Turning Machining Parts.

Features:

Product Name: Custom CNC Machining Parts, CNC Machining Turning Parts, 5 Axis CNC Machining Parts

Certification: IATF 16949: 2016/ISO 9001:2015

Drawing Format: STP . STEP . IGS . PRT . X_T

Delivery Time: 3-5 Days

CNC Machining or Not: CNC Machining

Tolerance: 0.01- +/-0.005mm

Technical Parameters:

Attributes	Value
Equipment	3/4/5 Axis Center Machining
Delivery Time	3-5 Days
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
Surface treatment	Customer's Request
Tolerance	0.01- +/-0.005mm
CNC Machining or Not	CNC Machining
MOQ	1 Piece
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Micro Machining or Not	Micro Machining
Drawing Format	STP . STEP . IGS . PRT . X_T
CNC Machining Metal Parts	Yes
Custom CNC Machining Parts	Yes
CNC Lathe Turning Parts	Yes

Applications:

Industrial Man CNC Turning Machining Parts is a precision CNC machining parts which are produced by 5 axis CNC lathe turning machining service. It is used to make parts for a variety of industries, such as medical, aerospace, automotive, and electronics. It has many advantages, including high accuracy, repeatability, and surface finish. The OEM/ODM service is available and customers can provide their own drawings in STP . STEP . IGS . PRT . X_T format. Sample is available and the MOQ is only one piece.

Industrial Man CNC Turning Machining Parts are widely used in a variety of applications, such as drilling, broaching, milling, turning, chemical machining, laser machining, wire EDM, and rapid prototyping. It is made from high-quality materials and is highly durable. It can meet the strict requirements of customers and can provide high precision and repeatability. It is also cost-effective and reliable and can be used in many industries.

Industrial Man CNC Turning Machining Parts is an ideal choice for customers who need a high-precision, reliable and cost-effective CNC machining parts. It is manufactured with high-end technology and can provide excellent performance. It is easy to use and can be used in a variety of applications. It is also durable and can provide high efficiency and accuracy. With its reliable and cost-effective service, Industrial Man CNC Turning Machining Parts is the perfect choice for customers who demand high-quality and precision machining parts.

Customization:

Industrial Man provides customized CNC Turning Machining Parts services with brand name Industrial Man, model number OEM, place of origin in Guangdong, China. Our micro machining process is of high accuracy and the delivery time is only 3-5 days. We are certified to meet the standards of IATF 16949: 2016/ISO 9001:2015. Our advanced 3/4/5 axis center machining machines and skilled technicians are capable of producing CNC machining auto parts and CNC machining turning parts with high precision and tolerance of 0.01- +/-0.005mm.

Support and Services:

We offer technical support and services for CNC Turning Machining Parts. Our team of technicians have extensive knowledge and experience in CNC machining and can provide help and advice for all aspects of the process, from initial design to fabrication and testing. We can provide technical assistance with programming, troubleshooting, and setup, as well as advice on the selection of materials, tooling, and machining strategies. We also offer training services to help customers gain a better understanding of CNC machining and its processes. In addition, we provide maintenance and repair services, as well as spare parts and consumables for CNC Turning Machining Parts.

Packing and Shipping:

The CNC Turning Machining Parts will be safely and securely packaged to ensure it arrives to its destination intact. The packaging materials used will be chosen based on the parts size and weight, and the shipping carrier. Depending on the parts size and weight, they

may be shipped individually or in bulk. The parts will be packaged using bubble wrap, foam, cardboard, or other materials to protect against any damage during transit. The package will also be clearly marked with the shipping address and a description of the parts being shipped. The parts will be shipped using a reliable carrier such as UPS or FedEx.

FAQ:

Q: What is CNC Turning Machining Parts?

A: CNC Turning Machining Parts refer to parts that are machined by CNC Turning Machine. It is a kind of parts with high precision and high efficiency.

Q: What's the brand name of CNC Turning Machining Part?

A: The brand name of CNC Turning Machining Parts is Industrial Man.

Q: What's the model number of CNC Turning Machining Part?

A: The model number of CNC Turning Machining Parts is OEM.

Q: Where is the place of origin of CNC Turning Machining Parts?

A: The place of origin of CNC Turning Machining Parts is Guangdong, China.

Q: What are the advantages of CNC Turning Machining Parts?

A: The advantages of CNC Turning Machining Parts are high precision, high efficiency, and cost saving.
