

High Precision Aluminum CNC Service For Linear Bearings Custom Made

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Surface Roughness: Ra 0.1~3.2, As Requirement
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- CNC Machining Or Not: Cnc Machining
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
- Surface Treatment: Anodizing, Polishing, Plating, Painting
- Process: Cnc Machining + Surface Treatment
- Tolerance: $\pm 0.005\text{mm}$
- Micro Machining Or Not: Micro Machining
- Highlight: Custom Made aluminum cnc service,

Product Description

Product Description:

Our Product Introduction

CNC Lathe Machine Parts is a sophisticated computerized machining parts, manufactured through computer numerical control (CNC) processes. It can be custom-made to meet customers' specific requirements. Its surface roughness is in the range of Ra 0.1 to 3.2, which can be adjusted as required. The material capabilities of this product include aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel and steel alloys. The minimum order quantity is 1 piece. It is produced in Guangdong, China. This CNC machining component is an ideal solution for customers seeking precision and reliability in their production process.

Features:

Product Name: CNC Lathe Machine Parts

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Process: CNC Machining + Surface Treatment

Brand Name: OEM/ODM Aluminum Anodizing Part

Tolerance: +/-0.005mm

Keywords: CNC Machining Components, Computerized Lathe Parts, Computerized Lathe Parts

Technical Parameters:

Tolerance	Type
+/-0.005mm	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Micro Machining or Not	Surface treatment
Micro Machining	Anodizing, Polishing, Plating, Painting
CNC Machining or Not	Process
Cnc Machining	Cnc Machining + Surface Treatment
Material Capabilities	Product Name
Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys	CNC Lathe Machine Parts
Surface Roughness	Model Number
Ra 0.1~3.2, As Requirement	OEM Customized Metal Parts Machining

Applications:

CNC Lathe Machine Parts

Industrial Man CNC Lathe Machine Parts are high-quality, precision machined components used in a variety of applications. With an OEM Model Number, our products are produced with a range of surface treatments, including anodizing, polishing, plating and painting, with surface roughness ranging from Ra 0.1 to 3.2, as required by the customer. Our CNC machining services include broaching, drilling, etching/chemical machining, laser machining, milling, other machining services, rapid prototyping, turning, and wire EDM, on 3/4/5 Axis Center Machining. Our CNC machining components are used for CNC Lathe Parts and CNC Machining Components.

Customization:

Customized CNC Lathe Machine Parts

Our CNC Lathe Machine Parts are designed to meet your exact needs. We use only the highest-quality materials and the latest technology to achieve the finest results. Our CNC Lathe Machine Parts are known for their superior precision and accuracy, and they are also highly durable and resistant to wear.

Brand Name: OEM/ODM Aluminum Anodizing Part

Model Number: OEM Customized Metal Parts Machining

Place of Origin: Guangdong, China

Tolerance: +/-0.005mm

OEM/ODM: OEM ODM CNC Milling Turning Machining Service

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Our CNC Lathe Machine Parts are perfect for Computerized Lathe Parts, Computer Numerical Control Parts, and Computerized Machining Parts. We can customize the design and features to suit your needs, and our experienced team is available to answer any questions you may have.

Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

At XYZ Inc., we provide comprehensive technical support and services for CNC Lathe Machine Parts. Our team of technicians is highly experienced in the operation and maintenance of CNC Lathe Machine Parts, and is available 24/7 to provide advice and guidance on installation, usage, and troubleshooting of CNC Lathe Machine Parts. We also offer on-site inspection and repair services for CNC Lathe Machine Parts.

We provide a full range of services for CNC Lathe Machine Parts, including:

Installation and setup assistance

Troubleshooting and repair

On-site inspection and maintenance

Software and hardware upgrades

Training and support

Our technicians are dedicated to providing the highest quality of service to ensure that your CNC Lathe Machine Parts are operating efficiently and reliably. For more information, please contact our customer service department.

Packing and Shipping:

Packaging and Shipping for CNC Lathe Machine Parts

Packaging: Parts are packed in individual plastic bags and then put into cartons for shipping.
Shipping: Parts are shipped by air, sea, or express delivery.

FAQ:

Q1: What is the brand name of the CNC Lathe Machine Parts?

A1: The brand name is Industrial Man.

Q2: What is the model number of the CNC Lathe Machine Parts?

A2: The model number is OEM.

Q3: Where is the CNC Lathe Machine Parts manufactured?

A3: The CNC Lathe Machine Parts is manufactured in Guangdong, China.

Q4: What materials are the CNC Lathe Machine Parts made of?

A4: The CNC Lathe Machine Parts are usually made of metals such as steel, aluminum, brass, etc.

Q5: How long does it take to produce CNC Lathe Machine Parts?

A5: It usually takes several weeks to manufacture CNC Lathe Machine Parts.
