

Computerized Custom CNC Parts Machining ISO 9001 2015 Certificated

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- CNC Machining Or Not: Cnc Machining
- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- Tolerance: +/-0.005mm
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
- Micro Machining Or Not: Micro Machining
- Equipment: 3/4/5 Axis Center Machining
- MOQ: 1 Piece
- Highlight: custom cnc parts ISO 9001, Computerized custom cnc parts, Computerized cnc parts machining

Product Description

Product Description:

Our Product Introduction

CNC Lathe Machine Parts are high precision computerized machining parts, produced with a high level of accuracy and detail. These parts are made from a wide range of materials, such as aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel and steel alloys, and are able to meet a tolerance of $\pm 0.005\text{mm}$. We offer both micro machining and not-micro machining services, and are able to accept both 2D and 3D drawing formats, such as PDF/CAD, IGES/STEP. With our OEM/ODM Aluminum Anodizing Part service, we are able to provide customers with a wide range of CNC machining components and CNC lathe machine parts.

Features:

Product Name: CNC Lathe Machine Parts
Process: Cnc Machining + Surface Treatment
Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Brand Name: OEM/ODM Aluminum Anodizing Part
Surface Roughness: Ra 0.1~3.2, As Requirement
Computerized Machining Parts, CNC Machining Components
Computerized Machining Parts, CNC Machining Parts
Anodizing Parts

Technical Parameters:

Product Parameters	Description
Product Name	CNC Lathe Machine Parts
Process	Cnc Machining + Surface Treatment
Surface Roughness	Ra 0.1~3.2, As Requirement
Certification	IATF 16949: 2016/ISO 9001:2015
Micro Machining or Not	Micro Machining
Place of Origin	Guangdong, China
Brand Name	OEM/ODM Aluminum Anodizing Part
OEM/ODM	OEM ODM CNC Milling Turning Machining Service
Tolerance	$\pm 0.005\text{mm}$
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Applications:

CNC Lathe Machine Parts are widely used in various industries for a variety of purposes. They are extensively used for machining components, such as Computerized Lathe Parts, CNC Machining Components, and Computerized Machining Parts. The high-quality parts are made from the best materials and are subject to strict quality control procedures to ensure that they meet the highest standards of quality. OEM/ODM Aluminum Anodizing Part, with its model number OEM, is one of the most popular CNC Lathe Machine Parts. It has been certified by IATF 16949: 2016/ISO 9001:2015 and can be customized according to customers' drawing formats, such as 2D/PDF/CAD and 3D IGES/STEP. It is produced through CNC machining and surface treatment processes, including machining services, such as Broaching, Drilling, Etching/Chemical Machining, Laser Machining, Milling, Rapid Prototyping, Turning, and Wire EDM.

Customization:

Industrial Man specializes in custom-made CNC Lathe Machine Parts. Our products are designed to meet customers' requirements, be it for 2D or 3D drawings, chemical machining, laser machining, turning, wire EDM and more. We provide precision Computerized Machining Parts, CNC Lathe Parts and Computerized Lathe Parts with our strict tolerance up to $\pm 0.005\text{mm}$.

Support and Services:

CNC Lathe Machine Parts Technical Support and Services

We provide comprehensive technical support and services for CNC Lathe Machine Parts. Our experienced engineers and technicians are available to provide you with professional advice and assistance.

We offer a wide range of services, including:

Troubleshooting technical issues

Installation and maintenance

Providing training and support

Advice on purchasing new components

Repair and replacement of worn or defective parts

If you need assistance with any CNC Lathe Machine Parts, please don't hesitate to contact us. We are here to help!

Packing and Shipping:

Packaging and Shipping for CNC Lathe Machine Parts:

All CNC Lathe Machine Parts will be packed in a sturdy cardboard box, with foam padding added for extra protection of the components.

The package will be clearly labelled with the contents and the customer's address.

Shipping will be via a reliable courier service, tracked and insured for the full value of the package. Customers will be notified by email as soon as the package is shipped, with a tracking number included.

FAQ:

Q: What is the brand name of the CNC Lathe Machine Parts?

A: The brand name of the CNC Lathe Machine Parts is Industrial Man.

Q: What is the model number of the CNC Lathe Machine Parts?

A: The model number of the CNC Lathe Machine Parts is OEM.

Q: Where is the CNC Lathe Machine Parts produced?

A: The CNC Lathe Machine Parts is produced in Guangdong, China.

Q: Can the CNC Lathe Machine Parts be customized?

A: Yes, the CNC Lathe Machine Parts can be customized to meet customer requirements.

Q: What is the lead time for the CNC Lathe Machine Parts?

A: The lead time for the CNC Lathe Machine Parts depends on the quantity and complexity of the order.
