

## 4 Axis Aluminum Turned Parts Aerospace CNC Machining

Our Product Introduction

For more products please visit us on lathecnrmachining.com

### Basic Information

- Place of Origin: Guangdong, Shenzhen
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- Sample: Available
- CNC Machining Or Not: CNC Machining
- Surface Treatment: Customer's Request
- Drawing Format: STP . STEP . IGS . PRT . X\_T
- MOQ: 1 Piece
- Equipment: 3/4/5 Axis Center Machining
- Highlight: **4Axis aluminum turned parts,  
Aerospace aluminum turned parts,  
Aluminum aerospace cnc machining**

### Product Description

**Product Description:**

Our Product

Our **Custom CNC Machining Parts** are crafted with precision, using state-of-the-art CNC lathe turning processes to ensure the highest quality. Our **CNC Lathe Turning Parts** are perfect for a range of applications and industries. Our **CNC Machining Turning Parts** are widely used in Automotive, Aerospace, Medical, Industrial, Electronics, and other industries. With our advanced CNC machining technology, we can produce parts with complex geometries and tight tolerances. We offer a wide range of machining services, including turning, milling, drilling, broaching, etching, laser machining, wire EDM, and rapid prototyping. We can also provide finishing services such as heat treatment, polishing, and anodizing. Our CNC Turning Machining Parts are manufactured in Shenzhen, Guangdong, and promise a quick delivery time of 3-5 days. With our top-notch CNC machining services, you can expect the highest quality parts with the tightest tolerances.

## Features:

**Product Name:** CNC Turning Machining Parts

**Sample:** Available

**Delivery Time:** 3-5 Days

**Certification:** IATF 16949: 2016/ISO 9001:2015

**OEM/ODM:** Accepted

**Surface treatment:** Customer's Request

**Keywords:** CNC Machining Turning Parts, Custom CNC Machining Parts, CNC Machining Turning Parts Supplier

## Technical Parameters:

Property	Value
Type	Broaching, DRILLING, Etching/Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
Sample	Available
Place of Origin	Guangdong, Shenzhen
Surface Treatment	Customer's Request
Equipment	3/4/5 Axis Center Machining
MOQ	1 Piece
OEM/ODM	Accepted
Drawing Format	STP . STEP . IGS . PRT . X_T
Delivery Time	3-5 Days
Micro Machining or Not	Micro Machining
CNC Machining Metal Parts	Yes
Custom CNC Machining Parts	Yes
CNC Machining Turning Parts	Yes

## Applications:

Industrial Man's CNC Turning Machining Parts offer a wide range of applications and scenarios, with advantages of precision, accuracy and consistency. Our CNC machining metal parts are made of state-of-the-art equipment, such as 3/4/5 axis center machining, capable of tolerances up to 0.01- +/-0.005mm, with custom surface treatments available. We are open to both OEM/ODM orders, and specialize in custom CNC machining parts, 5 axis CNC machining parts and other machining parts.

Industrial Man CNC Turning Machining Parts are perfect for a wide range of industries, from aerospace & aviation, medical & healthcare, to automotive & transportation. Our CNC machining metal parts are perfect for precision and accuracy, with consistent high-quality results. With our high-end equipment, Industrial Man can provide you with custom CNC machining parts, 5 axis CNC machining parts and other machining parts for any scenario.

Industrial Man's CNC Turning Machining Parts are perfect for any application, from prototyping to mass production. Our CNC machining metal parts are made with precision and accuracy, with surface treatments customized to your needs. With flexible OEM/ODM orders, Industrial Man can provide you with custom CNC machining parts, 5 axis CNC machining parts and other machining parts to meet your exact needs.

## Customization:

**Brand Name:** INDUSTRIAL-MAN

**Model Number:** OEM

**Place of Origin:** Guangdong, China

**Delivery Time:** 3-5 Days

**Product Name:** CNC Turning Machining Parts

**Certification:** IATF 16949: 2016/ISO 9001:2015

**Material Capabilities:** Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

**Specialized in CNC Turning Machining Parts, CNC Machining Auto Parts, CNC Lathe Turning Parts**

## Support and Services:

Technical Support and Service for CNC Turning Machining Parts

We offer comprehensive technical support and service for CNC Turning Machining Parts so that you can maximize the performance of your machines. Our team of experienced technicians provide comprehensive setup and maintenance services to help keep your machines running at peak efficiency. We also provide troubleshooting services to diagnose and repair any issues that arise.

We provide comprehensive training for your staff so that they can understand how to use the machines and keep them running optimally. Our training includes product demonstrations, hands-on instruction, and online tutorials. We also provide technical support and assistance to ensure that your staff can quickly and easily troubleshoot any issues that may arise.

Our team of experts can help you with custom solutions to meet your specific needs. We can design and build custom parts and components to help you get the most out of your CNC Turning Machining Parts. We also provide technical advice and guidance to help

you make the most informed decisions about your machines and production processes.

## Packing and Shipping:

Packaging and Shipping of CNC Turning Machining Parts

The CNC Turning Machining Parts are packaged in high-quality cardboard boxes with foam inside to ensure no damage occurs in transit. Shipping is done via a reliable courier service, such as FedEx or UPS, which provides tracking information and fast delivery. We also offer express shipping services.

## FAQ:

### Q1: What is CNC Turning Machining Parts?

A1: CNC Turning Machining Parts is a type of machining parts or components with complex shapes used in industrial production, which is produced by Industrial Man with OEM Model Number and made in Guangdong, China.

### Q2: What material is used for CNC Turning Machining Parts?

A2: The material of CNC Turning Machining Parts depends on the application requirements of customers. Generally, all types of metal and plastic materials can be used.

### Q3: What is the tolerance of CNC Turning Machining Parts?

A3: The tolerance of CNC Turning Machining Parts is usually up to  $\pm 0.1\text{mm}$ , and the tolerance can be further adjusted according to customer requirements.

### Q4: What is the production process of CNC Turning Machining Parts?

A4: The production process of CNC Turning Machining Parts includes CNC Lathe Processing, Grinding, Drilling, Milling, Wire Cutting, EDM, etc. according to the specific shape and size of the parts.

### Q5: What is the delivery time of CNC Turning Machining Parts?

A5: The delivery time of CNC Turning Machining Parts is usually 7-15 days, which depends on the specific order quantity.
