

Precision CNC Lathe Parts Advanced Process CNC Machining Service With Surface Treatment

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Surface Treatment: Anodizing, Polishing, Plating, Painting
- Process: Cnc Machining + Surface Treatment
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
- CNC Machining Or Not: Cnc Machining
- Surface Roughness: Ra 0.1~3.2, As Requirement
- Highlight: **Precision CNC Lathe Parts, Precision CNC Machining Service, CNC Machining Service With Surface Treatment**

Product Description

Product Description:

Our Product Introduction

CNC Lathe Machine Parts are computerized machining components and parts produced through CNC machining processes. They are manufactured with a combination of CNC machining and surface treatment for improved quality and performance. The CNC machining process allows for precision cuts and shapes while the surface treatment provides an even and smooth finish. Materials used for CNC Lathe Machine Parts are typically aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. The surface roughness can range from Ra 0.1 to 3.2 depending on customer requirements. OEM/ODM services are also available for CNC Lathe Machine Parts, allowing customers to customize the parts to their exact specifications. With a wide range of materials and precision machining, CNC Lathe parts are perfect for a variety of applications.

Features:

Product Name: CNC Lathe Machine Parts

Brand Name: OEM/ODM Aluminum Anodizing Part

Process: CNC Machining + Surface Treatment

Tolerance: +/- 0.005mm

MOQ: 1 Piece

Type: Broaching, Drilling, Etching/Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Computerized Machining Parts

Computerized Lathe Parts

CNC Machining Components

Technical Parameters:

Parameter	Value
Certification	IATF 16949: 2016/ISO 9001:2015
Place of Origin	Guangdong, China
MOQ	1 Piece
Process	Cnc Machining + Surface Treatment
CNC Machining	Cnc Machining
Surface Roughness	Ra 0.1~3.2, As Requirement
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Model Number	OEM Customized Metal Parts Machining
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Brand Name	OEM/ODM Aluminum Anodizing Part
Product	Computer Numerical Control Parts, CNC Lathe Parts, CNC Lathe Parts Machining

Applications:

Industrial Man offers an extensive selection of customized CNC lathe machine parts that are computerized machined for precise and accurate performance. Our custom CNC lathe machine parts feature a wide variety of precision and surface roughness, including Ra 0.1~3.2 and as required by customers, and a tolerance of +/-0.005mm. With a minimum order quantity of 1 piece, Industrial Man is the ideal choice for your CNC lathe machine parts needs. Industrial Man also provides a variety of drawing formats, including 2D/PDF/CAD, 3D/IGES/STEP, for our custom CNC lathe machine parts. We offer a variety of CNC machining components and computerized machining parts to meet the needs of our customers.

Industrial Man is a brand name you can trust for your CNC lathe machine parts needs. Our custom CNC lathe machine parts are designed to meet the highest standards of quality and precision, and provide excellent value for money. With a wide selection of CNC machining components, computerized machining parts, and CNC lathe parts, Industrial Man is your one-stop shop for all your CNC machining needs.

Customization:

Customize CNC Lathe Machine Parts

If you are looking for an experienced and reliable manufacturing partner to produce CNC Lathe Parts, Computerized Lathe Parts, CNC Machining Components or customized metal parts machining, then you've come to the right place. Our CNC lathe machine parts are made with high quality materials and precision machining, and we are sure to deliver the parts you need.

Product Attributes

Brand Name: OEM/ODM Aluminum Anodizing Part

Model Number: OEM Customized Metal Parts Machining

Place of Origin: Guangdong, China

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Surface treatment: Anodizing, Polishing, Plating, Painting

CNC Machining or Not: Cnc Machining

Our CNC Lathe Machine Parts are available in a wide range of sizes and shapes with precise dimensions. We use advanced machining techniques such as CNC turning, CNC milling, drilling, grinding, wire EDM, etc. to produce the highest quality parts for our customers.

Our experienced staff are committed to providing you with excellent customer service and high quality parts at competitive prices. Contact us now to discuss your CNC Lathe Machine Parts project.

Support and Services:

CNC Lathe Machine Parts Technical Support and Service

We provide technical support and service for our CNC Lathe Machine Parts products. Our team of experienced technicians are available to answer any technical related questions and provide assistance with troubleshooting and installation. We provide timely support and can quickly identify and resolve any issues you may have.

We can provide assistance with product selection, installation, repairs, maintenance, and upgrades. Our technical support includes diagnostic procedures, troubleshooting tips, and repair information for all of our CNC Lathe Machine Parts products. We provide complete technical support to ensure that you get the most out of your product.

We offer product warranty and repair services. Our warranty covers all manufacturing defects and workmanship. We also provide repair services for any CNC Lathe Machine Parts products that have been damaged or need replacement parts. We can provide replacement parts and can offer help with installation and troubleshooting.

For more information about our CNC Lathe Machine Parts technical support and service, please contact us at info@example.com or call us at 1-800-123-4567.

Packing and Shipping:

Packaging and Shipping of CNC Lathe Machine Parts:

We use strong, durable corrugated cardboard boxes to package and ship the CNC Lathe Machine Parts. The boxes are designed to protect the Parts during transit and ensure a safe delivery. We also use bubble wrap and other protective materials to further safeguard the Parts from any potential damage.

FAQ:

- Q1: What is the brand name of this CNC Lathe Machine Parts?
- A1: The brand name of this CNC Lathe Machine Parts is Industrial Man.
- Q2: What is the model number of this CNC Lathe Machine Parts?
- A2: The model number of this CNC Lathe Machine Parts is OEM.
- Q3: Where is this CNC Lathe Machine Parts manufactured?
- A3: This CNC Lathe Machine Parts is manufactured in Guangdong, China.
- Q4: What materials are used to make this CNC Lathe Machine Parts?
- A4: This CNC Lathe Machine Parts is made of high quality steel and aluminum.
- Q5: What is the size of this CNC Lathe Machine Parts?
- A5: The size of this CNC Lathe Machine Parts depends on the specific product. Please contact us for more details.
