

## ISO 9001 CNC Machining Precision Parts For Aerospace

Our Product Introduction

For more products please visit us on [lathecnmachining.com](http://lathecnmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- MOQ: 1 Piece
- Drawing Format: IGS STP STL
- Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Micro Machining Or Not: Micro Machining
- Tolerance: 0.01- +/-0.005mm
- Equipment: 3/4/5 Axis Center Machining
- Product Name: CNC Milling Machining Parts
- Highlight: **ISO 9001 cnc machining precision parts,**  
**Aerospace cnc machining precision parts,**  
**CNC aerospace precision machining**

### Product Description

**Product Description:**

Our Product Introduction

Our CNC Milling Machining Parts are manufactured with high precision and accuracy. Our products are certified with IATF 16949: 2016/ISO 9001:2015, and are produced using the most advanced equipment and technology, including Broaching, DRILLING, Laser Machining, Milling, Turning, and Wire EDM. We use materials such as Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, and Steel Alloys, and accept files in IGS STP STL. Our products have high precision and accuracy, and are of high quality. With our professional team, our CNC Milling Machining Parts are produced with the highest standards of craftsmanship.

## Features:

Product Name: CNC Milling Machining Parts

MOQ: 1 Piece

Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM

Micro Machining or Not: Micro Machining

CNC Machining or Not: Cnc Machining

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Manufacturing Parts Milling: Yes

Milling Machining Components: Yes

## Technical Parameters:

Attributes	Details
Equipment	3/4/5 Axis Center Machining
Tolerance	0.01- +/-0.005mm
Drawing Format	IGS STP STL
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
MOQ	1 Piece
Micro Machining or Not	Micro Machining
Certification	IATF 16949: 2016/ISO 9001:2015
Brand Name	INDUSTRIAL-MAN
Type	Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
CNC Machining or Not	Cnc Machining
Main Products	Milling Machined Parts, Milling Machined Parts, Numerical Controlled Parts

## Applications:

INDUSTRIAL-MAN CNC Milling Machining Parts are the perfect choice for your machining needs. Whether for a one-off project or for high-volume production, they offer precision and accuracy that can't be beat. With our OEM model number and our range of material capabilities, we can provide you with the best possible parts for your project. Our CNC Milling Machining Parts are made from aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. Our 3, 4, and 5-axis center machining equipment allows us to create the most intricate and precise components. We also offer surface treatments according to customer requests.

Our CNC Milling Machining Parts are ideal for a range of applications. Our broaching, drilling, laser machining, milling, turning, and wire EDM services are perfect for the creation of complex parts and components. We also offer CNC milling parts, milling machining components, and computer numerical parts for a range of industries, including automotive, medical, aerospace, defense, and industrial. Our parts are renowned for their superior accuracy and precision, and our experienced team is always available to provide technical support.

INDUSTRIAL-MAN CNC Milling Machining Parts are the perfect solution for your machining needs. With our OEM model number and our range of material capabilities, we can provide you with the highest quality parts for your project. Our experienced team is always available to provide technical support, ensuring that you get the best parts for your application.

## Customization:

INDUSTRIAL-MAN provides custom CNC Milling Machining Parts services with precise Computer Numerical Parts, Milling Machining Components, and Computerized Machining Parts. Our CNC Milling Machining Parts have a Brand Name of INDUSTRIAL-MAN, a Model Number of OEM, and are made in Guangdong, China. Our services include Broaching, Drilling, Laser Machining, Milling, Turning, and Wire EDM. The MOQ of our CNC Milling Machining Parts is 1 Piece, and we have a tolerance of 0.01- +/-0.005mm. Our CNC Milling Machining Parts also has a Certification of IATF 16949: 2016/ISO 9001:2015.

## Support and Services:

Technical Support and Service for CNC Milling Machining Parts

Provide professional guidance on the selection of suitable equipment for machining parts.

Provide technical support and consultation services for machining parts.

Provide on-site services for machining parts.

Provide after-sales service and repair for machining parts.

Provide spare parts and accessories for machining parts.

Provide technical training and professional guidance on the operation of machining parts.

Provide maintenance and diagnosis services for machining parts.

## Packing and Shipping:

Packaging and Shipping of CNC Milling Machining Parts

CNC Milling Machining Parts will be carefully packaged in cardboard boxes or plastic bags. To ensure that the parts arrive in excellent condition, extra cushioning materials will be added to the packages. The packages will then be sealed with strong adhesive tape and labeled with the appropriate shipping information.

The parts will be shipped with a reliable and secure shipping service. Depending on the size of the order, they can be shipped by ground, air, or sea. Tracking information will be provided for every shipment.

If you have any additional questions or concerns about the packaging and shipping of CNC Milling Machining Parts, please contact us

and we will be happy to assist you.

#### **FAQ:**

Q: What is CNC Milling Machining Parts?

A: CNC Milling Machining Parts is a kind of machining parts that is machined by CNC milling machine, which can be custom-made according to customer's drawings or samples.

Q: What brand is this CNC Milling Machining Parts?

A: This CNC Milling Machining Parts has the brand name of Industrial Man.

Q: What is the model number of this CNC Milling Machining Parts?

A: This CNC Milling Machining Parts has the model number of OEM.

Q: Where is this CNC Milling Machining Parts made?

A: This CNC Milling Machining Parts is made in Guangdong, China.

Q: What are the materials of this CNC Milling Machining Parts?

A: This CNC Milling Machining Parts can be made of aluminum, steel, stainless steel, brass, copper, plastic, etc.
