

## 0.005mm Tolerance CNC Lathe Machine Parts for Hardened Metals / Precious Metals

Our Product Introduction

For more products please visit us on [lathecnrmachining.com](http://lathecnrmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- OEM/ODM: OEM ODM CNC Milling Turning Machining Service
- MOQ: 1 Piece
- Tolerance: +/-0.005mm
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Process: Cnc Machining + Surface Treatment
- Product Name: CNC Lathe Machine Parts
- Highlight: **0.005mm Tolerance CNC Lathe Machine Parts, Precious Metals CNC Lathe Machine Parts, Hardened Metals CNC Lathe Machine Parts**

### Product Description

**Product Description:**

Our Product

Our CNC Lathe Machine Parts are specially designed for precision micro machining. With excellent craftsmanship and advanced computer numerical control (CNC) machining technology, these Computerized Machining Parts are perfect for intricate and complex parts in a variety of materials, such as aluminum anodizing parts. We can customize CNC Lathe Parts to your exact specifications. Our experienced engineers and technicians guarantee that each piece is produced to the highest quality standards. We offer competitive prices and no minimum order quantity (MOQ) is required. With our CNC Lathe Machine Parts, you can trust in our commitment to precision and superior quality.

## Features:

Product Name: CNC Lathe Machine Parts

Place of Origin: Guangdong, China

OEM/ODM: OEM ODM CNC Milling Turning Machining Service

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Process: Cnc Machining + Surface Treatment

Computer Numerical Control Parts

Computerized Lathe Parts

Computerized Machining Parts

## Technical Parameters:

Process	CNC Machining or Not
Cnc Machining + Surface Treatment	Cnc Machining
Equipment	Surface Roughness
3/4/5 Axis Center Machining	Ra 0.1~3.2, As Requirement
MOQ	Type
1 Piece	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Drawing Format	Surface treatment
2D/(PDF/CAD)3D(IGES/STEP)	Anodizing, Polishing, Plating, Painting
Brand Name	Model Number
OEM/ODM Aluminum Anodizing Part	OEM Customized Metal Parts Machining

## Applications:

Industrial Man is a reliable brand of CNC lathe machine parts, with a model number of OEM Customized Metal Parts Machining. Our product is made from superior quality materials such as aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. We provide OEM ODM CNC Milling Turning Machining Service with 3/4/5 Axis Center Machining. Our CNC lathe machine parts have a wide range of uses, from computer numerical control parts, computerized lathe parts, CNC machining components, and CNC turning parts. We have a long history of producing high-quality CNC lathe machine parts, with a strong commitment to customer satisfaction. Our products are widely used in a variety of industries, from aerospace, automotive, military, medical, and more. We are confident that our CNC lathe machine parts are of the highest quality, and will provide long-lasting performance.

## Customization:

Customized CNC Lathe Machine Parts from Industrial Man

Industrial Man provides custom-made CNC Lathe Machine Parts, CNC Lathe Parts, CNC Machining Components with a range of materials including aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. Our process includes CNC Machining and surface treatment.

Product Specifications:

Brand Name: Industrial Man

Model Number: OEM

Process: CNC Machining + Surface Treatment

CNC Machining or Not: CNC Machining

Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)

Place of Origin: Guangdong, China

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

## Support and Services:

CNC Lathe Machine Parts Technical Support and Service

We offer comprehensive technical support and service for CNC Lathe Machine Parts. Our experienced technicians can help diagnose and troubleshoot any issue you may have with your machine. We can provide on-site service for many CNC Lathe Machine Parts.

Additionally, we offer remote support for many CNC Lathe Machine Parts, making it easy to get help quickly from the comfort of your home or office.

Our team is available to answer any questions you may have regarding CNC Lathe Machine Parts, so feel free to reach out to us any time. We are committed to providing the best customer experience possible, and we'll do whatever we can to make sure you have the support you need.

## Packing and Shipping:

#### Packaging and Shipping of CNC Lathe Machine Parts

We use quality packaging materials to ensure that our CNC Lathe Machine Parts can reach our customers in the best condition. Our packaging materials include cardboard boxes, bubble wrap, plastic wrap, foam, and other cushioning materials. We ship our CNC Lathe Machine Parts with our trusted delivery partners such as UPS, FedEx and DHL. We take extra care to ensure that our packages are properly secured and well-protected during transit. We also offer a tracking number with each shipment so our customers can track their orders in real-time.

#### FAQ:

Q1: What is the brand name of the CNC Lathe Machine Parts?

A1: The brand name of the CNC Lathe Machine Parts is Industrial Man.

Q2: What is the model number of the CNC Lathe Machine Parts?

A2: The model number of the CNC Lathe Machine Parts is OEM.

Q3: Where are the CNC Lathe Machine Parts made?

A3: The CNC Lathe Machine Parts are made in Guangdong, China.

Q4: What is the material of the CNC Lathe Machine Parts?

A4: The material of the CNC Lathe Machine Parts usually includes steel, aluminum, plastic, and various metal alloys.

Q5: What is the application of the CNC Lathe Machine Parts?

A5: The CNC Lathe Machine Parts are widely used in automotive, aerospace, medical, and military industries.
