

Precision Broaching brass CNC Turning Machining Parts Components

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 3-5 Days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
- Equipment: 3/4/5 Axis Center Machining
- OEM/ODM: Accepted
- Sample: Available
- Surface Treatment: Customer's Request
- MOQ: 1 Piece
- Drawing Format: STP . STEP . IGS . PRT . X_T
- Highlight: **brass CNC Turning Machining Parts, Broaching CNC Turning Machining Parts, Brass cnc precision turning components**

Product Description

Product Description:

Our Product Introduction

INDUSTRIAL-MAN CNC Turning Machining Parts are precision-machined components that are produced from aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. We offer a wide variety of CNC machining processes, including CNC lathe turning, CNC milling, tapping, drilling, and grinding for parts and components that meet tight tolerances. Our CNC Turning Machining Parts provide superior strength and durability, and are engineered to meet the exact specifications of our customers. INDUSTRIAL-MAN is proud to provide OEM/ODM CNC Turning Machining Parts services for our customers, and our experienced CNC machinists are committed to delivering high-quality CNC Turning Machining Parts with precise tolerances of 0.01- +/-0.005mm. Our CNC Turning Machining Parts are trusted by many customers and are widely used in automotive, aerospace, medical and other industrial applications.

At INDUSTRIAL-MAN, we strive to be the leading manufacturer of CNC Turning Machining Parts in the world. For more than 10 years, we have been providing high-quality CNC Turning Machining Parts from our factory in Guangdong, Shenzhen, China. Contact us today to learn more about our CNC machining services.

Features:

Product Name: CNC Turning Machining Parts

Place of Origin: Guangdong, Shenzhen

Delivery Time: 3-5 Days

Sample: Available

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Micro Machining or Not: Micro Machining

Keywords: CNC Machining Auto Parts, CNC Machining Auto Parts, Custom CNC Machining Parts

Technical Parameters:

Parameters	Value
Equipment	3/4/5 Axis Center Machining
Delivery Time	3-5 Days
OEM/ODM	Accepted
Surface Treatment	Customer's Request
Certification	IATF 16949: 2016/ISO 9001:2015
Tolerance	0.01- +/-0.005mm
Sample	Available
MOQ	1 Piece
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Focus On	CNC Machining Auto Parts, 5 Axis CNC Machining Parts, CNC Lathe Turning Parts, Machining Metal Parts, CNC Turning Parts

Applications:

INDUSTRIAL-MAN CNC Turning Machining Parts are precision-engineered custom components for a variety of applications. Our CNC machining services utilize 3/4/5 Axis Center Machining to produce high accuracy parts from Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys and more. Our CNC machined parts and components are designed to meet the needs of our customers. We also offer customized CNC Machining Parts, CNC Machining Auto Parts, CNC Machining Milling Parts and CNC Machined Parts and Components as per customer's requirements. With our OEM/ODM service, our CNC machining services can deliver high-quality parts in a timely manner. Sample is available.

Customization:

Customized Service for 5 Axis CNC Machining Parts and CNC Turning Machining Parts

Brand Name: INDUSTRIAL-MAN

Model Number: OEM

Place of Origin: Guangdong, China

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Drawing Format: STP, STEP, IGS, PRT, X_T

Micro Machining or Not: Micro Machining

Tolerance: 0.01- +/-0.005mm

INDUSTRIAL-MAN provides custom 5 Axis CNC Machining Parts and CNC Turning Machining Parts, with high precision and excellent quality. Our experienced technical team can make sure every product meet your requirements with the tolerance of 0.01- +/-0.005mm.

Support and Services:

Technical Support and Service for CNC Turning Machining Parts

We provide comprehensive technical support and services for CNC Turning Machining Parts. Our professional team is always available to help with consultation, installation, training, troubleshooting and repair as well as providing spare parts and accessories. In addition, our experienced technicians are on-hand to ensure high quality production and keep machining running at optimum performance.

We are committed to providing exceptional customer service and support for our customers. Our highly trained staff are available to answer any technical questions or provide advice on the best solution for your CNC Turning Machining Parts.

Should any issue arise, we are here to help. Our team will investigate and resolve the issue quickly and efficiently. We strive to provide quality service and support to ensure complete customer satisfaction.

Packing and Shipping:

Packaging and Shipping for CNC Turning Machining Parts:
All parts will be well packed in cartons, and carefully loaded into wooden cases.
Shipment will be made by air, sea and express.
The goods will be delivered in 3-5 days by express, and 15-30 days by sea.
We will track the goods until customers receive them safely.

FAQ:

Q&A about CNC Turning Machining Parts

Q: What is the brand name of the CNC Turning Machining Parts?

A: The brand name of the CNC Turning Machining Parts is Industrial Man.

Q: What is the model number of the CNC Turning Machining Parts?

A: The model number of the CNC Turning Machining Parts is OEM.

Q: Where is the CNC Turning Machining Parts produced?

A: The CNC Turning Machining Parts is produced in Guangdong, China.

Q: What materials can be used for CNC Turning Machining Parts?

A: The CNC Turning Machining Parts can be made of various metals, such as aluminum, stainless steel, brass, etc.

Q: What is the production capacity of the CNC Turning Machining Parts?

A: The production capacity of the CNC Turning Machining Parts depends on the size and complexity of the product. Generally speaking, the production capacity can reach up to tens of thousands of pieces per month.
