

## Aerospace Brass CNC Turning Machining Parts For Precision Engineering

Our Product Introduction

For more products please visit us on [lathecnmachining.com](http://lathecnmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- Surface Treatment: Customer's Request
- Sample: Available
- Micro Machining Or Not: Micro Machining
- Drawing Format: STP . STEP . IGS . PRT . X\_T
- Product Name: CNC Turning Machining Parts
- MOQ: 1 Piece
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
- Highlight: **aerospace CNC Turning Machining Parts, Precision Engineering CNC Turning Machining Parts, Aerospace brass cnc parts**

### Product Description

**Product Description:**

Our Product Introduction

Custom CNC Machining Parts is a kind of product which is widely used in many industries, such as automotive, aerospace, medical, and many other fields. CNC Turning Machining Parts is a kind of custom CNC machining parts which is mainly used in the turning process. It is a high precision and complex machining process which requires high level of accuracy and consistency.

CNC Turning Machining Parts can be produced with Micro Machining or Not, and the drawing format can be STP, STEP, IGS, PRT, X\_T and other formats. It also allows custom design and OEM/ODM which can meet customers' requirements. The surface treatment can be customized, and the MOQ can be as low as 1 Piece.

Custom CNC Machining Parts from CNC Turning Machining Parts is an ideal choice for automotive, aerospace, medical and many other industries due to its high accuracy, consistent quality, and good surface treatment.

## Features:

Product Name: CNC Turning Machining Parts, CNC Lathe Turning Parts, CNC Machining Auto Parts

Surface treatment: Customer's Request

Brand Name: INDUSTRIAL-MAN

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Tolerance: 0.01- +/-0.005mm

## Technical Parameters:

Technical Parameters	Values
Surface treatment	Customer's Request
CNC Machining or Not	CNC Machining
Equipment	3/4/5 Axis Center Machining
Delivery Time	3-5 Days
Certification	IATF 16949: 2016/ISO 9001:2015
Micro Machining or Not	Micro Machining
Product Name	CNC Turning Machining Parts
Sample	Avaiable
Place of Origin	Guangdong,Shenzhen
Drawing Format	STP . STEP . IGS . PRT . X_T
CNC Machining Turning Parts	Yes
CNC Machining Metal Parts	Yes
CNC Lathe Turning Parts	Yes

## Applications:

Industrial Man produces top-quality 5 Axis CNC Machining Parts and CNC Machining Turning Parts with CNC Turning Machining Parts for customers who demand precision. Our CNC Turning Machining Parts are manufactured with superior materials such as Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, and Steel Alloys, and they are certified with IATF 16949: 2016/ISO 9001:2015. This ensures that our parts are of the highest quality and are able to meet the most stringent demands. With our advanced 3/4/5 Axis Center Machining equipment, we are able to produce parts with a high degree of accuracy and precision. We also offer OEM/ODM services and accept orders with a minimum order quantity of 1 piece.

## Customization:

Custom CNC Machining Parts

**Brand Name:** Industrial Man

**Model Number:** OEM

**Place of Origin:** Guangdong,Shenzhen

**Delivery Time:** 3-5 Days

**Equipment:** 3/4/5 Axis Center Machining

**Surface treatment:** Customer's Request

**Certification:** IATF 16949: 2016/ISO 9001:2015

We provide custom CNC machining turning parts for customers with high precision and quality. We specialize in CNC machining services, from prototype to production, with the help of our advanced CNC machines.

Our CNC machining services include CNC milling, CNC turning, CNC grinding, CNC cutting, etc. We can complete various kinds of custom CNC machining parts with various materials, such as aluminum, brass, stainless steel, carbon steel and more.

## Support and Services:

CNC Turning Machining Parts Technical Support and Service

Our CNC Turning Machining Parts are backed by our professional technical support and service. Our team of experienced engineers and technicians can assist you with any technical questions or issues you might have about our parts.

We provide a wide range of support services, including:

Troubleshooting

Installation and setup

Product maintenance

Upgrades and enhancements

Parts replacement

Software and firmware updates

Testing and quality assurance

Our technical support and service team is available 24/7 and can be reached via phone, email, or through our online support portal. If you have any questions or need assistance with our CNC Turning Machining Parts, please don't hesitate to contact us.

## Packing and Shipping:

Packaging and Shipping of CNC Turning Machining Parts:

The finished CNC Turning Machining Parts will be packed in cardboard boxes, then put into a wooden case. The wooden case will be marked with product name, part numbers, and other information. The wooden case will be secured with nails to ensure the safety during shipping. The CNC Turning Machining Parts will be shipped by air or sea depending on customer's requirements.

## FAQ:

Q: What is CNC Turning Machining Parts?

A: CNC Turning Machining Parts are precision machined parts manufactured by Industrial Man with Brand Name and Model Number OEM.

Q: Where are CNC Turning Machining Parts from?

A: CNC Turning Machining Parts are from Guangdong, China.

Q: What materials are used for CNC Turning Machining Parts?

A: CNC Turning Machining Parts are generally made from metal alloys, such as aluminum, copper, and stainless steel.

Q: What is the tolerance of CNC Turning Machining Parts?

A: The tolerance of CNC Turning Machining Parts depends on the specific application, but tolerances of +/- 0.02mm are usually achievable.

Q: What is the lead time for CNC Turning Machining Parts?

A: The lead time for CNC Turning Machining Parts is usually between 3 to 10 days, depending on the complexity of the parts.
