

## 3/4/5 Axis Aluminium CNC Parts CNC Machining For Aerospace

Our Product Introduction

For more products please visit us on [lathecnrmachining.com](http://lathecnrmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- CNC Machining Or Not: Cnc Machining
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
- Drawing Format: IGS STP STL
- Micro Machining Or Not: Micro Machining
- MOQ: 1 Piece
- Product Name: CNC Milling Machining Parts
- Highlight: **Aerospace aluminium cnc parts,**  
**3Axis aluminium cnc parts,**  
**Aluminium cnc machining for aerospace**

### Product Description

**Product Description:**

Our Product Introduction

CNC Milling Machining Parts are precision computer-controlled machining components that are manufactured with a range of equipment, such as 3/4/5 Axis Center Machining. These machining parts are made of materials like aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. Our CNC machining parts have a tolerance of 0.01- +/-0.005mm, and have a minimum order quantity of 1 piece. Our CNC Milling Machining Parts are made with superior quality and craftsmanship, and are manufactured in Dongguan, Guangdong.

## Features:

Product Features of CNC Milling Machining Parts

Product Name: CNC Milling Machining Parts

CNC Machining or Not: CNC Machining

Place of Origin: Dongguan, Guangdong

Type: Broaching, Drilling, Laser Machining, Milling, Turning, Wire EDM

Brand Name: INDUSTRIAL-MAN

**Special Features: Milling Machined Parts, Computerized Machining Parts, CNC Milling Parts**

## Technical Parameters:

Parameters	Details
Surface Treatment	Customer's Request
Type	Broaching, Drilling, Laser Machining, Milling, Turning, Wire EDM
Numerical Controlled	Yes
Place of Origin	Dongguan, Guangdong
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Tolerance	0.01- +/-0.005mm
MOQ	1 Piece
Brand Name	INDUSTRIAL-MAN
Micro Machining	Yes
Certification	IATF 16949: 2016/ISO 9001:2015
Drawing Format	IGS STP STL

## Applications:

INDUSTRIAL-MAN is a renowned brand that offers premium quality CNC Milling Machining Parts with a model number OEM. All our parts are manufactured in Dongguan, Guangdong, and are capable of handling a wide range of machining operations like broaching, drilling, laser machining, milling, turning, and wire EDM. We ensure all our parts are made to the highest quality standards with a tolerance of 0.01- +/-0.005mm for superior performance. Our CNC machined parts are widely used in manufacturing industries for producing highly precise components and parts with accuracy.

Our CNC Milling Machining Parts are specifically designed to provide maximum efficiency and accuracy in a wide range of machining operations. The parts can be used to create intricate shapes with a smooth finish. The parts are ideal for producing components with complex geometries and tight tolerances. Our parts are used in the production of various items such as automotive parts, medical devices, aerospace components, and more. Our CNC machined parts provide excellent surface finish and accuracy, making them perfect for precision parts manufacturing.

Our CNC Milling Machined Parts are designed to meet the highest standards of quality. Our parts are constructed with superior materials and are rigorously tested to ensure they meet our stringent quality standards. Our parts are ideal for producing components with complex and intricate shapes and tight tolerances, making them perfect for precision parts manufacturing. We ensure our parts are manufactured to the highest quality standards and are capable of handling a wide range of machining operations.

INDUSTRIAL-MAN's CNC Milling Machining Parts are perfect for producing highly precise components and parts with accuracy. Our parts are ideal for manufacturing parts for various industries like automotive, medical, aerospace, and more. Our parts provide excellent surface finish and accuracy, making them perfect for precision parts manufacturing. Our CNC machined parts are widely used in manufacturing industries for producing highly precise components and parts with accuracy.

## Customization:

Customized CNC Milling Machining Parts from Industrial Man

Industrial Man offers customized CNC Milling Machining Parts with a MOQ of 1 piece. Our CNC Milling Machining Parts are manufactured in Dongguan, Guangdong, using advanced machining processes such as Broaching, Drilling, Laser Machining, Milling, Turning, and Wire EDM. Our CNC Machining Parts are accurate to within 0.01- +/-0.005mm tolerance.

## Support and Services:

CNC Milling Machining Parts Technical Support and Service:

Provide detailed product information and product specifications.

Provide professional technical advice on product selection.

Provide professional technical support and troubleshooting.

Provide after-sales service and maintenance.

Provide timely delivery of parts and components.

Provide long-term technical support and guidance.

## Packing and Shipping:

Packaging and Shipping for CNC Milling Machining Parts:

We carefully package each product for its safe delivery.

We use standard cardboard boxes with bubble wrap, foam, and other packing materials to protect the parts.

We ship via major carriers such as FedEx, UPS, DHL, and USPS.

We offer expedited shipping for rush orders.

## FAQ:

Q1: What is CNC Milling Machining Parts?

A1: CNC Milling Machining Parts is a machinery part used for the process of machining, which is manufactured by Industrial Man with the model number OEM and made in Guangdong, China.

Q2: What are the features of CNC Milling Machining Parts?

A2: CNC Milling Machining Parts is widely used for its accuracy and precision in machining. It is able to achieve high levels of accuracy and repeatability with a wide range of materials.

Q3: What materials can CNC Milling Machining Parts be used with?

A3: CNC Milling Machining Parts can be used with a variety of materials, including metals, plastics, and composites.

Q4: What are the advantages of CNC Milling Machining Parts?

A4: CNC Milling Machining Parts offers faster production speeds, improved accuracy, and greater flexibility compared to manual machining.

Q5: What is the lead time of CNC Milling Machining Parts?

A5: The lead time of CNC Milling Machining Parts depends on the complexity of the project and the quantity needed. Generally, it takes from 3-7 working days to complete.
