

OEM ODM CNC Milling Turning Machining Service - Milling CNC Lathe Machine Parts Ra 0.1-3.2

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM Customized Metal Parts Machining
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Equipment: 3/4/5 Axis Center Machining
- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Surface Roughness: Ra 0.1~3.2, As Requirement
- Process: Cnc Machining + Surface Treatment
- MOQ: 1 Piece
- Highlight: **ODM CNC Milling Turning Machining Service,**
OEM CNC Milling Turning Machining Service,
Ra 0.1-3.2 CNC Lathe Machine Parts

Product Description

Product Description:

Our Product Introduction

CNC Lathe Machine Parts produced by our company are precision machined parts with high quality and stability. We have a wide range of product models and a complete quality control system. All of our products are certified by IATF 16949: 2016/ISO 9001:2015. We can also provide OEM ODM CNC Milling Turning Machining Service for customers with different requirements. Our CNC Lathe Machine Parts have precise tolerance control within $\pm 0.005\text{mm}$. We are a professional Computerized Lathe Parts Supplier and we offer custom-made CNC Machining Components for different applications.

As one of the leading CNC Lathe Machine Parts manufacturers in the market, we have all the necessary experience and knowledge to manufacture high-quality parts for different industries. With our high-precision CNC machines, we can provide accurate and cost-effective solutions for customers. Our Computerized Lathe Parts are used in many different fields such as automotive, aerospace, medical and many other industries. We are committed to providing our customers with the best quality products and services.

Features:

Product Name: CNC Lathe Machine Parts

Tolerance: $\pm 0.005\text{mm}$

MOQ: 1 Piece

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

CNC Machining or Not: Cnc Machining

Computerized Lathe Parts

Computerized Machining Parts

$\pm 0.005\text{mm}$ Tolerance

1 Piece MOQ

Technical Parameters:

Parameter	Value
Surface Roughness	Ra 0.1~3.2, As Requirement
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Micro Machining or Not	Micro Machining
Equipment	3/4/5 Axis Center Machining
Place of Origin	Guangdong, China
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
CNC Machining or Not	Cnc Machining
Process	Cnc Machining + Surface Treatment
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
MOQ	1 Piece
Main Products	CNC Machining Components, CNC Lathe Parts, Computerized Machining Parts

Applications:

Industrial Man's CNC Lathe Machine Parts are designed to meet the highest standards of precision and accuracy. These parts are made from a variety of materials, including aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. All parts are made in accordance with IATF 16949:2016/ISO 9001:2015 standards and can be customized to meet specific requirements. The parts can be treated with anodizing, polishing, plating, and painting for maximum durability and performance.

Computer Numerical Control (CNC) parts are manufactured using a computerized lathe, which is capable of producing extremely precise parts with high accuracy. CNC machining is often used in the production of items such as aircraft components, medical implants, and automotive components. Industrial Man's CNC Lathe Machine Parts have been specifically designed to provide superior performance and reliability for a variety of applications. From custom designed parts for medical equipment to precision aircraft components, our parts are designed to meet the highest standards of quality and performance.

For those requiring the utmost in precision and accuracy, Industrial Man's CNC Lathe Machine Parts offer the perfect solution. With superior performance and reliability, our parts are ideal for a variety of applications. Whether it's custom designed parts for medical equipment, precision aircraft components, or components for the automotive industry, Industrial Man's CNC Lathe Machine Parts are the perfect choice.

Customization:

Industrial Man offers custom **CNC Lathe Machine Parts** with a variety of materials and finishes to meet your specific requirements. Our experienced team delivers quality parts with tight tolerances. Our **CNC Machining Components**, **Computer Numerical Control Parts** and **Computerized Lathe Parts** can be produced from a variety of materials with tight tolerances. Our **OEM Customized Metal Parts Machining** services are certified to **IATF 16949: 2016/ISO 9001:2015** standards.

Our services include:

Brand Name: Industrial Man

Model Number: OEM Customized Metal Parts Machining

Place of Origin: Guangdong, China

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Micro Machining or Not: Micro Machining

Certification: IATF 16949: 2016/ISO 9001:2015

CNC Machining or Not: CNC Machining

Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

We offer technical support and service for CNC Lathe Machine Parts. Our experienced team of engineers and technicians are available to provide expert advice and support on a range of topics, including:

Troubleshooting and repair

Installation and setup

Product customization

Upgrades and updates

Maintenance and preventive care

Training and support

We strive to provide the best customer service and technical support for our CNC Lathe Machine Parts. If you have any questions or concerns about our products, please do not hesitate to contact us.

Packing and Shipping:

Packaging and Shipping for CNC Lathe Machine Parts

All CNC lathe machine parts are packed in cardboard boxes and sealed with insulation tape to ensure all parts are safe from damage during transit. The box size will depend on the size of the parts ordered. Each box will be clearly marked with product information and a tracking number. All orders are shipped by air freight and will be delivered within 3-5 business days.

FAQ:

Q1: What is the brand name of CNC Lathe Machine Parts?

A1: The brand name of CNC Lathe Machine Parts is Industrial Man.

Q2: What is the model number of CNC Lathe Machine Parts?

A2: The model number of CNC Lathe Machine Parts is OEM.

Q3: Where is CNC Lathe Machine Parts made?

A3: CNC Lathe Machine Parts is made in Guangdong, China.

Q4: What raw material is used to make CNC Lathe Machine Parts?

A4: CNC Lathe Machine Parts is made of high-quality raw materials, such as steel, aluminum, and plastic.

Q5: What are the advantages of CNC Lathe Machine Parts?

A5: CNC Lathe Machine Parts has a high precision, low noise, and easy maintenance features. It is highly durable and can be customized according to your requirements.
