

5 Axis CNC Turning Machining Parts Components High Precision

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, Shenzhen
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Sample: Available
- MOQ: 1 Piece
- CNC Machining Or Not: CNC Machining
- Surface Treatment: Customer's Request
- Equipment: 3/4/5 Axis Center Machining
- Product Name: CNC Turning Machining Parts
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Highlight: **High Precision CNC Turning Machining Parts, 5 Axis CNC Turning Machining Parts, CNC turning components**

Product Description

Product Description:

Our Product Introduction

CNC Turning Machining Parts is a kind of auto parts produced by CNC machining technology. This product is processed by 3/4/5 Axis Center machining equipment, and the Place of Origin is Guangdong, Shenzhen. We provide customized service for customers, including OEM/ODM. Samples are available and the drawing format is STP . STEP . IGS . PRT . X_T. As the advanced CNC machining technology, this CNC Machining Turning Parts is high precision, high efficiency and low cost. It is widely used in various industries such as automotive, aerospace, medical, etc.

Our CNC Machining Turning Parts are of high quality and performance, and they have the advantages of low noise, long service life, strong wear resistance and corrosion resistance. The product also has good thermal conductivity and excellent electrical conductivity. With the high-end CNC machining technology, the CNC Machining Auto Parts can be processed into various shapes, sizes and materials. We are a professional CNC machining manufacturer in Guangdong, Shenzhen, and we are committed to providing customers with high-quality CNC Machining Turning Parts and CNC Machining Auto Parts. We are confident that our products will meet your needs and expectations.

Features:

Product Name: CNC Turning Machining Parts

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

OEM/ODM: Accepted

Surface treatment: Customer's Request

Place of Origin: Guangdong, Shenzhen

CNC Lathe Turning Parts: CNC Lathe Turning Parts

CNC Machining Turning Parts: CNC Machining Turning Parts

Technical Parameters:

Parameters	Details
Surface treatment	Customer's Request
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Place of Origin	Guangdong,Shenzhen
Tolerance	0.01- +/-0.005mm
Micro Machining or Not	Micro Machining
Product Name	CNC Lathe Turning Parts
CNC Machining or Not	CNC Machining
MOQ	1 Piece
Delivery Time	3-5 Days
Sample	Avaiable

Applications:

Industrial Man's CNC Turning Machining Parts are widely used in various industries, such as aerospace, medical, automotive, and electronics. With a brand name of Industrial Man, the model number is OEM, and it is made in Guangdong, China. The product name is CNC Turning Machining Parts, and samples are available. It is capable of machining aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. The tolerance is ± 0.01 - ± 0.005 mm, and certification of IATF 16949: 2016/ISO 9001:2015 is guaranteed. It is also suitable for 5 Axis CNC Machining Parts, Custom CNC Machining Parts, and CNC Lathe Turning Parts.

Customization:

INDUSTRIAL-MAN provides custom CNC Turning Machining Parts with **OEM** services. The CNC Turning Machining Parts are manufactured in **Guangdong, Shenzhen**. We can meet your tight tolerance requirements, with **tolerance range of 0.01- +/-0.005mm**. Sample is **available** for your testing.

We specialize in CNC Machining Auto Parts and CNC Turning Machining Parts. Our dedicated team of engineers and machinists can provide you with the best quality CNC Turning Machining Parts that you require.

Support and Services:

Technical Support and Service for CNC Turning Machining Parts

We offer comprehensive technical support and service for CNC turning machining parts. Our team of experienced professionals can help you with all your CNC machining needs. We can provide assistance with design, programming, setup, and troubleshooting. We can also provide advice on best practices for using the machine and on optimizing the machining process. We can even help with maintenance, repairs, and upgrades.

We strive to provide the highest quality technical support and service possible. We are committed to providing you with quick, efficient, and reliable assistance. Our goal is to help you get the best results from your CNC machining parts.

If you have any questions or concerns about CNC turning machining parts, please don't hesitate to reach out to us. We look forward to helping you with all your CNC machining needs.

Packing and Shipping:

For **CNC Turning Machining Parts** packaging and shipping, we use quality materials to ensure that the components are well preserved and safe during transportation.

To protect the parts from external damage, we use corrugated cardboard boxes or wooden boxes with foam padding inside. For the transportation of the parts, we use air and sea freight depending on customer needs.

FAQ:

Q:What is the brand name of your CNC Turning Machining Parts?

A:The brand name of our CNC Turning Machining Parts is Industrial Man.

Q:What model of CNC Turning Machining Parts do you provide?

A:We provide OEM model of CNC Turning Machining Parts.

Q:Where is your CNC Turning Machining Parts made?

A:Our CNC Turning Machining Parts are made in Guangdong, China.

Q:What is the processing time for CNC Turning Machining Parts?

A:The processing time for CNC Turning Machining Parts varies, depending on the size and complexity of the parts.

Q:What is the minimum order quantity for CNC Turning Machining Parts?

A:The minimum order quantity for CNC Turning Machining Parts depends on the design and size of the parts.
