

Plastic Aircraft CNC Milling Machining Parts Low Volume Companies

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
- CNC Machining Or Not: Cnc Machining
- Product Name: CNC Milling Machining Parts
- Tolerance: 0.01- +/-0.005mm
- MOQ: 1 Piece
- Drawing Format: IGS STP STL
- Surface Treatment: Customer's Request
- Highlight: **Aircraft CNC Milling Machining Parts, Plastic CNC Milling Machining Parts, CNC plastic machining companies**

Our Product

Product Description

Product Description:

CNC Machining Parts are precision numerical control parts that are produced through micro machining and a variety of machining processes such as broaching, drilling, laser machining, milling, turning and wire EDM. With customers' requests, the surface of CNC machining parts can also be treated with the corresponding surface treatment. The precision tolerance of CNC Machining Parts can be as small as 0.01- +/-0.005mm.

Features:

Product Name: CNC Milling Machining Parts

Tolerance: 0.01- +/-0.005mm

Brand Name: INDUSTRIAL-MAN

Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM

Micro Machining or Not: Micro Machining

Certification: IATF 16949: 2016/ISO 9001:2015

Keywords: Numerical Control Parts, Numerical Controlled Parts, Milling Machining Components

Technical Parameters:

Attribute	Specification
Certification	IATF 16949: 2016/ISO 9001:2015
CNC Machining or Not	Cnc Machining
Tolerance	0.01- +/-0.005mm
MOQ	1 Piece
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Micro Machining or Not	Micro Machining
Product name	CNC Milling Machining Parts
Drawing Format	IGS STP STL
Place of Origin	Dongguan, Guangdong
Type	Broaching, Drilling, Laser Machining, Milling, Turning, Wire EDM

Applications:

Industrial Man's CNC Milling Machining Parts provide a wide range of precision machining services that can be used in a variety of industries and applications. Our CNC milling machining parts are made with high-quality materials and excellent craftsmanship, and we use the latest 3/4/5 Axis Center Machining equipment to ensure precise production and perfect results every time. The drawing format for our CNC milling machined parts includes IGS STP STL, and the surface treatment can be customized according to the customer's request.

Our CNC milling machining parts are widely used for milling, drilling, threading and other machining processes. Whether you need CNC milling machining parts for industrial automation, automotive, aerospace, medical or other applications, Industrial Man's CNC milling machined parts are the perfect solution. We have the experience and expertise to provide you with the highest quality milling machining components and the best customer service in the industry.

At Industrial Man, our goal is to provide our customers with the highest quality CNC milling machining parts at the most competitive prices. Our team of experienced engineers and technicians are committed to meeting the highest standards of quality and precision, and we use the latest technology to ensure that our CNC machining parts are of the highest quality. With our advanced technology and innovative solutions, Industrial Man is your one-stop shop for all your CNC machining needs.

Customization:

Industrial Man Customized CNC Milling Machining Parts

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Dongguan,Guangdong

Certification: IATF 16949: 2016/ISO 9001:2015

Micro Machining or Not: Micro Machining

Product name: CNC Milling Machining Parts

Tolerance: 0.01- +/-0.005mm

Manufacturing Parts Milling, Computerized Machining Parts, Manufacturing Parts Milling CNC

Support and Services:

CNC Milling Machining Parts Technical Support and Services include:

Provide technical guidance and training to customers

Provide professional maintenance and repair services

Provide spare parts and accessories

Provide software upgrade and update services

Provide consultation and technical support

Packing and Shipping:

Packaging and Shipping for CNC Milling Machining Parts

CNC Milling Machining Parts are typically packaged and shipped in wooden boxes, bubble wrap, or protective foam to ensure they are adequately protected during shipping.

The boxes are designed to protect the parts from any kind of shock, vibration, or environmental conditions which might damage them.

If the parts require additional protection, they can be secured in shrink wrap or vacuum sealed for extra protection.

The parts are typically shipped via a freight carrier, which ensures the parts arrive safe and sound.

The freight carrier will also provide tracking information so that the customer can check the status of their shipment.

FAQ:

Q1: What is CNC Milling Machining Parts?

A1: CNC Milling Machining Parts is a type of machined parts produced by Industrial Man with the brand name and model number of OEM. It is produced in Guangdong, China.

Q2: How precise are CNC Milling Machining Parts?

A2: Industrial Man's CNC Milling Machining Parts are highly precise, manufactured with strict quality control and advanced machining equipments.

Q3: What materials can be used for CNC Milling Machining Parts?

A3: Industrial Man's CNC Milling Machining Parts can be made from a wide range of materials, including aluminum, brass, steel, plastics and even titanium.

Q4: What kind of services can Industrial Man provide for CNC Milling Machining Parts?

A4: Industrial Man can provide a wide range of services for CNC Milling Machining Parts, including design, machining, surface treatment, assembly and testing.

Q5: What is the lead time for CNC Milling Machining Parts?

A5: The lead time of CNC Milling Machining Parts depends on the size and complexity of the project. Generally, Industrial Man can finish the project in a shorter time than other suppliers.
