

Aluminum Brass Bronze CNC Lathe Machine Parts With Reliable CNC Machining Components

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM Customized Metal Parts Machining
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Surface Treatment: Anodizing, Polishing, Plating, Painting
- Equipment: 3/4/5 Axis Center Machining
- Product Name: CNC Lathe Machine Parts
- OEM/ODM: OEM ODM CNC Milling Turning Machining Service
- Highlight: **Bronze CNC Lathe Machine Parts,**
Brass CNC Lathe Machine Parts,
Aluminum CNC Machining Components

Product Description

Product Description:

Our Product Introduction

Our **CNC Lathe Machine Parts** are custom-made using the latest **computerized lathe parts** and **computer numerical control parts** technology to meet your exact requirements. We specialize in **metal parts machining**, and our CNC lathe parts are crafted from aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel and steel alloys. Our CNC lathe parts are of superior quality and have a surface roughness of Ra 0.1~3.2, as required. We are capable of providing customized CNC lathe parts for our clients in accordance with their specifications and requirements.

Features:

Product Name: CNC Lathe Machine Parts

Process: Cnc Machining + Surface Treatment

Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)

Equipment: 3/4/5 Axis Center Machining

Tolerance: +/-0.005mm

Brand Name: OEM/ODM Aluminum Anodizing Part

Focus Keywords: Computer Numerical Control Parts, CNC Machining Components, Computerized Machining Parts

Technical Parameters:

Attribute	Description
OEM/ODM	OEM ODM CNC Milling Turning Machining Service
Surface treatment	Anodizing, Polishing, Plating, Painting
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Place of Origin	Guangdong, China
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
Surface Roughness	Ra 0.1~3.2, As Requirement
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Brand Name	OEM/ODM Aluminum Anodizing Part
Tolerance	+/-0.005mm
Equipment	3/4/5 Axis Center Machining

Applications:

Industrial Man's CNC Lathe Machine Parts are precision-engineered to provide superior performance and quality. With high-grade industrial materials, these parts offer superior strength and durability, making them the perfect choice for a wide range of CNC machining applications. The parts are designed to meet the highest standards and come with a variety of surface finishes, including Ra 0.1~3.2, to meet the demands of various industries. The parts are made to exacting specifications and are available in a variety of sizes and shapes. Additionally, Industrial Man offers custom CNC machining services to meet specific customer requirements. With our custom CNC machining, you can get the exact parts you need to complete your project. The parts are also available in a variety of materials, including aluminum, stainless steel, brass, and more. Industrial Man's CNC Lathe Machine Parts are perfect for various industrial applications, including automotive, aerospace, medical, and more. Our CNC machining capabilities include 2D and 3D Computerized Numerical Control (CNC) machining, as well as micro machining, to provide superior accuracy and quality. With OEM ODM CNC Milling Turning Machining Service, we can provide you with the exact parts you need. Get the perfect fit, finish, and performance with Industrial Man's CNC Lathe Machine Parts.

Customization:

Customized CNC Lathe Machine Parts Manufacturing

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

MOQ: 1 Piece

Micro Machining or Not: Micro Machining

Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)

Tolerance: +/-0.005mm

CNC Machining or Not: Cnc Machining

Special Features: Computerized Lathe Parts, Computerized Lathe Parts, Computer Numerical Control Parts

Support and Services:

CNC Lathe Machine Parts technical support and service includes:

Assistance with installation, setup, and operation of CNC Lathe Machine Parts

Troubleshooting and repair of CNC Lathe Machine Parts

Replacement parts for CNC Lathe Machine Parts

Software updates for CNC Lathe Machine Parts

Training and educational materials for CNC Lathe Machine Parts

Packing and Shipping:

CNC Lathe Machine Parts Packaging and Shipping:

The CNC Lathe Machine Parts must be packaged securely and shipped with a reliable carrier. We use sturdy cardboard boxes with styrofoam inserts to protect the parts during transport. All parts are clearly labeled with the customer's name, address, and order number, as well as our return address. We use high-quality packing tape to ensure that the box stays closed during transport.

We use reputable shipping carriers such as UPS, FedEx, and DHL to deliver our products. We provide tracking information for all shipments so that customers can monitor the progress of their order. We also offer expedited shipping for customers who need their parts delivered quickly.

FAQ:

Q: What are CNC Lathe Machine Parts?

A: CNC Lathe Machine Parts are precision machined components created by Industrial Man with the model number OEM. They are manufactured in Guangdong, China.

Q: What products are included in CNC Lathe Machine Parts?

A: CNC Lathe Machine Parts include a variety of components, such as lathe bed parts, spindles, gears, motors, and other components.

Q: What are the benefits of using CNC Lathe Machine Parts?

A: CNC Lathe Machine Parts are designed to provide high precision machining and accurate cuts. This results in lower production costs and improved product quality.

Q: How long does it take to produce CNC Lathe Machine Parts?

A: Production time can vary depending on the complexity of the components and the quantity of parts being produced. Generally, production time can range from several days to several weeks.

Q: What materials are used in the production of CNC Lathe Machine Parts?

A: CNC Lathe Machine Parts can be made from a wide range of materials, including aluminum, steel, stainless steel, brass, and plastic.
