

OEM Brass CNC Turned Components Machining Parts Services

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, Shenzhen
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 3-5 Days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Equipment: 3/4/5 Axis Center Machining
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Drawing Format: STP . STEP . IGS . PRT . X_T
- Tolerance: 0.01- +/-0.005mm
- MOQ: 1 Piece
- Highlight: **Brass cnc turned components,**
OEM cnc turned components,
OEM brass cnc turned parts

Product Description

Product Description:

Our Product

INDUSTRIAL-MAN provides custom CNC machining parts, CNC machining turning parts and custom CNC machining parts services, which can be made from materials such as aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel and steel alloys. The CNC Turning Machining Parts are made to your exact specifications with the drawing format of STP, STEP, IGS, PRT and X_T. These CNC Turning Machining Parts are manufactured in Guangdong, Shenzhen with high precision and quality. Our CNC machining services are not limited to these CNC turning machining parts, but our custom CNC machining services can also provide a wide range of other machined components.

Features:

Product Name: CNC Turning Machining Parts

Sample: Available

Surface treatment: Customer's Request

OEM/ODM: Accepted

Tolerance: 0.01- +/-0.005mm

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

5 Axis CNC Machining Parts

CNC Machining Auto Parts

Technical Parameters:

Parameter	Value
Micro Machining or Not	Micro Machining
Delivery Time	3-5 Days
Brand Name	INDUSTRIAL-MAN
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Certification	IATF 16949: 2016/ISO 9001:2015
Surface treatment	Customer's Request
Place of Origin	Guangdong, Shenzhen
MOQ	1 Piece
Equipment	3/4/5 Axis Center Machining
Tolerance	0.01- +/-0.005mm
Product	Custom CNC Machining Parts, CNC Turning Machining Parts, CNC Machining Auto Parts

Applications:

INDUSTRIAL-MAN provides custom CNC machining parts and CNC lathe turning parts for a variety of applications and industries. With our OEM model number, we are able to provide customers with a wide range of products, from aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, steel alloys to customer's request surface treatment. We are able to provide intricate machining services such as broaching, drilling, etching/chemical machining, laser machining, milling, other machining services, turning, wire EDM, rapid prototyping and micro machining.

Our custom CNC machining parts and CNC lathe turning parts are suitable for various industries such as automotive, aerospace, medical, industrial, and commercial uses. We are able to provide customers with precise and accurate parts to meet their various application needs. With our advanced CNC technology, we are able to provide quality products that meet customer's specific requirements. Our CNC machining and turning parts are of high precision, reliable performance and longer service life, which makes them more cost-effective and efficient.

INDUSTRIAL-MAN CNC machining parts and CNC lathe turning parts are widely used in automotive, aerospace, medical, industrial, and commercial industries. We are committed to providing customers with the highest quality products and services. Our team of engineers and technicians are dedicated to ensuring the highest level of quality and accuracy for our customers. With our advanced CNC technology, we are able to provide our customers with the most accurate and reliable parts. Our custom CNC machining parts and CNC lathe turning parts are highly reliable and cost-effective.

Customization:

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, Shenzhen

Certification: IATF 16949: 2016/ISO 9001:2015

CNC Machining or Not: CNC Machining

Product Name: CNC Turning Machining Parts

MOQ: 1 Piece

Keywords: CNC Turning Machining Parts, CNC Machining Metal Parts, CNC Turning Machining Parts with IATF 16949:2016/ISO 9001:2015

Support and Services:

CNC Turning Machining Parts provide technical support and services, including:

Assistance in selecting the appropriate materials and parts for your application.

Consultation on the best machining practices for your product.

Help in choosing the right cutting tool and tooling system.

Advice on the most efficient CNC programming.

Troubleshooting and resolution of any machining issues.

Recommendations on the most cost-effective manufacturing processes.

Support and guidance during the installation and commissioning of the machine.

Packing and Shipping:

Packaging and Shipping of CNC Turning Machining Parts

We package each CNC Turning Machining Part carefully with protective material and ship it through reliable shipping carriers. The packaging helps to protect the parts from damage and other environmental elements. All parts are shipped with the appropriate documentation, including a bill of lading, commercial invoice, and other relevant paperwork.

We offer a variety of shipping options to accommodate different needs. We can ship through air, land, or sea, and with standard, express, or overnight delivery. We also offer expedited shipping for urgent requests.

Our experienced shipping team will work with you to select the best shipping option that meets your needs. We will make sure the CNC Turning Machining Parts are delivered in the most efficient and cost-effective manner.

FAQ:

Q1: What is CNC Turning Machining Parts?

A1: CNC Turning Machining Parts is a kind of precision machining part produced by CNC lathe for Industrial Man with model number OEM, and it is made in Guangdong, China.

Q2: What is the material of CNC Turning Machining Parts?

A2: The material of CNC Turning Machining Parts is usually aluminum, stainless steel, titanium, brass and plastic.

Q3: What is the tolerance of CNC Turning Machining Parts?

A3: The tolerance of CNC Turning Machining Parts is usually $\pm 0.005\text{mm}$ to $\pm 0.02\text{mm}$.

Q4: What is the surface finish of CNC Turning Machining Parts?

A4: The surface finish of CNC Turning Machining Parts is usually anodized, sandblasting, painting and polishing.

Q5: What is the lead time of CNC Turning Machining Parts?

A5: The lead time of CNC Turning Machining Parts depends on the quantity and complexity of the parts. It usually ranges from 5 days to 15 days.
