

## OEM CNC Turning, Milling Automotive Parts Customized 5-Axis Machining Service

Our Product Introduction

For more products please visit us on [lathecnrmachining.com](http://lathecnrmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: OEM/ODM Aluminum Anodizing Part
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- Product Name: CNC Lathe Machine Parts
- Surface Treatment: Anodizing, Polishing, Plating, Painting
- OEM/ODM: OEM ODM CNC Milling Turning Machining Service
- Tolerance:  $\pm 0.005\text{mm}$
- CNC Machining Or Not: Cnc Machining
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
- Highlight: **High Precision CNC Lathe Machine Parts, Anodizing CNC Lathe Machine Parts, Plating CNC Lathe Machine Parts**

### Product Description

**Product Description:**

Our Product Introduction

CNC Lathe Machine Parts are manufactured with the highest precision and accuracy. With a minimum order quantity of one piece and a tolerance of  $\pm 0.005\text{mm}$ , they are perfect for the most demanding of applications. They are suitable for a wide range of processes such as broaching, drilling, etching/chemical machining, laser machining, milling, other machining services, rapid prototyping, turning, and wire EDM. The surface roughness can be customized from Ra 0.1 to 3.2, as required. Computerized lathe parts, computerized machining parts, and computer numerical control parts are all made using the most advanced CNC machining technology, followed by appropriate surface treatment.

## Features:

Product Name: CNC Lathe Machine Parts

Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)

Equipment: 3/4/5 Axis Center Machining

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

MOQ: 1 Piece

Brand Name: OEM/ODM Aluminum Anodizing Part

CNC Machining Components

CNC Lathe Parts

Computerized Lathe Parts

## Technical Parameters:

Technical Parameter	Details
MOQ	1 Piece
Surface Treatment	Anodizing, Polishing, Plating, Painting
Process	CNC Machining + Surface Treatment
Equipment	3/4/5 Axis Center Machining
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Product Name	CNC Lathe Machine Parts, CNC Machining Components, Computerized Lathe Parts
Certification	IATF 16949: 2016/ISO 9001:2015
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Model Number	OEM Customized Metal Parts Machining
Brand Name	OEM/ODM Aluminum Anodizing Part

## Applications:

Industrial Man is a professional company that provides OEM customized metal parts machining services for customers all over the world. Our CNC Lathe Machine Parts are designed to meet the needs of all types of industrial applications, from the small parts of daily life to large and complex components. We offer a wide range of machining capabilities, including broaching, drilling, etching/chemical machining, laser machining, milling, other machining services, rapid prototyping, turning, and wire EDM. Our CNC lathe parts and CNC machining parts are made using aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. Our MOQ is 1 piece, and our computerized lathe parts and computerized machining parts are made with high precision and accuracy. We are committed to providing superior quality CNC lathe parts and CNC machining parts for our customers.

## Customization:

CNC Lathe Machine Parts

We provide custom-made **CNC Lathe Machine Parts** with a wide range of surface treatment options, such as anodizing, polishing, plating and painting. Our advanced **computerized machining parts** are precisely machined to achieve the desired result by using **computer numerical control (CNC) parts machining**. All of our custom-made parts are of high quality and strict QC during the production process.

Brand Name: OEM/ODM Aluminum Anodizing Part

Model Number: OEM Customized Metal Parts Machining

Place of Origin: Guangdong, China

Surface treatment: Anodizing, Polishing, Plating, Painting

Equipment: 3/4/5 Axis Center Machining

## Support and Services:

Technical Support and Service for CNC Lathe Machine Parts

We offer technical support and service for all CNC Lathe Machine Parts. Our professional and experienced technicians can provide an in-depth analysis of any issue you may have and suggest the most effective solutions. We can provide technical advice on installation, repairs, maintenance, and more.

We also offer troubleshooting services for CNC Lathe Machine Parts. Our technicians can diagnose any problems and help you identify the root cause of the issue. We can provide helpful tips on how to prevent further damage or prevent future problems. We also provide repair services if needed.

Our support team is available 24 hours a day, 7 days a week, so you can always get the help you need when you need it. We strive to provide the best customer service and support for all your CNC Lathe Machine Parts needs.

## Packing and Shipping:

CNC Lathe Machine Parts must be packed securely to ensure they reach their destination safely and undamaged. The following steps should be taken when packing and shipping CNC Lathe Machine Parts:

All parts should be inspected for damage before packing.  
Parts should be placed in a box or container that is large enough to accommodate them.  
Fragile parts should be individually wrapped in bubble wrap or other protective material.  
The box or container should be securely sealed with tape.  
The package should be labeled with the recipient's address and the contents of the package.  
The package should be shipped using a reliable shipping service.

#### **FAQ:**

Q: What is CNC Lathe Machine Parts?

A: CNC Lathe Machine Parts is a high quality part made by Industrial Man with OEM model number for use in CNC lathes.

Q: Where is CNC Lathe Machine Parts produced?

A: CNC Lathe Machine Parts is produced in Guangdong, China.

Q: What materials are used in CNC Lathe Machine Parts?

A: CNC Lathe Machine Parts is made of high quality materials such as aluminum, steel, and brass.

Q: What is the size of the CNC Lathe Machine Parts?

A: The size of the CNC Lathe Machine Parts varies depending on the specific model and application.

Q: What is the warranty period of CNC Lathe Machine Parts?

A: The warranty period for CNC Lathe Machine Parts varies depending on the specific model purchased.
