

Large CNC Machining Acrylic Milling Parts With 4 Axis Center Equipment

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Dongguan,Guangdong
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Tolerance: 0.01- +/-0.005mm
- Drawing Format: IGS STP STL
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Surface Treatment: Customer's Request
- CNC Machining Or Not: Cnc Machining
- Product Name: CNC Milling Machining Parts
- Highlight: **cnc machining acrylic Milling, 4 Axis cnc machining acrylic, Acrylic machining large parts**

Product Description

Product Description:

Our Product Introduction

CNC Milling Machining Parts are precision manufacturing parts with numerical control processing, which are made by CNC milling technique. These parts are made with tight tolerance of 0.01- +/-0.005mm, and are certified by IATF 16949: 2016/ISO 9001:2015. The types of machining techniques available for these parts include broaching, drilling, laser machining, milling, turning, and wire EDM. Drawing formats for CNC Milling Machining Parts include IGS STP and STL. These parts are ideal for high precision CNC numerical control parts manufacturing and processing.

Features:

Product Name: CNC Milling Machining Parts

Micro Machining or Not: Micro Machining

Surface treatment: Customer's Request

MOQ: 1 Piece

Equipment: 3/4/5 Axis Center Computerized Machining and Numerical Controlled Parts

Certification: IATF 16949: 2016/ISO 9001:2015

Technical Parameters:

Item	Parameter
Micro Machining or Not	Micro Machining
Certification	IATF 16949: 2016/ISO 9001:2015
Drawing Format	IGS STP STL
CNC Machining or Not	Cnc Machining
Surface treatment	Customer's Request
Type	Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
Product name	CNC Milling Machining Parts
Place of Origin	Dongguan,Guangdong
MOQ	1 Piece
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Applications:

INDUSTRIAL-MAN's CNC Milling Machining Parts feature a precision machined design that is suited for a variety of applications. With a model number of OEM, these machined parts are made with a 3/4/5 Axis Center Machining process that provides an accurate and reliable product. The parts are manufactured in Dongguan, Guangdong, and are capable of micro machining for even more intricate designs. These CNC Milling Machined Parts are used for a variety of purposes such as manufacturing parts milling, precision machined parts, and other specialized tasks. INDUSTRIAL-MAN's CNC Milling Parts are designed to provide a reliable and accurate machined product that can be used in a variety of applications.

Customization:

Customized CNC Milling Machining Parts from INDUSTRIAL-MAN

INDUSTRIAL-MAN provides customized service for CNC Milling Machining Parts with model number OEM. Our CNC Milling Machining Parts are made in Dongguan, Guangdong, China. The machining types we offer include Broaching, Drilling, Laser Machining, Milling, Turning and Wire EDM. We also provide 3/4/5 Axis Center Machining. The minimum order quantity for this product is 1 piece. Our CNC Milling Machining Parts are perfect for Numerical Controlled Parts Manufacturing, offering precision and accuracy. We have the necessary experience and expertise to provide high quality Numerical Controlled Parts and Milling Parts.

Support and Services:

CNC Milling Machining Parts Technical Support and Service

We provide technical support for CNC Milling Machining Parts. Our technical support team is available to answer any questions you may have about the product or installation. Our knowledgeable staff can provide you with assistance in troubleshooting, technical support, and product installation. We are dedicated to providing you with the best possible customer service and technical support.

Our services include:

Troubleshooting assistance

Product installation

Product maintenance

Technical support

Product training

We have a team of experienced technicians who can provide you with the best technical support and service. Our technicians have extensive experience in CNC Milling Machining Parts and can provide you with the help and guidance you need to get the most out of your product. Our technical support team is available 24 hours a day, 7 days a week to answer any questions you may have.

Packing and Shipping:

Packaging and Shipping for CNC Milling Machining Parts:

Parts are packaged in sealed plastic bags or bubble wrap.

Parts are carefully packed in strong, cardboard boxes.

Shipment is done through a reliable transportation provider.

Tracking numbers are provided for each shipment.

FAQ:

Q1: What is CNC Milling Machining Parts?

A1: CNC Milling Machining Parts is a type of precision machining parts made by CNC (Computer Numerical Control) milling machine, which is produced by Industrial Man with the model number OEM, and the place of origin is Guangdong, China.

Q2: What materials can be used for CNC Milling Machining Parts?

A2: CNC Milling Machining Parts can be made with a wide range of materials, such as aluminum, brass, stainless steel, copper, etc.

Q3: What is the accuracy for CNC Milling Machining Parts?

A3: The accuracy of CNC Milling Machining Parts depends on the complexity of its shape, but it can be generally up to 0.01mm.

Q4: What is the delivery time for CNC Milling Machining Parts?

A4: The delivery time for CNC Milling Machining Parts is usually about 10-15 days, and it may vary depending on the quantity and complexity of the parts.

Q5: What is the payment term for CNC Milling Machining Parts?

A5: The payment term for CNC Milling Machining Parts is usually T/T or LC, and other payment terms can also be negotiated.
