

## Steel Alloy Micro CNC Turning Machining Parts Turned And Milled Parts STEP Format

Our Product Introduction

For more products please visit us on [lathecnrmachining.com](http://lathecnrmachining.com)

### Basic Information

- Place of Origin: Guangdong, Shenzhen
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 3-5 Days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- OEM/ODM: Accepted
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- CNC Machining Or Not: CNC Machining
- Tolerance: 0.01- +/-0.005mm
- Sample: Available
- Highlight: **steel alloy CNC Turning Machining Parts, STEP CNC Turning Machining Parts, CNC turned and milled parts**

### Product Description

**Product Description:**

Our Product

CNC Turning Machining Parts are custom CNC machined metal parts manufactured in Guangdong, Shenzhen. We use 3/4/5 axis center machining equipment to process aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel and steel alloys. We accept OEM/ODM orders with a minimum order quantity of 1 Piece. All CNC machining metal parts are produced with high precision and accuracy to meet the highest standards.

We have extensive experience in manufacturing custom CNC machining parts, CNC turning machining parts and steel parts. Our team of skilled engineers and technicians are able to provide you with a complete range of CNC machining services, from simple one-off parts to complex multiple parts assemblies. We use the latest technology to ensure accuracy and consistency in the machining process. We offer superior quality parts with competitive prices and timely delivery.

Whether you need a single part or a large batch of custom CNC machining parts, we can meet all your requirements. We stand behind our products and are committed to providing excellent customer service. We look forward to working with you to produce the highest quality CNC machining metal parts.

## Features:

Product Name: CNC Turning Machining Parts

Micro Machining or Not: Micro Machining

Place of Origin: Guangdong, Shenzhen

OEM/ODM: Accepted

Drawing Format: STP . STEP . IGS . PRT . X\_T

Equipment: 3/4/5 Axis Center Machining

Keywords: CNC Turning Machining Parts, CNC Machining Turning Parts, CNC Lathe Turning Parts, CNC Turning Parts Machining, CNC Turning Parts

## Technical Parameters:

Parameter	Value
Drawing Format	STP . STEP . IGS . PRT . X_T
Place of Origin	Guangdong, Shenzhen
OEM/ODM	Accepted
Surface treatment	Customer's Request
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Delivery Time	3-5 Days
CNC Machining or Not	CNC Machining
MOQ	1 Piece
Equipment	3/4/5 Axis Center Machining
Certification	IATF 16949: 2016/ISO 9001:2015
Product Name	Custom CNC Machining Parts, Custom CNC Machining Parts, 5 Axis CNC Machining Parts

## Applications:

Industrial Man's CNC Machining Turning Parts are designed for precise and high-quality metal parts machining. These CNC Machining Turning Parts are made of Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys and other materials. Our CNC Machining Turning Parts have reliable performance and high precision, and are widely used in automotive, medical, electronic, hydraulic, military, and other industries. Industrial Man's CNC Machining Turning Parts come with OEM / ODM services and can be designed according to customer drawings in STP . STEP . IGS . PRT . X\_T format. The minimum order quantity of CNC Machining Turning Parts is 1 piece.

Industrial Man's CNC Machining Turning Parts have several advantages such as high precision, high efficiency, low noise, excellent repeatability, and good surface roughness. These CNC Machining Turning Parts are suitable for various production applications, such as mechanical parts, automotive parts, medical parts, aerospace parts, industrial parts, and other custom precision parts. Our CNC Machining Turning Parts offer excellent quality and performance, while providing customers with cost-effective solutions.

Industrial Man's CNC Machining Turning Parts are designed with strict quality control standards, providing customers with reliable and durable products. Our CNC Machining Turning Parts are tested to ensure high tolerance and dimensional accuracy. We are committed to providing our customers with quality products and services that meet their needs. Industrial Man's CNC Machining Turning Parts are ideal for high-precision applications, and are the perfect choice for your next project.

## Customization:

Industrial Man provides **CNC Turning Machining Parts** services with **OEM/ODM** accepted. Our product features **5 Axis CNC Machining Parts** with **Brand Name** of Industrial Man, **Model Number** of OEM, **Place of Origin** of Guangdong, China, and **Certification** of IATF 16949: 2016/ISO 9001:2015. Samples are **Available** and **Other Machining Services** like **Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Turning, Wire EDM, Rapid Prototyping** are supported.

## Support and Services:

### CNC Turning Machining Parts Technical Support and Services

We provide world-class technical support and services for our CNC Turning Machining Parts. Our technical staff is available to answer your questions about product features, troubleshooting, and maintenance. We also have a comprehensive library of online resources, including technical specifications, product manuals, and how-to guides. If you need any further assistance, please contact us.

Our services include:

On-site installation and commissioning

Regular maintenance and repair

Online and phone technical support

Training and certification

We strive to provide the best customer service and technical support possible for our CNC Turning Machining Parts. We look forward to helping you with your needs.

## Packing and Shipping:

#### Packaging and Shipping of CNC Turning Machining Parts

At **ABC Machining Service**, we take great care to package and ship our CNC Turning Machining Parts safely and securely. We use high-quality packaging materials to ensure that the parts are well-protected during shipping. Our packaging methods include:

**Bubble wrap:** We use bubble wrap to cushion the parts and protect them from damage caused by vibration or jostling during transport.

**Foam:** We use foam to fill the gaps between the parts and protect them from shock.

**Corrugated cardboard:** We use corrugated cardboard to create an additional layer of protection for the parts.

**Wooden pallets:** We use wooden pallets to ensure that the parts are transported securely and safely.

We ship our CNC Turning Machining Parts via reliable and secure shipping carriers. We also offer our customers the option of tracking their orders, so they can stay up to date on the progress of their shipments.

#### FAQ:

Q: What is CNC Turning Machining Parts?

A: CNC Turning Machining Parts are components produced by computer numerical control (CNC) machine tools. This type of machining is used to produce high-precision parts with complex shapes.

Q: Who is the manufacturer of CNC Turning Machining Parts?

A: The manufacturer of CNC Turning Machining Parts is Industrial Man. They specialize in producing high-quality parts with precise dimensions.

Q: What is the model number of CNC Turning Machining Parts?

A: The model number for CNC Turning Machining Parts is OEM.

Q: Where are CNC Turning Machining Parts made?

A: CNC Turning Machining Parts are made in Guangdong, China.

Q: What materials can be used for CNC Turning Machining Parts?

A: CNC Turning Machining Parts can be made from a variety of materials including aluminum, steel, stainless steel, brass, and plastic.
