

Aerospace CNC Precision Machining Services IGS STP STL On Demand

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Dongguan, Guangdong
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Product Name: CNC Milling Machining Parts
- CNC Machining Or Not: Cnc Machining
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Surface Treatment: Customer's Request
- Tolerance: 0.01- +/-0.005mm
- Highlight: Aerospace cnc precision machining services, IGS cnc precision machining services, IGS cnc aerospace machining

Product Description

Product Description:

Our Product

We offer CNC Milling Machined Parts with surface treatment to customers' requests, with a minimum order quantity of 1 Piece. Our drawing format for CNC Milling Parts includes IGS, STP and STL. Our CNC Milling Machining Parts features precise dimensions and high accuracy, with tolerance up to 0.01- +/-0.005mm. We specialize in manufacturing high quality CNC Milling Machined Parts for customers with precision machining and micro machining services.

Features:

Product Name: CNC Milling Machining Parts

Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM

Place of Origin: Dongguan, Guangdong

CNC Machining or Not: Cnc Machining

Tolerance: 0.01- +/-0.005mm

Surface treatment: Customer's Request

Keywords: CNC Milling Machined Parts, Computer Numerical Parts, CNC Milling Machined Parts

Technical Parameters:

Product Name	Parameters
CNC Milling Machining Parts	Brand Name: INDUSTRIAL-MAN CNC Machining or Not: Cnc Machining Place of Origin: Dongguan, Guangdong Tolerance: 0.01- +/-0.005mm Micro Machining or Not: Micro Machining Surface treatment: Customer's Request Drawing Format: IGS STP STL MOQ: 1 Piece Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM

Applications:

INDUSTRIAL-MAN offers CNC Milling Machining Parts with model number OEM. Our CNC machining parts are manufactured with 3/4/5 Axis Center Machining. We are able to provide high precision CNC machining services, with minimum order quantity (MOQ) set to 1 piece. CNC machining parts can be used in many computer numerical parts applications, such as manufacturing parts milling and numerical control parts. With our CNC Milling Machining Parts, you can be sure that you are getting quality parts with precision and accuracy.

INDUSTRIAL-MAN is from Guangdong, China, and we guarantee that all CNC Milling Machining Parts are made with high quality materials to meet the highest industry standards. Our CNC machining parts are created to have micro machining capabilities, which means that they are able to produce intricate and detailed parts with extreme precision and accuracy. We also offer customization services, which allows you to customize your parts according to your specific requirements.

At INDUSTRIAL-MAN, we are committed to providing our customers with the highest quality CNC Milling Machining Parts. We guarantee that our CNC machining parts are made with the best materials and are designed to last. Our experienced team of engineers and technicians are dedicated to providing professional and efficient services that will meet our customers' needs.

Customization:

INDUSTRIAL-MAN CNC Milling Machined Parts

Model Number: OEM

Place of Origin: Dongguan, Guangdong

Certification: IATF 16949: 2016/ISO 9001:2015

Micro Machining or Not: Micro Machining

CNC Machining or Not: CNC Machining

Features:

INDUSTRIAL-MAN CNC Milling Machined Parts are precision machined parts with high accuracy and smooth surface. Our CNC Milling Parts are manufactured using advanced numerical control machines and high-end technology. We use high quality raw materials to ensure the quality of our CNC Milling Parts. We can also customize CNC Milling Parts according to your specific requirements.

Application:

INDUSTRIAL-MAN CNC Milling Machined Parts are widely used in the fields of aerospace, automotive, medical, electronic and so on. They are also ideal for machine components, complex parts and other products that require precision machining. With our advanced numerical control machines, we can provide you with high precision parts with excellent quality.

Support and Services:

CNC Milling Machining Parts Technical Support and Service

We provide our customers with comprehensive technical support and service for CNC Milling Machining Parts. Our experienced technicians will help you with the installation, maintenance and repair of your CNC milling machine.

We also offer a range of custom machining services to meet your specific requirements, including design services to help you get the most out of your machining process. We can help you optimize your design for maximum efficiency and cost savings.

Our experienced technicians are available to answer any questions you may have about CNC milling machining parts and their operation. We are committed to providing you with the best possible service and support.

Packing and Shipping:

Packaging and Shipping of CNC Milling Machining Parts

CNC Milling Machining Parts will be packaged carefully to ensure that they remain in good condition during transit. All parts will be placed in sealed plastic bags and then packed in a box with bubble wrap. If necessary, additional cushioning material will be used to protect the parts from any impacts during transit.

The parts will be shipped via a reliable carrier with tracking information provided. We will also provide insurance for any shipping losses or damages.

FAQ:

Q: What is CNC Milling Machining Parts?

A: CNC Milling Machining Parts are precision machined components manufactured by Industrial Man with the brand name, model number OEM, and place of origin in Guangdong, China.

Q: What materials are used in CNC Milling Machining Parts?

A: CNC Milling Machining Parts can be manufactured from various materials, including aluminum, steel, brass, and stainless steel.

Q: What is the lead time for CNC Milling Machining Parts?

A: The lead time for CNC Milling Machining Parts depends on the size and complexity of the part, but typically ranges from 5-10 days.

Q: What is the tolerance for CNC Milling Machining Parts?

A: The tolerance for CNC Milling Machining Parts depends on the specific part, but typically ranges from +/- 0.005mm to +/- 0.02mm.

Q: What is the surface finish for CNC Milling Machining Parts?

A: The surface finish for CNC Milling Machining Parts can range from rough to mirror-like depending on the material and the finishing process used.
