

3Axis CNC Parts Machining Titanium Aluminium Brass Material

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Product Name: CNC Milling Machining Parts
- Micro Machining Or Not: Micro Machining
- MOQ: 1 Piece
- CNC Machining Or Not: Cnc Machining
- Surface Treatment: Customer's Request
- Equipment: 3/4/5 Axis Center Machining
- Highlight: **3Axis cnc parts machining,**
Titanium cnc parts machining,
3Axis cnc aluminium parts

Our Product

Product Description

Product Description:

CNC Milling Machining Parts is a type of manufacturing process that creates parts by removing material from a workpiece with a cutting tool, also known as numerical controlled parts. This process is used in many industries and is ideal for producing complex 3D shapes in a variety of materials such as stainless steel, aluminum, brass, and other metals. The CNC Milling Machining Parts are manufactured with precision and accuracy to meet industry standards and requirements. It is certified by IATF 16949: 2016/ISO 9001:2015 and can be made as per the customer's drawing format such as IGS, STP, and STL. The CNC Milling Machining Parts are available in a variety of shapes, sizes, and designs and are manufactured using high-end technology by experienced professionals in Dongguan, Guangdong.

Features:

Product Name: CNC Milling Machining Parts

Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM

Surface treatment: Customer's Request

Tolerance: 0.01- +/-0.005mm

Place of Origin: Dongguan,Guangdong

MOQ: 1 Piece

Keywords: Milling Machining Components, CNC Milling Parts, Numerical Control Parts

Technical Parameters:

Product Parameters	Detail Description
Product name	CNC Milling Machining Parts
Drawing Format	IGS STP STL
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Type	Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
Certification	IATF 16949: 2016/ISO 9001:2015
Brand Name	INDUSTRIAL-MAN
Equipment	3/4/5 Axis Center Machining
MOQ	1 Piece
Tolerance	0.01- +/-0.005mm
Place of Origin	Dongguan,Guangdong
Keywords	Milling Machined Parts, CNC Machining Parts, CNC Milling Machined Parts

Applications:

INDUSTRIAL-MAN CNC Milling Machining Parts are widely used in a variety of industries and applications. They are produced with high precision and accuracy to meet the specific requirements of the customers. Computer Numerical Control (CNC) Machined Parts are made by using 3, 4, and 5 Axis CNC Machines to precision machine the parts to the exact specifications of the customer. With advanced machining technology, the parts can be cut to very tight tolerances of 0.01- +/-0.005mm. The parts can be produced with a variety of materials, such as steel, aluminum, brass, bronze, and more. They can also be finished with various surface treatments, such as anodizing, powder coating, sandblasting, plating, and polishing. This makes them perfect for all kinds of applications, from medical and aerospace to automotive and industrial.

INDUSTRIAL-MAN CNC Milling Machining Parts are designed to meet the highest standards of quality, and are made with a range of drawing formats, such as IGS, STP, and STL. They are also highly durable and reliable, and can be used in a wide range of applications. Additionally, they are easy to install and maintain, and can be used to create complex shapes, parts, and components that are precise and accurate. With the use of advanced CNC Machining technology, they can be used to cut, mill, drill, shape, and finish the parts to the exact specifications needed.

INDUSTRIAL-MAN CNC Milling Machining Parts are the perfect choice for customers looking for the highest quality, precision, and accuracy in their parts and components. They are reliable, long-lasting, and can be used in many different applications. With the use of advanced technology, they can provide the perfect solution for any customer's needs.

Customization:

Industrial Man provides custom CNC Milling Machined Parts services, including Manufacturing Parts Milling and Numerical Controlled Parts. All our parts are made in Dongguan, Guangdong, with high precision and accuracy. We accept IGS STP STL drawing format and provide Micro Machining with a minimum order quantity of 1 Piece. Our equipment includes 3/4/5 Axis Center Machining.

Support and Services:

Technical Support and Service for CNC Milling Machining Parts

We provide technical support and service for CNC Milling Machining Parts. Our technical support staff are highly experienced in all aspects of CNC machining and can provide advice and assistance on the best methods and techniques for your specific application. Our experienced team of engineers can provide custom solutions to meet your requirements and help you to achieve the highest possible level of accuracy and precision in your parts.

We are committed to providing the highest quality service and support for our customers. We offer on-site CNC machining and testing services to ensure that your parts are machined to the required specifications. We also provide remote technical support to help you troubleshoot any issues you may have with your parts. Our team is available 24/7 for any questions or concerns.

We are dedicated to providing the best quality products and services to our customers. We guarantee that our parts will meet or exceed your expectations and are backed by our 100% satisfaction guarantee. We strive to provide the highest quality parts at competitive prices and offer a wide range of services to meet all your machining needs.

Packing and Shipping:

CNC Milling Machining Parts Packaging and Shipping:

The finished CNC Milling Machining Parts will be packed in wooden boxes, and wrapped with bubble wrap. The wooden box will be sealed with strong adhesive tape to ensure that the parts are secure during shipping. The CNC Milling Machining Parts will be shipped via a reliable logistics company, ensuring that the goods arrive safely to their destination.

FAQ:

Q1: What is CNC Milling Machining Parts?

A1: CNC Milling Machining Parts is a product manufactured by Industrial Man, with model number OEM, which is made in Guangdong, China.

Q2: What are the features of CNC Milling Machining Parts?

A2: CNC Milling Machining Parts is characterized by its high precision, good stability, and excellent surface finish.

Q3: What materials can be used for CNC Milling Machining Parts?

A3: CNC Milling Machining Parts are mainly made of aluminum, stainless steel, carbon steel, brass, and copper.

Q4: What is the processing time of CNC Milling Machining Parts?

A4: The processing time of CNC Milling Machining Parts will depend on the complexity of the product, but usually it can be completed within 15-20 days.

Q5: What is the tolerance of CNC Milling Machining Parts?

A5: The tolerance of CNC Milling Machining Parts is usually controlled within $\pm 0.02-0.05\text{mm}$.
