

4Axis STP Aluminum CNC Milling Machining Parts High Volume

Our Product Introduction

For more products please visit us on lathecnm machining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Micro Machining Or Not: Micro Machining
- Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
- Equipment: 3/4/5 Axis Center Machining
- Surface Treatment: Customer's Request
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Tolerance: 0.01- +/-0.005mm
- Product Name: CNC Milling Machining Parts
- Highlight: **4Axis CNC Milling Machining Parts, STP CNC Milling Machining Parts, STP aluminum parts machining**

Product Description

Product Description:

Our Product Introduction

INDUSTRIAL-MAN CNC Milling Machining Parts are computer numerical parts with superior precision, accuracy and repeatability as compared to other traditional machining methods. Our CNC Milling Machining Parts have been certified with IATF 16949: 2016/ISO 9001:2015, making them highly reliable and trustworthy. Our CNC Milling Machining Parts are made with the INDUSTRIAL-MAN brand, ensuring the quality of the parts. The drawing format of our CNC Milling Machining Parts is IGS STP STL, and the parts can also be produced in micro machining.

Features:

Product Name: CNC Milling Machining Parts
Certification: IATF 16949: 2016/ISO 9001:2015
Equipment: 3/4/5 Axis Center Machining
Brand Name: INDUSTRIAL-MAN
CNC Machining or Not: Cnc Machining
Drawing Format: IGS STP STL
Computerized Machining Parts
CNC Machining Parts
CNC Milling Parts

Technical Parameters:

Parameter	Value
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Brand Name	INDUSTRIAL-MAN
Certification	IATF 16949: 2016/ISO 9001:2015
Place of Origin	Dongguan,Guangdong
MOQ	1 Piece
Type	Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
Surface treatment	Customer's Request
Tolerance	0.01- +/-0.005mm
CNC Machining or Not	Cnc Machining
Equipment	3/4/5 Axis Center Machining

Applications:

Industrial Man CNC Milling Machining Parts are specially designed for a variety of different applications. These highly precise and efficient machining components are created using 3/4/5 Axis Center Machining as well as CNC machining techniques and are capable of creating intricate parts and shapes with tight tolerances. The OEM parts are available in a variety of different types such as broaching, drilling, laser machining, milling, turning, and wire EDM. The surface treatment of the parts can be customized to meet the customer's specific requirements. These machining components are perfect for customers who are looking for high-precision and accurate milling machining components, computerized machining components, or CNC machining components. With Industrial Man CNC Milling Machining Parts, customers can be sure that they are getting the highest quality parts with the best performance.

Customization:

Industrial Man offers custom CNC Milling Machined Parts services for customers needing high-precision parts with tight tolerances. Our experienced team of engineers and machinists program and operate high-precision 3/4/5 axis CNC machining centers to produce parts that meet even the most stringent requirements. We can machine a wide range of materials such as aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. Our machining services can meet tolerances of 0.01- +/-0.005mm, and we provide micro machining services as well. Our numerical controlled parts are perfect for clients looking for CNC machining parts and CNC milling machined parts.

Support and Services:

Technical Support and Services for CNC Milling Machining Parts

We provide technical support and services for CNC Milling Machining Parts. Our services include:

Design and prototyping services
Highly accurate CNC machining
Quality control and inspection
Assembly and packaging
On-time delivery

We use advanced technology to ensure the highest quality of CNC Milling Machining Parts. Our experienced engineers and technicians have the knowledge and skill to create precise parts with tight tolerances. We strive to provide the highest quality service with fast turnaround times and competitive pricing.

Packing and Shipping:

Packaging and Shipping for CNC Milling Machining Parts

We will use appropriate packaging materials to ensure that the CNC Milling Machining Parts are delivered in the best condition. The parts will be sealed in a plastic bag and then placed in a cardboard box. The box will be securely sealed with bubble wrap or foam to protect against shock and vibration during shipping. We will ship the parts to the designated address via a reliable courier service. Tracking information will be provided so that customers can monitor the shipment.

FAQ:

Q: What is CNC Milling Machining Parts?

A: CNC Milling Machining Parts are parts that are machined with a Computer Numerical Control (CNC) milling machine.

Q: What brand of CNC Milling Machining Parts do you offer?
A: We offer CNC Milling Machining Parts with the brand name Industrial Man and model number OEM.
Q: Where is the CNC Milling Machining Parts made?
A: Our CNC Milling Machining Parts are made in Guangdong, China.
Q: What materials do you use for the CNC Milling Machining Parts?
A: We use various materials for the CNC Milling Machining Parts including aluminum, stainless steel, brass, plastic and other materials.
Q: How long does it take to produce CNC Milling Machining Parts?
A: It usually takes about 7-10 days to produce CNC Milling Machining Parts.
