

High Quality CNC Aluminium Stainless Steel Brass Copper Machining Parts Factory Price CNC Machining Service

Our Product Introduction

For more products please visit us on lathecnm machining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Surface Treatment: Customer's Request
- MOQ: 1 Piece
- Micro Machining Or Not: Micro Machining
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Drawing Format: IGS STP STL
- Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
- Tolerance: 0.01- +/-0.005mm
- Highlight: IATF1694 aluminium machined parts,
IATF automotive aluminium machined parts,
IATF 3d cnc machining

Product Description

Product Description:

Our Product Introduction

CNC Milling Machining Parts are precision machined parts manufactured by computer numerical controlled (CNC) milling machines. CNC Milling Machined Parts are used in a variety of industries, ranging from aerospace, automotive, and medical, to electronics, power generation, and communications. With advanced CNC machining technology, CNC Milling Machined Parts can be made with high precision and accuracy. The machined parts can be made of various materials such as aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. The tolerance range of the parts can reach 0.01- +/-0.005mm. CNC Milling Machining Parts also have a wide range of certifications, including IATF 16949: 2016/ISO 9001:2015.

Features:

Product Name: CNC Milling Machining Parts

Drawing Format: IGS STP STL

Place of Origin: Dongguan,Guangdong

Minimum Order Quantity: 1 Piece

Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM

Focus: Manufacturing Parts Milling, Computer Numerical Parts, Milling Machined Parts

Technical Parameters:

Parameter	Description
Brand Name	INDUSTRIAL-MAN
MOQ	1 Piece
Micro Machining or Not	Micro Machining
Drawing Format	IGS STP STL
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Certification	IATF 16949: 2016/ISO 9001:2015
Surface treatment	Customer's Request
Place of Origin	Dongguan,Guangdong
Equipment	3/4/5 Axis Center Machining
Type	Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
Product Name	CNC Milling Machining Parts

Applications:

Industrial Man's CNC Milling Machined Parts are widely used in many industries. They have the advantages of high precision, high efficiency, low cost, and good repeatability. With their superior tolerance of 0.01- +/-0.005mm and their ability to provide various options of surface treatment and material capabilities such as aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys, Industrial Man's CNC Milling Machined Parts can be used for a variety of applications.

From production machinery to medical equipment, these CNC Milling Machined Parts are ideal for clients who demand high quality and precise parts for their projects. Industrial Man's CNC Milling Machined Parts are certified to IATF 16949:2016/ISO 9001:2015, so customers can be confident that they are receiving parts that meet the highest standards.

The use of computer numerical control (CNC) machining has become popular due to its ability to produce parts with high accuracy and repeatability. Industrial Man's CNC Milling Machined Parts are designed to meet customer's exact requirements, offering a cost-effective solution for complex parts that require high precision and accuracy. By utilizing the latest in CNC milling technology, Industrial Man's CNC Milling Machined Parts are perfect for projects that require rapid prototyping and low-volume production.

Industrial Man's CNC Milling Machined Parts are suitable for a wide range of applications, including automotive, aerospace, medical, and industrial. With their high precision and quality, Industrial Man's CNC Milling Machined Parts are the perfect choice for any project that requires precision parts.

Customization:

INDUSTRIAL-MAN offers custom **CNC Milling Machining Parts** with model number OEM. Our products are certified with IATF 16949: 2016/ISO 9001:2015 and can be applied to 3/4/5 Axis Center Machining. We specialize in micro machining, broaching, drilling, laser machining, milling, turning, and wire EDM. Our **milling machining components**, **CNC milling parts**, and **computerized machining parts** are of the highest quality and will meet all your requirements.

Support and Services:

CNC Milling Machining Parts provides technical support and service to ensure that customers receive the highest quality and reliable products. Our team of professional engineers is available to assist with troubleshooting, product design, installation, and maintenance. We offer comprehensive technical assistance and training on the latest CNC machining technologies, as well as custom design services for unique or complex parts.

Our technical support team is available to answer any questions or provide guidance on the best machining methods for your project. We have extensive experience working with a variety of materials and have the expertise to advise on the best approach for your project. We also provide detailed product documentation and software support for our products.

We provide a wide range of services for CNC Milling Machining Parts including:

Troubleshooting

Product design

Installation

Maintenance

Technical assistance and training

Custom design services

Product documentation

Software support

Packing and Shipping:

Packaging and Shipping of CNC Milling Machining Parts:

The parts will be packed in antistatic bags and bubble wrap for maximum protection during transit.

The parts will be placed in cardboard boxes for shipping.

The parts will be shipped using the most reliable courier services.

FAQ:

Q: What is CNC Milling Machining Parts?

A: CNC Milling Machining Parts is a kind of CNC machining process, which is used to cut and shape materials for specific purposes. It is mainly used to produce parts with complex shapes and high precision.

Q: What brand is CNC Milling Machining Parts?

A: CNC Milling Machining Parts is manufactured by Industrial Man.

Q: What is the model number of CNC Milling Machining Parts?

A: The model number for CNC Milling Machining Parts is OEM.

Q: Where is CNC Milling Machining Parts produced?

A: CNC Milling Machining Parts is produced in Guangdong, China.

Q: What materials does CNC Milling Machining Parts use?

A: CNC Milling Machining Parts is suitable for processing a variety of materials, including metals, plastics, and composites.
