

High Precision Computerized CNC Milling Machining Parts Wire EDM

Our Product Introduction

For more products please visit us on lathecncmachining.com

Basic Information

- Place of Origin: Dongguan, Guangdong
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
- Tolerance: 0.01- +/-0.005mm
- Product Name: CNC Milling Machining Parts
- CNC Machining Or Not: Cnc Machining
- MOQ: 1 Piece
- Highlight: **High Precision CNC Milling Machining Parts, EDM CNC Milling Machining Parts, Computerized precision cnc parts**

Product Description

Product Description:

Our Product

CNC Milling Machining Parts are high-precision computerized machining components that are manufactured using numerical controlled equipment like 3/4/5 Axis Center Machining. The type of machining services provided includes broaching, drilling, laser machining, milling, turning, and wire EDM. These CNC milling machining parts come with a IATF 16949: 2016/ISO 9001:2015 certification and are known for its precision and accuracy with tolerances ranging from 0.01mm to +/-0.005mm. These parts are also known as numerical controlled parts, computerized machining parts, or milling machining components.

Features:

CNC Machining or Not: Cnc Machining

Micro Machining or Not: Micro Machining

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM

Product Name: CNC Milling Machining Parts

Manufacturing Parts Milling: Numerical Control Parts

Technical Parameters:

Parameter	Value
Brand Name	INDUSTRIAL-MAN
CNC Machining or Not	CNC Machining
Product Name	CNC Milling Machined Parts
Certification	IATF 16949: 2016/ISO 9001:2015
Equipment	3/4/5 Axis Center Machining
Surface Treatment	Customer's Request
Drawing Format	IGS STP STL
Place of Origin	Dongguan, Guangdong
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Micro Machining or Not	Micro Machining
CNC Milling Parts	CNC Milling Parts Manufacturing

Applications:

INDUSTRIAL-MAN CNC Milling Machining Parts provide precise, high-quality manufacturing parts milling, milling machined parts, numerical control parts and CNC milling parts. These machining parts are crafted with the highest quality materials, including aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel and steel alloys. Our CNC Milling Machining Parts are designed to ensure accuracy and durability, as well as the highest quality surface finish. With a commitment to meeting customer's request in terms of surface treatment, our CNC Milling Machining Parts are available with a wide range of finishes, from anodizing and powder coating to galvanizing and polishing. Our parts are verified through rigorous quality control system certified by IATF 16949: 2016/ISO 9001:2015. With the high quality and reliability of INDUSTRIAL-MAN CNC Milling Machining Parts, you can be sure your production process will be efficient and effective.

Customization:

INDUSTRIAL-MAN Customized CNC Milling Machining Parts

INDUSTRIAL-MAN provides customized CNC Milling Machining Parts services with OEM model. Our CNC machining parts are manufactured with precision and accuracy, and have a tolerance of 0.01- +/-0.005mm.

We use advanced technology for our CNC machining services, including numerical control parts, numerical controlled parts, and customized CNC parts. This helps us produce high quality industrial-man parts with the best possible materials, such as aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys.

We are passionate about providing the highest quality CNC machining services, and we are certified to IATF 16949: 2016/ISO 9001:2015 standards. Our parts are used in a variety of industries, and our team of experienced engineers and technicians are dedicated to delivering the best results for our customers.

Support and Services:

Technical Support and Service for CNC Milling Machining Parts

We provide technical support and service for CNC Milling Machining Parts, including:

Design and fabrication of CNC machining parts

Troubleshooting and problem solving of CNC machining parts

Installation and maintenance of CNC machining parts

Production and inspection of CNC machining parts

Our team of experienced technicians is available for support and service around the clock, and our quality-assured products are backed by a warranty.

Packing and Shipping:

Packaging and Shipping of CNC Milling Machining Parts

The CNC Milling Machining Parts are packaged in heavy-duty cardboard boxes to ensure that they arrive safely and in perfect condition. The boxes are then sealed with shrink-wrap to provide an extra layer of protection.

The CNC Milling Machining Parts are shipped via a trusted international courier service. We use tracking numbers to ensure that all shipments are tracked and delivered on time.

We also offer a range of additional services to ensure that your CNC Milling Machining Parts reach you in the best possible condition. These include special packaging, insurance, and expedited shipping options.

FAQ:

Q: What is CNC Milling Machining Parts?

A: CNC Milling Machining Parts is a kind of industrial parts, which are produced by Industrial Man with Model Number OEM and Place of Origin Guangdong, China.

Q: What are the advantages of CNC Milling Machining Parts?

A: CNC Milling Machining Parts have many advantages such as high accuracy, good surface finish and short production cycle.

Q: What are the materials used for CNC Milling Machining Parts?

A: CNC Milling Machining Parts can be made of metal materials such as aluminum, stainless steel, iron, etc.

Q: What is the application of CNC Milling Machining Parts?

A: CNC Milling Machining Parts are widely used in various industries such as automotive, aerospace, electronics and medical.

Q: What is the delivery time of CNC Milling Machining Parts?

A: Generally, the delivery time of CNC Milling Machining Parts is about 7-15 days, and it can be customized according to customer's requirements.
