

Small Batch Aluminum Cnc Machining Parts Odm

or more products please visit us on lathecncmachining.com

Place of Origin:	Guangdong, China
• Brand Name:	INDUSTRIAL-MAN
Certification:	IATF 16949: 2016/ISO 9001:2015
Model Number:	OEM
Minimum Order Quantity:	1PC
Price:	Negotiable
 Packaging Details: 	As the requirement of customer
Delivery Time:	7-15 work days
Payment Terms:	L/C, D/A, D/P, T/T, Western Union, MoneyGram
 Supply Ability: 	100000Pcs/ Month

Product Specification

Basic Information

• Туре:	Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
Equipment:	3/4/5 Axis Center Machining
• MOQ:	1 Piece
CNC Machining Or Not	Cnc Machining
Tolerance:	0.01- +/-0.005mm
Micro Machining Or Not	t: Micro Machining
Highlight:	Small Batch aluminum cnc machining parts, Odm aluminum cnc machining parts,

Odm machining small parts

Product Description

Our P

CNC Milling Machined Parts

CNC Milling Machined Parts are precision-machined components manufactured by Numerical Control (NC) machining, also known as CNC machining. The process involves the use of cutting tools and computerized numerical control software that directs the machine and tooling to machine the parts accurately and precisely to the customer's specifications.

Our CNC Milling Machined Parts are machined using a variety of materials such as aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. We are capable of producing 3/4/5 axis center machining parts with superior precision. We accept various drawing formats such as IGS, STP, and STL.

In addition, we offer surface treatments based on customer's requests. Our CNC Milling Machined Parts are designed to meet the highest quality standards to ensure superior performance and durability.

Features:

Product Name: CNC Milling Machining Parts CNC Machining or Not: CNC Machining Tolerance: 0.01- +/-0.005mm Micro Machining or Not: Micro Machining Place of Origin: Dongguan, Guangdong Equipment: 3/4/5 Axis Center Machining Keywords: Milling Machining Components, Milling Machined Parts, Numerical Controlled Parts

Technical Parameters:

Parameter	Details
Product Name	CNC Milling Machining Parts
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Minimum Order Quantity	1 Piece
CNC Machining or Not	CNC Machining
Equipment	3/4/5 Axis Center Machining
Drawing Format	IGS STP STL
Tolerance	0.01- +/-0.005mm
Brand Name	INDUSTRIAL-MAN
Certification	IATF 16949: 2016/ISO 9001:2015
Micro Machining or Not	Micro Machining

Applications:

INDUSTRIAL-MAN CNC Milling Machined Parts

INDUSTRIAL-MAN CNC Milling Machined Parts are precision-engineered with numerical control technology for manufacturing parts milling, and are widely used in various industrial and engineering applications. With superior material capability such as aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel and steel alloys, our CNC Milling machined parts offer excellent strength and durability for long-term use.

INDUSTRIAL-MAN CNC Milling Machined Parts come with OEM model number and are made for high precision and accuracy. With drawing formats such as IGS STP STL, our CNC Milling Machined Parts are suitable for a range of applications, from prototyping to mass production. Our micro machining technology further ensures optimal accuracy and performance of our CNC Milling Machined Parts. INDUSTRIAL-MAN CNC Milling Machined Parts can be used in a variety of industries including aerospace, automotive, medical, electronic, and other manufacturing industries. With superior material selection and precision, our CNC Milling Machined Parts can provide a reliable solution to various machining needs.

Customization:

Customized CNC Milling Machining Parts Brand Name: INDUSTRIAL-MAN Model Number: OEM Place of Origin: Guangdong, China Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM MOQ: 1 Piece Certification: IATF 16949: 2016/ISO 9001:2015 Equipment: 3/4/5 Axis Center Machining At INDUSTRIAL-MAN, we specialize in the manufacturing of CNC Milling Machining Parts to customer specifications. Our CNC Milling Parts are numerically controlled and produced with the highest quality of precision and accuracy. We have the capability to produce CNC Milling Parts in sizes ranging from small, to large and complex.

We use 3/4/5 Axis Center Machining to produce CNC Milling Parts, with a MOQ of 1 Piece. We are certified with IATF 16949: 2016/ISO 9001:2015 and guarantee the highest-quality Manufacturing Parts Milling. Contact us today to get a quote and learn more about our CNC Milling Parts!

Support and Services:

CNC Milling Machining Parts Technical Support and Service: Provide technical consultation and engineering assistance for product selection and application. Provide machining services for high quality parts and components. Provide on-site installation and debugging services. Provide maintenance and repair services. Provide spare parts and accessories. Provide training services for operators. Provide technical support via email, phone, online chat, etc.

Packing and Shipping:

Packaging and Shipping for CNC Milling Machining Parts

At our company, all CNC Milling Machining Parts are packed with the utmost care and attention. We use high-quality materials such as foam, bubble wrap, and cardboard to ensure that your parts are safe and secure during transport. We also use custom-made boxes, pallets, and crates for larger orders.

Once the parts have been packaged, we can ship them via air, ground, or sea freight, depending on your needs. We have established relationships with reliable carriers to ensure that your parts arrive in a timely and cost-effective manner. Additionally, we offer tracking services so you can keep an eye on your shipment throughout its journey.

FAQ:

Q:What is the brand name for this CNC Milling Machining Parts?

A:The brand name is Industrial Man.

Q:What is the model number for this CNC Milling Machining Parts?

A:The model number is OEM.

Q:Where is this CNC Milling Machining Parts produced?

A:This CNC Milling Machining Parts is produced in Guangdong, China.

Q:What materials are used to produce this CNC Milling Machining Parts?

Ð

86 18028781979

A:The materials used to produce this CNC Milling Machining Parts depend on the specific application.

Q:What is the lead time for this CNC Milling Machining Parts?

A:The lead time for this CNC Milling Machining Parts depends on the quantity and complexity of the parts.
