

Prototype CNC Machining Turning Machined Aluminum Parts Customized

Our Product Introduction

For more products please visit us on lathecncmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- CNC Machining Or Not: CNC Machining
- OEM/ODM: Accepted
- Equipment: 3/4/5 Axis Center Machining
- Drawing Format: STP . STEP . IGS . PRT . X_T
- Tolerance: 0.01- +/-0.005mm
- MOQ: 1 Piece
- Highlight: Customized prototype cnc machining,
Aluminum prototype cnc machining,
Prototype CNC machined aluminum parts

Product Description

Product Description:

Our Product

CNC Turning Machining Parts is a kind of parts produced by CNC Machining Turning process. It is equipped with 3/4/5 Axis Center Machining, and manufactured in Shenzhen, Guangdong, which is a well-known place for its high-quality CNC machining and manufacturing. The parts can be finished with customer's requests on surface treatment, such as coating, plating, polishing, etc. With the precision of 0.01- +/-0.005mm, CNC Turning Machining Parts has passed the certification of IATF 16949:2016 and ISO 9001:2015, ensuring their quality and reliability. CNC Machining Turning Parts is widely used in CNC Machining Auto Parts industry and is a good choice for customers who need precision and high efficiency.

Features:

Product Name: CNC Turning Machining Parts

Micro Machining or Not: Micro Machining

Brand Name: INDUSTRIAL-MAN

CNC Machining or Not: CNC Machining

5 Axis CNC Machining Parts

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Technical Parameters:

Technical Parameters	Details
Place of Origin	Guangdong,Shenzhen
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
CNC Machining or Not	CNC Machining
Drawing Format	STP . STEP . IGS . PRT . X_T
Equipment	3/4/5 Axis Center Machining
Brand Name	INDUSTRIAL-MAN
Product Name	CNC Turning Machining Parts
OEM/ODM	Accepted
Certification	IATF 16949: 2016/ISO 9001:2015
Delivery Time	3-5 Days

Applications:

Industrial Man CNC Turning Machining Parts

Industrial Man CNC Turning Machining Parts are made of high-precision materials, with precise shape and size, and optimized surface treatment. This type of machining parts is designed to meet the needs of customers in various industries, and can be applied in various fields. Industrial Man CNC turning machining parts are made of high-grade materials, with precision size and shape, and excellent surface treatment. The parts are designed to meet the needs of customers in various industries, providing high-precision, high-quality and reliable machining services.

Industrial Man CNC Turning Machining Parts can be used for a wide range of applications, including 5 Axis CNC Machining Parts, Custom CNC Machining Parts, 5 Axis CNC Machining Parts, and other machining services. These parts are designed to meet the needs of customers in various industries, offering high-precision, high-quality and reliable machining services. The parts are made with high-grade materials and optimized surface treatment, ensuring that the parts are precise in shape and size.

Industrial Man CNC Turning Machining Parts are available with a variety of surface treatments, such as anodizing, electroplating, powder coating, sandblasting, and more. These parts come with a variety of drawing formats, such as STP . STEP . IGS . PRT . X_T, and the minimum order quantity (MOQ) is 1 piece. These parts are designed to meet the needs of customers in various industries, providing high-precision, high-quality and reliable machining services.

Customization:

Custom CNC Turning Machining Parts

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong,Shenzhen

CNC Machining or Not: CNC Machining

OEM/ODM: Accepted

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Certification: IATF 16949: 2016/ISO 9001:2015

Industrial Man provides customized CNC Turning Machining Parts service, specialized in CNC Machining Auto Parts. We have lots of materials for option, such as Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys. All our products are under IATF 16949: 2016/ISO 9001:2015 certification, and we provide OEM/ODM services.

Support and Services:

CNC Turning Machining Parts Technical Support and Services

We provide technical support and services to ensure that CNC Turning Machining Parts are produced to the highest quality standards and meet our customers' requirements.

Our technical support and services include:

Design consultation and review to ensure the best possible solutions for the CNC Turning Machining Parts

Assistance with production planning and scheduling to ensure timely delivery of the CNC Turning Machining Parts

Inspection and testing of CNC Turning Machining Parts to ensure they meet the required standards

Providing technical advice and assistance with troubleshooting any issues with CNC Turning Machining Parts

We are committed to providing our customers with the best technical support and services for their CNC Turning Machining Parts.

Packing and Shipping:

Packaging and Shipping of CNC Turning Machining Parts:

The CNC Turning Machining Parts will be packed in a water-resistant and shockproof packaging material to protect the parts from damage during transportation. The package will be sealed and labeled with the product details, such as size, weight and quantity. Shipping will be done via reliable and secure means such as air, land, and sea transportation.

FAQ:

Q1. What is CNC Turning Machining Parts?

A1. CNC Turning Machining Parts is a machining technology used for producing parts with complex shapes and features by using computer-controlled lathes. The Industrial Man Brand CNC Turning Machining Parts are made with OEM Model, and are manufactured in Guangdong, China.

Q2. What materials are used for CNC Turning Machining Parts?

A2. CNC Turning Machining Parts are typically made from metals such as aluminum, brass, steel, and stainless steel. The material used for Industrial Man CNC Turning Machining Parts is OEM Model, and it is manufactured in Guangdong, China.

Q3. What is the minimum order quantity for CNC Turning Machining Parts?

A3. The minimum order quantity for Industrial Man CNC Turning Machining Parts is OEM Model. The parts are manufactured in Guangdong, China.

Q4. What is the lead time for CNC Turning Machining Parts?

A4. The lead time for Industrial Man CNC Turning Machining Parts is OEM Model. The parts are manufactured in Guangdong, China.

Q5. What is the warranty period for CNC Turning Machining Parts?

A5. Industrial Man CNC Turning Machining Parts are made with OEM Model, and are manufactured in Guangdong, China. The warranty period for these parts is based on their specific use and condition.
