

## Steel Alloy CNC Milling Machining Parts Custom 0.005mm Tolerance

Our Product Introduction

For more products please visit us on [lathecnmachining.com](http://lathecnmachining.com)

### Basic Information

- Place of Origin: Dongguan, Guangdong
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- Drawing Format: IGS STP STL
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- CNC Machining Or Not: Cnc Machining
- Micro Machining Or Not: Micro Machining
- Tolerance: 0.01- +/-0.005mm
- Product Name: CNC Milling Machining Parts
- Surface Treatment: Customer's Request
- Highlight: **Steel Alloy CNC Milling Machining Parts, 0.005mm CNC Milling Machining Parts, 0.005mm cnc machining custom**

### Product Description

**Product Description:**

Our Product

INDUSTRIAL-MAN is a professional and reliable manufacturer for milling machined parts. Our milling machined parts are made from premium-grade materials, with precision machining and surface finishing. Our milling machined parts can be used in a variety of industries, including automotive, electrical, machinery, medical, aerospace, and more. Our milling machined parts are manufactured to meet the highest quality standards and are certified by IATF 16949: 2016/ISO 9001:2015. We offer a wide range of options for our customers, with a variety of materials, including aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys, as well as advanced machining techniques, such as broaching, drilling, laser machining, milling, turning, and wire EDM. Our milling machined parts are designed to meet our customers' exact requirements, and are manufactured in our state-of-the-art facility in Dongguan, Guangdong, China. At INDUSTRIAL-MAN, we are committed to providing our customers with quality products and services that exceed their expectations.

## Features:

Product Name: CNC Milling Machining Parts  
Brand Name: INDUSTRIAL-MAN  
Drawing Format: IGS STP STL  
CNC Machining or Not: Cnc Machining  
Numerical Control Parts: Yes  
CNC Machining Parts: Yes  
Manufacturing Parts Milling: Yes  
MOQ: 1 Piece

## Technical Parameters:

Parameter	Details
Micro Machining or Not	Micro Machining
CNC Machining or Not	Cnc Machining
Brand Name	INDUSTRIAL-MAN
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Surface treatment	Customer's Request
Place of Origin	Dongguan,Guangdong
MOQ	1 Piece
Equipment	3/4/5 Axis Center Machining
Product name	CNC Milling Machining Parts
Type	Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
Keywords	Numerical Controlled Parts, CNC Machining Parts, Numerical Control Parts

## Applications:

INDUSTRIAL-MAN CNC Milling Machining Parts are a specialized form of manufacturing parts. Computer numerical parts are machined by using a computer numerical control (CNC) machine. This machine uses programmed commands to control the movements of the parts, such as cutting and drilling. It is designed to precisely produce a variety of complex parts with high accuracy and repeatability. The machine is capable of producing parts to a tolerance of 0.01- +/-0.005mm, and is fully certified to IATF 16949: 2016/ISO 9001:2015 standards.

The CNC machining parts can be customized to meet the exact requirements of the customer, and are available in a variety of materials, such as aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. The CAD/CAM software allows customers to design parts in various formats, such as IGS STP STL. The CNC machine is able to process a wide range of materials, enabling customers to achieve their desired part design.

INDUSTRIAL-MAN CNC Milling Machining Parts are widely used in various industries, such as automotive, aerospace, medical, electronics, and consumer goods. They are ideal for producing complex parts with high accuracy and repeatability. The CNC machine is also capable of producing parts with a variety of finishes, such as polished, anodized, and electroplated. This allows customers to achieve their desired product design. By using CNC parts, customers can save time and money in the production process, as the parts can be machined quickly and accurately.

## Customization:

Custom CNC Milling Machining Parts from Industrial Man

Industrial Man provides customized CNC Milling Machining Parts with the following features:

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

MOQ: 1 Piece

Product name: CNC Milling Machining Parts

Micro Machining or Not: Micro Machining

Computerized Machining Parts, Computer Numerical Parts, CNC Milling Parts

## Support and Services:

CNC Milling Machining Parts Technical Support and Service

We provide technical support and service for CNC Milling Machining Parts. Our dedicated team of professionals are experienced in the selection and application of CNC Milling Machining Parts.

We provide a full range of support services, including installation, trouble-shooting, technical advice, and maintenance. We also provide on-site training for customers on the operation and maintenance of CNC Milling Machining Parts.

In addition, we offer a variety of services to ensure the highest quality of CNC Milling Machining Parts, including calibration and certification, quality control and assurance, and testing and validation.

We are committed to providing our customers with the highest level of technical support and service for CNC Milling Machining Parts.

## Packing and Shipping:

### Packaging and Shipping of CNC Milling Machining Parts

We use the most suitable packaging and shipping methods to ensure that the CNC Milling Machining Parts arrive safely and in good condition. We ensure that all goods are securely packed and protected against damage, moisture, dust, shock, and other external factors. The packaging materials used are designed to protect the product from any kind of damage, including vibration, shock, and other external factors. We ensure that the packaging material is of the highest quality and meets all the necessary standards. The shipping method is chosen based on the size and weight of the product, and the desired speed of delivery. We use the most reliable and efficient courier services to ensure that the CNC Milling Machining Parts arrive on time and in perfect condition. We also provide tracking information for all orders.

## FAQ:

### Q: What Brand Name is the CNC Milling Machining Parts?

A: The Brand Name of the CNC Milling Machining Parts is Industrial Man.

### Q: What is the Model Number of the CNC Milling Machining Parts?

A: The Model Number of the CNC Milling Machining Parts is OEM.

### Q: Where is the CNC Milling Machining Parts Origin From?

A: The CNC Milling Machining Parts is Origin From Guangdong, China.

### Q: What is the Application of the CNC Milling Machining Parts?

A: The CNC Milling Machining Parts is used for CNC machining, milling, drilling, tapping, etc.

### Q: What Materials Can the CNC Milling Machining Parts Be Made From?

A: The CNC Milling Machining Parts can be made from a variety of materials, such as aluminum, stainless steel, brass, etc.
