

Rapid Prototype Machining Small Parts Bronze Stainless Steel

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Dongguan, Guangdong
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Equipment: 3/4/5 Axis Center Machining
- Tolerance: 0.01- +/-0.005mm
- CNC Machining Or Not: Cnc Machining
- Surface Treatment: Customer's Request
- Product Name: CNC Milling Machining Parts
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Highlight: **Prototype Bronze machining small parts,**
Prototype machining small parts,
Stainless Steel rapid prototype machining

Product Description

Product Description:

INDUSTRIAL-MAN offers high precision computerized machining parts with CNC Milling Machining technology. Our CNC Milling Machining Parts are highly accurate and made to exact specifications to meet the customer's needs. We use Computer Numerical Control (CNC) technology for milling machined parts with a minimum order quantity of 1 piece. Our experienced team of technicians can provide a variety of surface treatments according to customer requirements. We guarantee the highest level of precision and quality for our CNC Milling Machining Parts.

Our CNC Milling Machining Parts are of superior quality and are highly durable. We use the latest technology to create our parts, ensuring that they are efficient and reliable. Our CNC machining parts are designed to provide maximum performance with minimal effort. Our parts are made with the highest level of precision and accuracy, ensuring that they will last for years.

INDUSTRIAL-MAN CNC Milling Machining Parts are designed to meet the highest demands of the industry. We use the latest technology to create our parts, ensuring that they are efficient and reliable. Our parts are designed for maximum performance and are made to exact specifications to meet the customer's needs. We guarantee the highest level of precision and quality for our CNC Milling Machining Parts.

Features:

Product Name: CNC Milling Machining Parts

Surface treatment: Customer's Request

Place of Origin: Dongguan,Guangdong

Drawing Format: IGS STP STL

Micro Machining or Not: Micro Machining

Milling Machining Components

Numerical Control Parts

CNC Milling Machined Parts

Technical Parameters:

Parameters	Details
Drawing Format	IGS STP STL
Micro Machining or Not	Micro Machining
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Product Name	CNC Milling Machining Parts
Equipment	3/4/5 Axis Center Machining
Place of Origin	Dongguan, Guangdong
Certification	IATF 16949: 2016/ISO 9001:2015
Type	Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
Tolerance	0.01- +/-0.005mm
MOQ	1 Piece
Keywords	Manufacturing Parts Milling, Computer Numerical Parts, Milling Machined Parts

Applications:

INDUSTRIAL-MAN is a leading manufacturer of precision CNC milling machining parts with model number OEM for a wide range of industries. Our CNC machining parts are used for manufacturing high-end numerical controlled parts which require extremely precise dimensions and complex shapes. Our CNC milling parts are made from high-quality raw materials and are machined with advanced CNC milling machines to ensure accuracy and quality. We can also provide customized numerical controlled parts machining services to meet your specific needs. Our CNC milling parts are certified to IATF 16949:2016/ISO 9001:2015 standards and are widely used in automotive, aerospace, medical, electronics and other industries.

The CNC milling parts produced by INDUSTRIAL-MAN are made through a variety of processes including broaching, drilling, laser machining, milling, turning, and wire EDM. Our CNC milling parts are highly precise and capable of producing complex shapes with very tight tolerances. We also provide a wide range of drawing formats including IGS, STP, and STL to meet your specific needs. Our CNC milling parts are designed to meet the highest quality standards and are produced with the utmost care and attention to detail.

At INDUSTRIAL-MAN, we are committed to providing our customers with high-quality CNC milling parts that meet their precise specifications. We use the latest technology and advanced production techniques to ensure that our CNC milling parts are of the highest quality and reliability. Our experienced team of professionals is dedicated to providing the best possible service and support to ensure our customers' satisfaction. We take pride in our commitment to providing the best CNC milling parts and services to our customers.

Customization:

We offer custom CNC Milling Machining Parts from Industrial Man, with OEM Model Number and manufactured in Dongguan, Guangdong. We accept a variety of design formats, such as IGS STP STL, with numerical control accuracy of 0.01- +/-0.005mm. As for surface treatment, customers can choose what they need, and our products are certified to IATF 16949: 2016/ISO 9001: 2015. Our CNC Milling Machining Parts are ideal for achieving high-precision, high-performance numerical control machined parts, such as computerized machined parts and milling machined parts.

Support and Services:

CNC Milling Machining Parts provides technical support and services including:

Diagnosing and troubleshooting any issues with CNC milling equipment

Inspecting milling parts for accuracy and functionality

Providing custom programming for CNC milling parts

Developing maintenance plans for CNC milling parts

Providing expert advice on CNC milling processes and techniques

Assisting with the installation and setup of CNC milling equipment

Providing training for operators on the use of CNC milling equipment

Packing and Shipping:

Packaging and Shipping of CNC Milling Machining Parts:

The CNC Milling Machining Parts will be carefully packed in a foam lined box, and then placed in a sturdy cardboard box for shipping. The package will be secured with bubble wrap and/or packing peanuts to ensure the parts are safe during transit. The box will be clearly labeled with the shipping information, including the destination address.

FAQ:

Q: What is the Brand Name of this CNC Milling Machining Parts? **A:** The Brand Name is Industrial Man.

Q: What's the Model Number of this CNC Milling Machining Parts? **A:** The Model Number is OEM.

Q: Where is this CNC Milling Machining Parts manufactured? **A:** It is manufactured in Guangdong, China.

Q: What materials are used for this CNC Milling Machining Parts? **A:** It depends on the specific product, but usually various types of metals such as aluminum, steel, and titanium are used.

Q: What is the lead time for CNC Milling Machining Parts? **A:** The lead time is normally about 15-20 days, however it may vary depending on the complexity of the product.
