

Oem Brass CNC Sinker Edm Machining Defense Parts

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, Shenzhen
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 3-5 Days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- CNC Machining Or Not: CNC Machining
- Micro Machining Or Not: Micro Machining
- Drawing Format: STP . STEP . IGS . PRT . X_T
- Sample: Available
- Product Name: CNC Turning Machining Parts
- Highlight: **Oem sinker edm machining,
Brass sinker edm machining,
brass cnc machining Sinker Edm**

Product Description

Product Description:

Our Product

CNC Turning Machining Parts are precision CNC machining metal parts with CNC machining technology. These parts are produced with high precision tolerance up to 0.01- +/-0.005mm, which can meet the most demanding requirements. Our CNC turning machining parts are widely used in various industries, such as medical, automotive, aerospace, defense, etc. The high-precision CNC turning machining parts can ensure the accuracy and consistency of the products, and greatly improve the efficiency of the industry.

We also provide custom CNC turning machining services according to customer's drawings and requirements. Sample is available and micro machining is also supported. Our advanced CNC turning machining technology and experienced technical team can guarantee the quality and accuracy of the products. With the reliable quality and reasonable price, our CNC turning machining parts are well received by customers all over the world.

Features:

Product Name: CNC Turning Machining Parts

MOQ: 1 Piece

Sample: Available

OEM/ODM: Accepted

CNC Machining or Not: CNC Machining

CNC Machining Metal Parts

5 Axis CNC Machining Parts

CNC Machining Turning Parts

CNC Lathe Machining Parts

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping

Technical Parameters:

Parameters	Details
Certification	IATF 16949: 2016/ISO 9001:2015
Tolerance	0.01- +/-0.005mm
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
Equipment	3/4/5 Axis Center Machining
Brand Name	INDUSTRIAL-MAN
CNC Machining or Not	CNC Machining
Delivery Time	3-5 Days
OEM/ODM	Accepted
Product Name	CNC Lathe Turning Parts, CNC Machining Turning Parts, CNC Turning Machining Parts
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Applications:

Industrial Man provides a wide range of custom CNC machining services, including CNC turning, CNC milling and 5 axis CNC machining parts. Our CNC machining auto parts are designed and manufactured in accordance with the highest quality standards, with the highest grade material and the most advanced technology. Our CNC machining shop is equipped with advanced CNC machining centers, multi-axis CNC turning machines, lathes and grinding machines, and CNC machining parts can be manufactured with high precision and high accuracy. We also provide a variety of surface treatments, including anodizing, electroplating, polishing, etc., to meet the requirements of different customers. Our CNC machining parts are widely used in the field of aerospace, medical, automotive, industrial, etc., and have won the trust and recognition of many customers.

Industrial Man's custom CNC machining parts are strictly controlled in terms of tolerance. We can provide machining parts with tolerance ranging from 0.01 to +/-0.005mm. We also have the ability to provide OEM/ODM services to meet customer needs. The high quality and reliable CNC machining parts are widely used in various industries, and have been well received and praised by customers.

Industrial Man is committed to providing high quality and cost-effective CNC machining parts. We have professional technical personnel to provide customers with a full range of services, from design to production, to meet customer demand. We have established a good reputation in the industry and have been trusted by many customers. Our CNC machining parts are of high quality, reliable performance and reasonable price, and they are widely used in various fields.

Customization:

CNC Turning Machining Parts

Brand Name: INDUSTRIAL-MAN

Model Number: OEM

Place of Origin: Guangdong, China

Equipment: 3/4/5 Axis Center Machining

Drawing Format: STP . STEP . IGS . PRT . X_T

Sample: Available

Micro Machining or Not: Micro Machining

Focus: CNC Machining Metal Parts, CNC Machining Turning Parts, CNC Machining Metal Parts

Support and Services:

CNC Turning Machining Parts Technical Support and Service

We provide high quality technical support and service for CNC Turning Machining Parts. Our experienced engineers can provide you with technical advice, troubleshooting, and repair services to ensure the best performance from your machining parts.

Our team is experienced in troubleshooting, repairing, and replacing parts for CNC turning machine. In addition, we also offer software and hardware upgrades and maintenance services. We can install and configure all operating systems, as well as diagnose and repair any software or hardware problems.

Our experts can inspect, test, and adjust CNC turning machines to ensure their performance is optimal. We also provide regular

maintenance services to maximize the lifespan of your CNC turning machines.

We also offer comprehensive training services to help you get the most out of your CNC turning machines. Our experienced engineers and technicians can provide you with hands-on instruction and advice to ensure your operators are up to date on the latest technologies and techniques.

We strive to provide you with the best technical support and service for CNC Turning Machining Parts. If you have any questions or concerns, please don't hesitate to contact us.

Packing and Shipping:

Packaging and Shipping for CNC Turning Machining Parts:

In order to ensure the safety of CNC turning machining parts during transportation, we use standard export packaging. We use corrugated boxes or wooden boxes, and then we wrap the parts with plastic film or bubble wrap to prevent damage to the parts.

We offer several shipping options for customers to choose from. We can ship the parts by air, by sea, or by express delivery. The specific shipping cost depends on the size and weight of the package.

FAQ:

Q1: What is CNC Turning Machining Parts?

A1: CNC Turning Machining Parts is a kind of part that is machined by using CNC technology provided by Industrial Man with OEM Model Number, which is made in Guangdong, China.

Q2: What material of CNC Turning Machining Parts do you provide?

A2: We provide CNC Turning Machining Parts made of stainless steel, aluminum alloy, copper alloy, carbon steel as well as other special materials.

Q3: What is the process of CNC Turning Machining Parts?

A3: The process of CNC Turning Machining Parts includes CNC turning, milling, drilling, tapping, honing, polishing, grinding, etc.

Q4: What is the application of CNC Turning Machining Parts?

A4: CNC Turning Machining Parts can be used in various industries including automotive, aerospace, medical, robotics, food machinery and other industrial fields.

Q5: What is the lead time of CNC Turning Machining Parts?

A5: The lead time of CNC Turning Machining Parts depends on the quantity, complexity and material of the parts. Generally, the lead time is around 4-5 weeks.
