

Onsite Aluminum CNC Milling Machining Parts 3 Axis ISO 2015

Our Product Introduction

For more products please visit us on lathecncmachining.com

Basic Information

- Place of Origin: Dongguan, Guangdong
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Equipment: 3/4/5 Axis Center Machining
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Product Name: CNC Milling Machining Parts
- Surface Treatment: Customer's Request
- Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
- CNC Machining Or Not: Cnc Machining
- Highlight: **Onsite CNC Milling Machining Parts, CNC Milling Machining Parts, aluminum parts cnc machining**

Product Description

Product Description:

Our Product

CNC machining parts are computer numerical parts that are usually created by the use of milling machining, which is a process that uses a cutting tool to remove material from a workpiece to create a specific design. Our CNC machining parts are made with precision and accuracy, with tolerance levels ranging from 0.01 to +/-0.005mm. We have the capability to machine a wide range of materials, including aluminum, brass, bronze, copper, hardened metals, precious metals, stainless steel, and steel alloys. Our CNC machining services include broaching, drilling, laser machining, milling, turning, and wire EDM. Our advanced equipment includes 3/4/5 axis center machining, allowing us to meet and exceed the requirements of our customers. We have a low MOQ of just 1 piece. Our CNC machining parts are ideal for any industrial application and can be customized to meet specific requirements. With our extensive experience in CNC machining and milling machining components, we have the expertise to deliver superior quality CNC machining parts for your project. We are committed to providing our customers with the highest level of service possible. Contact us today to discuss how our CNC machining parts can help you achieve your goals.

Features:

Product Name: CNC Milling Machining Parts

Equipment: 3/4/5 Axis Center Machining

Tolerance: 0.01- +/-0.005mm

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Brand Name: INDUSTRIAL-MAN

Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM

Focused Keywords: Milling Machining Components, Milling Machining Components, CNC Milling Parts

Technical Parameters:

Parameter	Specification
CNC Machining or Not	Cnc Machining
Place of Origin	Dongguan,Guangdong
Equipment	3/4/5 Axis Center Machining
Type	Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM
MOQ	1 Piece
Brand Name	INDUSTRIAL-MAN
Tolerance	0.01- +/-0.005mm
Certification	IATF 16949: 2016/ISO 9001:2015
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Drawing Format	IGS STP STL

Applications:

INDUSTRIAL-MAN CNC Milling Machined Parts are computerized machining parts with a model number of OEM. Made in Guangdong, China, these CNC Milling Machined Parts can be used in a variety of applications, ranging from 3/4/5 Axis Center Machining to Micro Machining. These parts are highly customizable and can be surface treated according to customers' requests. The MOQ is 1 Piece. INDUSTRIAL-MAN CNC Milling Machined Parts are the perfect choice for businesses that need precision machining, as they offer superior accuracy and repeatability. These parts are ideal for medical, aerospace, automotive, industrial, and other applications that require precise components. With their high-quality construction and excellent durability, INDUSTRIAL-MAN CNC Milling Machined Parts are the perfect choice for any machining job.

INDUSTRIAL-MAN is a well-known brand that specializes in CNC Milling Machined Parts. Their products are renowned for their accuracy, precision, and reliability. The company has a long history of producing high-quality parts that meet customers' exact specifications. INDUSTRIAL-MAN CNC Milling Machined Parts are the perfect solution for any application that requires precise parts and high durability.

Customization:

INDUSTRIAL-MAN CNC Milling Machining Parts

Model Number: OEM

Place of Origin: Guangdong, China

Product name: CNC Milling Machining Parts

Tolerance: 0.01- +/-0.005mm

Drawing Format: IGS STP STL

Certification: IATF 16949: 2016/ISO 9001:2015

We specialize in providing customized **Numerical Control Parts** and **CNC Milling Parts** with high precision and zero defects.

Support and Services:

Technical Support & Services for CNC Milling Machining Parts

Provide technical consultation on machining process & design.

Assist with selection of the best machining process for components.

Provide on-site machining services.

Provide machining training services.

Produce spare parts to replace worn parts.

Provide maintenance services for CNC milling machines.

Provide quality assurance services.

Provide post-machining services, such as heat treatment, surface treatment, etc.

Provide packaging services for machined parts.

Packing and Shipping:

Packaging and Shipping for CNC Milling Machining Parts

We package CNC Milling Machining Parts with lots of care to ensure that they arrive in perfect condition. Our packaging materials are designed to protect the parts from damage during transport, storage, and handling. We use shrink wrap, bubble wrap, and cardboard

boxes to package our CNC Milling Machining Parts.

We offer shipping options to our customers. We use reliable carriers such as FedEx and UPS for deliveries. We also offer express shipping for urgent orders. Our shipping rates are based on the size and weight of the package. We also provide customers with tracking information so they can track their orders.

FAQ:

Q1: What is CNC Milling Machining Parts?

A1: CNC milling machining parts are parts made of metal and other materials by using computer numerical control (CNC) milling machines. The parts are typically used in industrial manufacturing and production.

Q2: What is the brand name of CNC Milling Machining Parts?

A2: The brand name of the CNC Milling Machining Parts is Industrial Man.

Q3: What is the model number of CNC Milling Machining Parts?

A3: The model number of CNC Milling Machining Parts is OEM.

Q4: Where are CNC Milling Machining Parts manufactured?

A4: CNC Milling Machining Parts are manufactured in Guangdong, China.

Q5: What materials are CNC Milling Machining Parts made of?

A5: CNC Milling Machining Parts are made of metal and other materials.
